HAWLEY DEFENDS REFUND OF TAX TO STEEL CONCERN

WASHINGTON, March 20.—The cross fire in the house over the recent \$33,000,000 tax refund to the United States Steel corporation again broke out today with Representative Garner of Texas, the democratic leader, attacking the settlement after it had been defended by Chairman W. C. Hawley of the joint committee on internal revenue legislation. Hawley said that the refund was just and added that Representative Garner had failed to state the facts.

Garner, in assailing the refund, recently said that the joint committee which passes on tax refunds, had failed to give the refund proper consideration. He also proposed that a committee investigate the policy of the treasury in such cases.

Reviewing the steel corporation case, Hawley asserted that two rooms in the treasury building were filled with records and asserted that the Texas had neglected to study them.

The joint committee chairman asserted the soundness of the refund was shown by a comparison of the original tax with the tax liability as shown by the final statement.

Praising Secretary Mellon, Hawley said "every election following an attack on the secretary of the treasury has resulted in increased majority for the republicans in the house."

Harry Boyle, president of the Unipqua post American Legion Glee club, is today urging members of that organization to be present at the meeting of the club Friday night. A large attendance is desired because of the importance of several matters that are to be given consideration, one being the presentation of an entertainment during the latter part of April.

WAR DEPARTMENT LETS CONTRACT FOR 123 NEW AIRPLANES

WASHINGTON, March 20.—Contracts for 50 new attack planes and 73 bombing planes at a cost of \$2,900,000 were let today by the war department.

The attack planes will be built by the Curtiss Airplane and Motor company. They will be of the model A-3-H. When delivered the army will have a total of 73 planes of this type.

The Keystone Aircraft corporation was awarded the contract for the bombing planes at a cost of \$2,200,000.

Each of these giant bombers will be powered with two Pratt and Whitney 525-horsepower air cooled engines.

At the same time the department announced that procurement of new army airplanes from funds which may become available for the fiscal year 1931 was being held up until the appropriation bill now before congress has been passed.

Roy A. Young, governor of the federal reserve board, today urged business leaders to show more initiative and less hesitancy, asserting that the stock market experiences of 1928 and 1929 "will be fresh enough in our minds to preclude any recurrence of such speculative hysteria."
