CONGRESS TO EYE PLANNED UNION OF NORTHERN ROADS

(Associated Press Leased Wire)
WASHINGTON, April 11.—Appointment of a committee to request the interstate commerce commission to defer action on the proposed merger of the Great Northern and Northern Pacific railroads, was agreed upon today at a meeting of representatives of six northwestern states.

The committee included Representatives Burness, North Dakota; chairman; Clague, Minnesota; Williamson, South Dakota; Leavitt, Montana; French, Idaho; Summers, Washington and Butler, Oregon. All are republicans.

This action follows up the introduction of a resolution several days ago by Representative Knutson, republican, Minnesota, to suspend the authority of the interstate commerce commission to approve any railroad mergers until congress acted to protect the public interest.

The meeting today was called by Knutson and was attended by 15 representatives of the states traversed by the two rail lines.

ORGAN CONCERT AT CHURCH PLEASURES

A fairly large and very appreciative audience last night attended the pipe organ concert given at the Christian church by Miss Alice Clement, dean of the school of music at Linfield college. Miss Clement, one of the state's outstanding organists, presented a

program that was especially pleasing, demonstrating a sympathetic touch and masterly control, with perfect technique. The concert was made doubly interesting by the brief descriptions which Miss Clement gave in connection with each selection, explaining the theme and different passages. The program was sponsored by the Douglas county chapter of the Oregon State Music Teachers association.

W. L. MARKS SWELLS CONSCIENCE FUND

(Associated Press Leased Wire)
SALISBURY, Ore., April 11.—Senator Willard L. Marks of Albany, candidate for president of the senate at the 1931 session of the legislature, today contributed \$255 to the state "conscience fund." He is one of several members who have refunded to the state the money provided members of the 1927 legislature for expenses at \$5 a day. The payment was provided for by a joint resolution, and refunds have been made since the supreme court held unconstitutional a similar resolution of the 1929 session.

NEW YORK HEIRESS WEDS EX-NEWSBOY, CART DRIVER'S SON

LONDON, April 11.—Happy as the bride of a 21-year old British newsboy, Vivienne Huntington, 27-year old New York heiress will leave tomorrow with her husband, Alfred Cecil Durban, for Toronto, where they hope to make their home.

Mrs. Durban is the daughter of the late Charles Pratt Huntington, architect of New York, and a cousin of Archer Milton Huntington, New York author. The groom until his marriage March 15, earned his living selling newspapers outside Folkestone station. His father drives a butcher's cart.

The registry office ceremony was witnessed by only three persons, a fellow newsboy of the groom, a railroad porter, and the registrar. The bride's mother was

in Switzerland at the time and neither she nor the groom's people knew of the wedding until after the two had been made man and wife.

They went to Brighton on a short honeymoon after their wedding and then returned to palatial Embrook manor, Cheriton, where the bride and her mother have lived for 18 months. The newlyweds made themselves at home and have remained since.

The bride said Durban used to deliver papers at the manor where they live. There were occasional chats at the door and later she began to admire him and could see that he was fond of her.

"I had always said I would never marry a man beneath my station," she said, "but you see what love does. We walked out together very secretly many times, enjoying dodging people who were likely to recognize us. Then he told me he would like to marry me."

"No other man in the world could have made me happier. He is most adorable, a perfect darling."

Archer Milton Huntington, New York author, cousin of Vivienne's mother, is one of the richest men in the United States.

22 PERSONS HURT IN BOMBAY CLASH

(Associated Press Leased Wire)

BOMBAY, India, April 11.—Twenty-two persons were injured in rioting outside the courthouse here today when a number of feroz passive resistance during a police raid on national congress headquarters, were sentenced to various terms of imprisonment.

A large crowd attempted to get at some of the prisoners, as they were removed, for the purpose of handing garlands on them. The police fought them off and the Indians changed from passive resistance to reply with a shower of sandals and stones.

Then police, of whom three were Europeans, were injured in the rain of missiles. The police then charged the crowd with their bludgeons, scattering them. There were 12 casualties among the Indians.

LAST DAY TOMORROW

FREE A "MIRRO" KOMPACT OVEN SET

—this month only
Large sums to be saved in food-stuffs, digestion and dispositions to improve, as way to prevent baking failures is found.

Like many another woman, Mrs. Haefner, clever and accomplished in most of the things which engross the matrons of today, was a self-acknowledged failure when it came to baking a cake. And her pies, and even such simple things as biscuits, were nothing to brag about.

Often she had wondered how her friend, Mrs. E. F. Hogan, had achieved such success that her reputation as a cake baker had spread through the neighborhood. Finally, she mustered up the courage to ask Mrs. Hogan to tell her the secret of her art.

"My dear," Mrs. Hogan replied, just as she took out of the oven a wonderful sunshine cake, so even in shape, so uniform in color, that it hardly looked real. "It isn't an art at all. The whole trick is in having an oven whose heat is so uniform that you never have to shift the pans, never even have to look at the baking from the time you put it in until you take it out."

Many other women are sharing in Mrs. Haefner's "great discovery," and are finding in the new Estate Gas Range a sure way to proficiency in the baking of cakes, pies, cookies and other good things, as well as in the preparation of the modern, time-saving oven dinners.

For here is a range with an oven that is practically infallible—an oven in which it is no trick at all to turn out cakes, pies, biscuits, as perfect in color, shape and texture as the beautiful color pictures in the magazines.

HERE'S THE REASON WHY
Absolute uniformity of oven heat is the reason. There are no "hot spots" in the Estate Fresh Air Oven. Built with a double wall all around, on the same principle as a double boiler, it heats evenly on all sides, top and bottom.

Hence, no more straw-testing, no more pan shifting. Baking, no matter where it is placed in the oven, comes out evenly baked and browned. "Luck" is eliminated—perfect results, every time, are assured.

Of course, there are other reasons why the new Estate Gas Range is a joy to the heart of a housewife. Beautiful to look at and so easy to keep clean in its gleaming air-enamelled finish—white and French gray, or ivory with smart color trim; equipped with the Therm-Estate Oven Heat Control and a cooling start which takes all the guess out of cooking; concealed piping; new Rigidex type gas cocks; and a dozen other modern features.

We are exclusive agents for Estate Ranges, and would welcome an opportunity to show you the new line.
The Gas appliances demonstrated during this series of cooking classes operate on any approved compressed gas. Some of the compressed gas that is approved for use in these ranges and other appliances are:
