Orders reported by 185 identical mills were 19.60 per cent below those received by the same mills during the first 15 weeks of 1929. Inventories of 140 mills are 6.22 per cent above their stocks at the first of the year.

Operating at about 39 per cent below capacity, 393 mills reporting to the association have produced eight per cent less lumber during the first 15 weeks of 1930 than they cut during the comparable period of last year.

Orders received by 214 mills from the rail trade during the past week were about 1,200,000 feet below those reported for the previous week. Domestic cargo orders have fluctuated and were about 20,000,000 feet more during the week ending April 12 than in the preceding week. Export orders showed an increase during the past week, being about 4,000,000 above those reported for the previous week.

Unfilled orders increased about 3,900,000 feet during the week. Unfilled orders decreased about 6,000,000 in the rail trade, stayed approximately the same in the domestic cargo trade, and increased about 9,000,000 feet in the export market.

DR. STEWART HAS STRONG CASE FOR VETS' HOME HERE

Dr. E. B. Stewart, who recently left for Washington, D. C., to appear before congressional committees to present Roseburg's request for the location of a branch of the national soldiers' home at this place, has informed the chamber of commerce that he is busily engaged in securing a great deal of information to present before the committees. He has conferred with the Oregon delegation, securing their recommendations and has found them very active and ready to assist in the work. He has made

According to reports received at the office of County Agent J. C. Leedy, cutworms are doing considerable damage in garden and field crops.

Conditions this season have been favorable for the development of cutworms which pass the winter in Douglas county as immature caterpillars.

Poisoned bran mash is the standard remedy for cutworms and is prepared as follows: Coarse bran, 25 pounds; paris green, 1 pound; salt, 1 pound; molasses, 1 pint; water, 1 gallon.

The bran and paris green should be thoroughly mixed while dry in a suitable container. The molasses and salt should be dissolved in the water and poured slowly over the poisoned bran, and mixed to form a crumbly mash.

This material scattered thinly over the surface of the soil or along the rows of plants late in the evening has proved very effective in the control of cutworms, being preferred to the vegetation, and is not expensive.

ATTENTION MASONS
Work in 3rd degree Wed-nesday night. Lodge following.

LUMBER OUTPUT INCREASES WEEK ENDING APRIL 12

SEATTLE, Wash., April 21.—A slight increase in lumber production and a material increase in orders is reflected in the reports of 214 mills in the Douglas fir region of Oregon, Washington and British Columbia to the West Coast Lumbermen's association for the week ending April 12. New business received during the week was 5.16 per cent below production. Orders reported by these mills during the first 15 weeks of the year were 5.27 per cent below their output for the period.

Orders reported by 185 identical mills were 19.60 per cent below those received by the same mills during the first 15 weeks of 1929. Inventories of 140 mills are 6.22 per cent above their stocks at the first of the year.

By hundreds the tourists came, the toddlers with their elaborate Easter baskets—chicks and eggs and bunnies, bunnies and eggs and chicks, made of chocolate, made of sugar or made of fuzzy cloth.

Three-year-old Billy Smith, with a basket almost too large to lug, had eggs with flapper faces painted on them by his older sister Katherine.

The prettiest flapper of all was for Mrs. Hoover. Billy's name and address was written on that so she would know who gave it to her.

Mrs. Hoover has been confined to her sitting room with a sprained back for two weeks, but those who know her best said she certainly would come out for the children if she could.

Gay ribbons of three May poles, to be wound for them today by the children of Friendship house and of Neighborhood house, fluttered in a stiff morning breeze.

A band stand told of the concert to come—from Uncle Sam's red-jacketed musicians, the crack marine corps band.

Lilacs and the double cherry blossoms were out. Robins hopped about. The great white house fountain started playing and spraying for the children.

Outside the gates the Balloon man, with inflated Easter rabbits under his light baubles, and an organ grinder, with his dancing monk "Bobby," gave the Easter vacation day its gala atmosphere.

Within, every knoll, every stretch of lawn, was alive with its egg rollers—though some small boys used them for baseballs, not marbles.

two trips to Dayton, Ohio, headquarters of the national home, to obtain additional data and states that it is going to be possible to submit a very complete case. He is quite encouraged over the prospects, but states that the anxiety of congressmen to get away from Washington to carry on their political work at home may result in postponement of the hearing, although every possible effort is being made to get the issue to a head at the present session.

EGG ROLLING ON LAWN AT CAPITAL DELIGHTS KIDDIES

(Associated Press Leased Wire)

WASHINGTON, April 21.—Easter Monday, one of the brightest of the year for capital children, set the annual Easter egg rolling merrily under way.

Forty-seven thousand saw that spectacle last year and the chances were good more would see it today.

By hundreds the tourists came, the toddlers with their elaborate Easter baskets—chicks and eggs and bunnies, bunnies and eggs and chicks, made of chocolate, made of sugar or made of fuzzy cloth.

Three-year-old Billy Smith, with a basket almost too large to lug, had eggs with flapper faces painted on them by his older sister Katherine.

The prettiest flapper of all was for Mrs. Hoover. Billy's name and address was written on that so she would know who gave it to her.

Mrs. Hoover has been confined to her sitting room with a sprained back for two weeks, but those who know her best said she certainly would come out for the children if she could.

LOCAL CLIMATIC ASSET NEGLECTED, WRITER DECLARES

Roseburg people are failing to make the most of their climatic advantages in their publicity, according to a prominent chamber of commerce secretary, who writes to W. C. Harding, local secretary, concerning the recent article in the Morning Oregonian with reference to the soldiers' home. Dox to the position occupied by the writer, Mr. Harding states, his name cannot be given in connection with his letter, but he makes some valuable suggestions in the message, which is as follows:

"I have read with a great deal of interest the story in Sunday's Oregonian by Mr. Miller regarding a national soldiers' home at Roseburg. This is a very fine presentation and I have no doubt you furnished most of the information upon which the story is based.

"Several years ago my interest was aroused in Roseburg by the statement of a traveling man to the effect that Roseburg has the finest climate in the northwest. I have noticed since that the temperature in summer is not as hot there as many other places and that it does not get so cold in winter. The annual rainfall is about right.

"It has seemed to me that the Roseburg people are not making the most of their climate and ideal living conditions. I have had the idea in the back of my head for years that I would like to locate in just such a place as Roseburg—buy a small place and spend most of my time out of doors. I believe there are hundreds and thousands of people over the country who would be delighted to locate in just such a place if they knew about it.

Many people of means want to get away from the severe winters of the central west and north and the hot summers, they are not attracted to irrigated sections as they know nothing about irrigation and they shrink from sections of excessive rain. You have ideal conditions there.

"A program of improving your town to make it attractive to outsiders and advertising your attractions as a residence city together

with small acreage tracts, would, it seems to me, bring hundreds of people of means to your community. Maybe I am mistaken, but if I could dispose of real estate holdings back in Nebraska, I would locate in such a place as Roseburg tomorrow and I believe there are hundreds who would do the same, if they could be told what you have."

ANTLERS.—Today, Bebe Daniels in "Love Comes Along," all-talking and singing; Thursday, Friday and Saturday, "Husker," with Buddy Rogers and Nancy Carroll, all-talking, dancing, singing.

LIBERTY.—Today, "City Girl," with Mary Duncan and Charles Farrell, talking; Tuesday, Wednesday and Thursday, "The Woman Racket," with Tom Moore, Blanche Sweet, all-talking; Friday and Saturday, "Temple Tower," all-talking.

SENATE AGAINST ORIGINS BASIS OF IMMIGRATION ACT

WASHINGTON, April 21.—The senate today voted, 32 to 24, for repeal of the national origins basis for restriction of immigration, which went into effect last July 1.

President Hoover recommended repeal of the national origins provision a year ago but congress then refused to act upon it.

The bill by Senator Harris, democratic, Georgia, proposing to apply restrictions to immigrants from Central and South America, must still be approved by the senate and acted upon by the house.

Under the Norbeck amendment, annual immigration from European countries would be pared down from 150,000 to 120,000 but the old quota basis allowing Germany and the Scandinavian countries larger percentages of the quotas would go back into effect.
