COMPARATIVE WEATHER DATA

Table with columns for City, State, Temperature, Wind, Humidity, etc. for various cities including Baker, Bly, Brookings, etc.

Weather Conditions. Light local showers, scattered during the night in portions of Oregon as a result of a slight barometric depression over the interior of the Pacific slope. The eastern disturbances centered in the lake region this morning with decreased intensity. Heavy rain is reported from central Texas, and scattered showers over the northern cotton belt. Moderately warm weather continues in the eastern states and milder weather is the rule over most of the west, except in the northern plains region where the readings have fallen below normal. The outlook for this region is for generally fair weather and continued mild temperature tonight and Wednesday. E. H. PLETCHER, Meteorologist.

Disappearance of Heir; Baffling Hindu Fakir Plays Role in Mystery

"Where's Emily?" is the only concern of exclusive Hilldale park district, the home of millionaires, since Emily Duane vanished almost on the eve of her wedding to Rodney Sayre.

Millionaires, debutantes, chauffeurs, gardeners and butlers have all combed the district to find the charming young heiress to the Duane fortune.

Miss Duane's unexplained habits delayed the start of the search for several hours. Her absence from her wedding rehearsal at her own home was regarded as simply an other broken date, and it was only after her absence was protracted into the evening that a search was instituted.

Only two clues to a motive for disappearance have been found. Robbery might have been a motive, as she was believed to have been wearing a valuable diamond necklace, a wedding present from Sayre. On the other hand, police suggest that, since by her marriage Lal Singh, Hindu fakir, would have lost a \$50,000 bequest listed in her will, her disappearance may be part of an attempt to prevent the wedding from taking place.

"Where's Emily?" Carolyn Wells will take up the hunt in the News-Review beginning Wednesday.

"Where's Emily?" is her latest story, which reaches a new peak of mystification and suspense. You'll look forward eagerly to the new chapter every day, beginning tomorrow.

There was no cause for alarm over new regulations concerning spray residue on pears in the Rogue River valley.

GOLD HILL, Ore., May 13.—H. Van Hoesen, Siskiyou valley pear grower, who returned today from San Francisco, where he attended a conference of federal authorities with the fruit growers league, said:

SPRAY RULE GIVES NO ALARM CAUSE. GOLD HILL, Ore., May 13.—H. Van Hoesen, Siskiyou valley pear grower, who returned today from San Francisco, where he attended a conference of federal authorities with the fruit growers league, said:

POEM FOR THE DAY

THE ILLUSIONS AND ADVENTURES OF LIFE. Fifty years ago a 15-year-old boy in far-off Minnesota sat by the fireside turning the pages of a monthly magazine. He read a story by Henry James, Jr., and a poem by Elizabeth Stoddard. He shipped it off and another that pointed out how to obtain success with small fruits.

How sweet the picture of this boy Who, dreaming of life's coming joy, Has suddenly, his fancy caught With this entrancing, rapturous thought! A college, altogether new, That scintillates the coming view— That does not stop with what is old But searches for unmined gold.

How beautiful these youthful dreams! Though, they may end in failing schemes, They furnish steam for all advances; Are warp and woof of life's romance. Young Joseph Ames, that dreaming youth, Through fifty years of search for truth Has kept his thirst for new surprise— Believes adventure makes us wise.

NEW AND LIGHTER GOLF BALL PROVES O. K. ON TRY-OUT

(Associated Press Leased Wire) NEW YORK, May 13.—The new and lighter golf ball has passed its first tournament test with something like flying colors.

The test of the new ball, which will go into general use the first of next year, was made in an 18-hole sweepstakes competition at the Fairview golf club, White Plains, yesterday.

While there was some complaint that the new ball did not putt well and was difficult to drive from the tee in a heavy wind, Joe Turnesa of Elmhurst, N. Y., had no protests to make. Joe won the event with a fine 70, made up of two 35's.

Turnesa's evidence was to the effect that the new ball was good for putting, that it played well out of traps, that it was just as easy to get direction with and that it carried tremendous distances with the wind behind it. He agreed, however, that it was softer against the wind a trial and a tribulation.

While MacFarlane, who had a 77, declared the ball interfered with his putting but admitted that it was easier to play from the rough. Bobby Cruickshank, although his best also was a 77, declared the ball was a great improvement over the old one and asserted it would put a premium on wood play from the fairway, where he thought it belonged.

Specifically Turnesa's performance on two holes seemed to disclose the strength and weakness of the new ball. At the 548-yard sixth, with a stiff wind behind him, Turnesa reached the green with his second, something he said he never had been able to do before at that particular hole. On the other hand, at the 429-yard tenth, where he had to drive into the wind, Joe failed to reach the green with his second although he has done it regularly with the old ball.

JAPANESE YOUTH RATES HIGHEST IN SALEM SCHOOLS

(Associated Press Leased Wire) SALEM, Ore., May 13.—Nominations for the annual award of the Joseph H. Albert prize of \$25 to the student showing the greatest progress in character, influence and intellectuality have been made by the faculty of Salem high school.

The three students from among whom the final selection will be made by the senior class are George Sugai, Ruth Fleck and Gertrude Winslow. Sugai, a Japanese, is among the best 10 students and is prominent in athletics; Miss Fleck is vice-president of the student body, Miss Winslow is

HOOVER TO VISIT NORTHWEST CITIES. PORTLAND, Ore., May 13.—L. C. Newlands, president of the chamber of commerce, received a telegram from Senator Charles McNary, republican, Oregon, stating that President Hoover probably would visit Portland and Seattle during the summer. The senator said President Hoover "intended visiting all the parks in the Pacific northwest and cities like Portland and Seattle."

Restless, Nervous?—drink "Ficgo". The most wholesome palatable Coffee-Substitute you ever had! Good for your Stomach and your Nerves. It relieves Constipation! It always pays to buy the Best.

The Trade-mark. Old silversmiths, in order to help people tell pure silver from cheaper imitations, marked the real thing "sterling." In a like manner, manufacturers, who stand back of their wares, identify them with trade-marks that are your guarantee of quality. By advertising these trade-marks, they focus on their products the searchlight of attention. Only good goods, fairly priced, can flourish in this light of publicity. For no merchandise and no business can thrive under the weight of public condemnation. That is why a manufacturer, or a merchant, places the whole reputation of his business at stake every time he advertises. His goods must be as advertised. So, in looking through this paper, remember this: the man who spends his money to invite your consideration of his wares backs up his belief in his goods and leaves the final decision to you. It pays you to read the advertisements. It pays you to buy advertised products. ADVERTISING IS YOUR PROTECTION.
