Portland Supports Roseburg Home Bill

NOW that the committee on military affairs has amended the bill that is now before congress calling for the establishment of a branch of the national home in Roseburg it is pleasant to know that we have the unqualified endorsement of the city of Portland. Both the Portland Oregonian and the Portland Journal have endorsed the project for Roseburg. The Portland chamber of commerce directors passed a resolution endorsing Roseburg as the location of such a home and on Wednesday of this week the Portland Telegram published the following editorial:

Soldiers' Home at Roseburg
 "A bill authorizing the establishment of a national soldiers' home at Roseburg, Ore., has received the endorsement of a subcommittee and will probably be recommended to the favorable consideration of congress. The Oregon delegation is working as a unit for the measure, the Portland chamber of commerce urges it and all the people of the state must earnestly desire that the bill pass and this retreat for disabled and dependent volunteer soldiers become a reality."
 "The nearest national soldiers' home is at Sateville, in Southern California. It has a capacity of 5000, and during the winter months more than 1500 applicants were denied admission for lack of room and facilities for providing for them. The next nearest institution of this kind is in South Dakota and a third is in Leavenworth, Kansas."

"There is every reason that a home should be located somewhere in the northwest in order that the soldier residents of this great area may have a place of retirement reasonably near their families in a mild, equable climate not too different from that to which they have been accustomed and in a community that in spirit and physical surroundings, helps to make the aged veterans feel at home."

Roseburg perfectly answers these requirements. The fertile valley of the Umpqua is habitually favored of the weather. It is centrally located with respect to the thousands of survivors of the Spanish-American and World wars who live in the northwest and with advancing age, will seek such a haven in increasing numbers."

"The fact that the state soldiers' home already at Roseburg has found its environment entirely satisfactory is an argument in favor of selecting a nearby site for a national home that could be built somewhere in Oregon."

"It is not enough merely to wish for this institution. We must make our wishes known at Washington. The state chamber of commerce and every local branch, veterans' organization, civic club, city officials and every one interested in furthering the interests of the state and of the soldiers, should make their separate demands and convince the committee and the members of congress that Oregon is wholeheartedly behind the project."

Petitions are now being circulated for the purpose of placing the Rogue River fishing constitutional amendment on the ballot in November. Because a voter signs this petition does not mean that he or she favors the closing of the Rogue to fishing. The purpose of the petition is to get the measure before the people. After enough signatures have been placed upon the petition it is filed with the Secretary of State who orders it placed on the ballot. Whether or not you believe in closing the stream it will do no harm to sign the petition.

Even Portland is not so large but what it can profit by good examples set by smaller places. Note its action last week in electing a man by the name of Newland as president of its chamber of commerce. They have seen what we are doing down here when we have a man by that name as president of our chamber. And speaking of names, we have what might be termed a "national hook-up." Our mayor's name is Hoover, and there is a man traveling all over the country by the name of Roseburg—Eugene Roseburg.

A Fox Newsreel title writer was surely inspired when he wrote the following as a title for a picture of a forest fire lookout station: "Aberdeen, Washington—This tall tree holds one of the lookout stations which help guard the INDIANS against forest fires." Had he made some reference to the salivary warfare the thing would have been complete.

And why should there have been so much excitement in this election? On the whole ballot there was only contest for three state

offices—you had your choice of more than one in only three instances.

Oregon Editors' Opinions

(Corvallis Gazette-Times)
Corvallis says the other day asked us "What is a successful man?" We note that Mr. Carlton, head of the Western Union Telegraph company is quoted by an eastern reporter as saying "Success depends on getting the breaks." We can't help but think Mr. Carlton was thinking of pecuniary success. That's important only as it contributes to happiness. The successful man is the one who has found how to be happy and it doesn't matter whether he has money or position or influence or friends, or education. If he is happy, he is a successful man. We are here a very short time. We pass out too soon. If the period of our staying has been one of happiness, we have been successful, for we take nothing with us just as we brought nothing when we came. People strive and struggle and work and put up with unpleasantness that could be avoided because they want to keep up with the Jones or some other reason equally important. If the struggle makes them happy, all right, otherwise it is silly. The most important thing in the world is to be happy and he who has found happiness has found success.

Utilities and the Public
 (Albany Democrat-Herald)
 Salem voted two to one for a municipal water system. This shows what the people will do when they think that the utilities have not been fair with them.

Not So Far Wrong
 (Hend Bulletin)
 From the manner in which philanthropies are conducted, we suppose that the beneficiary who mentioned receiving indignant relief may not have been so far off at that.

Bailey's Qualifications
 (Salem Capital Journal)
 As Mr. Bailey is liberal and progressive without being demagogic, has a level head and sound common sense instead of being emotional, he is the opposite in every way of the republican nominee and his chances for election by other than "mudslip" elements are very bright. The 18 per cent spotted tail may not be able to wag the G. O. P. dog.

Prune Standardization
EARLY in June men who dry Oregon prunes and sell them will meet in Eugene. The session is called by the State Horticultural society. The object is standardization.

Five recommendations have been made:
 That one grade be established and that fruit not meeting the grade be sold on sample.

That moisture content be not less than 18 per cent or more than 23 per cent.

That the Weigand flotation method be used to determine maturity.

That an advertising fund be created by a levy of \$2 a ton.

That a special ad valorem tax be levied on the cooperative prune associations, one from the packers and a third not connected with either group but preferably a banker, who could act as treasurer.

Oregon applies need no California brand to market them as Oregon prunes long have been marketed. The apples are standardized.

Oregon potatoes, graded, are bought with confidence as to quality for cooking and as to freedom from disease when planted.

Oregon wheat is sold around the world on a federal system of grades and standards.

Oregon butter is beginning to command a greater market because of the confidence that the next legislature will pass a cream grading law that will assure returns to producers in accordance with quality.

Oregon prune growers have had difficulty not with production but with organization and sales. There is a proposal from an official source that they follow the experience of all successful industries—rigidly standardize their product and sell it by aid of modern merchandising and advertising.

VETS AND FAMILIES AT EUGENE CONCERT

Accepting the invitation of the Eugene Gleemen to attend their annual concert, presented last night at the School of Music auditorium on the university campus, a number of the members of the Umpqua post, American Legion Glee club, together with members of their families, drove to Eugene last night to attend the entertainment.

The concert was greatly enjoyed. John Stark, Events director of the Eugene Gleemen, is also directing the Legion Glee club here, and it was through Mr. Evans that the local organization received its invitation. Among those making the trip were Mrs. James Sanders, Mr. and Mrs. Noble Gietz, Mr. and Mrs. H. C. Boyle, Mrs. Rose Kinn, and Mrs. Ward Cummings, Frank Hills, Fred Pernekorn, Mr. and Mrs. Ted Post, Perry Smith, Frances Landolt and Mr. and Mrs. A. B. Cacy.

CELIA DICKSON RITES ARE HELD IN SALEM

The body of Celia Dickson, who died at Seaside Wednesday, was taken to Salem today in the Douglas Funeral home coach. Services are being held from 10:30 to 11:30 a. m. at the funeral home chapel in Salem this afternoon.

MRS. HASH RESTING WELL AFTER AN OPERATION
 Mrs. W. L. Hash, who underwent an operation Thursday at the Portland sanitarium in Portland, is reported getting along nicely. She was taken to Portland in the Douglas Funeral Home ambulance.

Talks on Health

By DR. R. S. COPELAND

BEAUTIFUL and useful are the parks of a great city. To thousands of persons they give the benefit of the out-of-doors, a place to play and a place to rest.

Those who have the benefits and joys of the country little realize what multitudes there are who cannot get out of the city. The thousands who live in the tenements of the city find in the parks recreation and better health.

Every human being and animal must have fresh air and sunshine in order to live. The first early days of summer are times when the very thought of getting out-of-doors gives new life and impetus to the day's work. The more one has of these blessings the longer he will live.

Most of the city parks are natural beauty spots. As such every adult and every child should enjoy them to the full, but not despoil them. Do not litter them with papers and boxes. Leave them as clean as they should be.

Get out into the parks as often as you can, in the direct sunlight. The cool breezes stimulate and rest the nerves, and whatever exercise you can get is so much to the good for your health.

Every person needs new inspiration and you can get plenty of inspiration in our beautiful city parks on the sunny days. Did you ever get up in the early morning for a good brisk walk down one of the parkways? How much better off we would be if we did this every morning. You are just as physically fit as you make yourself.

Why not try this for exercise and inspiration in the early morning hours?

Maybe you don't have to spend all of your recreation time in the park. Perhaps you own a car. A day spent in the country can be most beneficial. You spin over hill and dale, past meadows and corn-lands, seeing the beauties made by God and man as you go. Beautiful gardens, the deep, cool woods, a tumbling stream, or a distant lake, all make up a beautiful landscape picture in your mind's eye as you return to rest.

Talking of beautiful gardens, it is a beautiful and gracious custom in many places to have the gardens of large estates opened to the public on certain days of the week. More people should take advantage of these lovely spots. There is a mental stimulus and satisfaction of

Advice to Girls

By NANCY LEE

DEAR NANCY LEE:
 I am in love with a boy one year my senior. Recently he went to the hospital. Would it be proper to write to him to cheer him up? He has a broken arm and is unable to write.

LOVESICK SALLY:
 I am sure that your friend would appreciate a nice friendly letter from you and that a book or some magazine would not come amiss. When one is in a hospital, anything that helps to dispel monotony is welcome.

DEAR NANCY LEE:
 I am a widow, forty-one years old and I truly am in love with a fellow thirty-one, and he loves me. But I feel as though I were too old to marry him. But I do love him so much. Please tell me what you think.

H. E.:
 Ten years is a considerable difference in ages, when it is the woman who is the senior. Of course, there have been some happy marriages under similar circumstances, but generally such alliances are not overwhelmingly successful, for in later years, the difference becomes too apparent. The woman finds it increasingly difficult to hold her husband's affection and attention, and she finds very little sympathy when she complains of her unhappy marriage. And so, if you really feel that the disparity in your ages is too great it would be wiser to find someone of more suitable years if you wish to marry.

DEAR NANCY LEE:
 Will you please answer these questions?
 1. Is it proper for a girl to talk to three and four fellows at a time?
 2. When with a fellow, is it proper to talk to another boy?
 3. Do you think it is right to go with a boy somewhere and come back with another?
 4. It is proper to go home from a dance or a show with a boy you had never met before?
 5. Is it proper to go out every night with a different boy?
 6. What does a boy think of a girl that smokes?

THANK YOU.
 I am perfectly permissible to talk to several young men in a group. It is correct to return from an outing with the person that escorted you there, unless there has been a previous understanding that the young man could not see your home. It is neither proper nor right to go out every night with a different young man. When you wish to, you will not be taken seriously by the right one when he comes along.

PORTLAND'S ROSE FESTIVAL TO HAVE FRESH FEATURES
 PORTLAND, Ore., May 23.—With new and different features, and enthusiastically endorsed by every Portlander, Portland's 1930 Rose festival will be held this year on Thursday and Friday, June 12 and 13.

New features this year include a regatta and pyrotechnic display on the Willamette river, to be held Thursday night, June 12; an exhibition with 10,000 school children at the civic stadium Thursday afternoon; an aviation open house and air circus on Swan Island Friday and this in spite of the fact that it is the 13th, and as an hilarious concluding event, a grand Mardi Gras carnival Friday night on the downtown streets.

The festival will start with the coronation at 11 a. m. Thursday of Queen Caroline L. Eichen, with her seven princesses, from Portland's high schools. Other features will be the grand floral parade, scheduled for Friday afternoon and the rose show, which will start Thursday and continue four days.

Miss Alta Cornutt is home for a few days' visit with her parents, Mr. and Mrs. Walter Cornutt of this city.

The Canyonville baseball team is scheduled to play the Glendale locals next Sunday.
