Sunday was about normal in the Bible school. With the summer time coming on, vacations and trips of all kinds are the order. But these should not interfere with our duty in religious matters. Why? There is more happiness in religion than in an automobile. Queer, isn't it? But it can be demonstrated. Come to the services next Sunday and study with us the momentous day of Pentecost. Millions are studying it just now. The Presbyterian Sunday schools of Roseburg and Grants Pass will likely come over on Cow creek for a big picnic with us soon. There will be some more contests. The high school girls' class wants to beat cross bats with their girls' class. The final estimate has not been made, but we think our school is the winner in that recent contest in attendance. Of course those folks are good at figures and they may figure us out of it.

Upper Room Pentecostal Mission, corner Washington and Jackson streets, upstairs Douglas Abstract building. VON PORAT HANGS SIX-ROUND K. O. ON JACK GAGNON

CHICAGO, May 29.—Otto Von Porat, long ridiculed as a fighting man without a real fighting heart, has bounced back as one of the outstanding candidates for the heavyweight boxing championship. The angular Norwegian regained his standing and completely belted his soft-hearted reputation at the Chicago stadium last night by battering Jack Gagnon, knockout conqueror of Tuffy Griffith, to the canvas after six slashing rounds. The knockout victory was perhaps the most impressive turned in by Von Porat since his invasion of America. Aiming heavy right hand smashes skillfully at his fast moving target, the big Norseman was as relentless in his attack as he had been merciful in previous fights. Six times he felled the Boston job before he put him down and out for the count. The more courageous Gagnon became in the face of the heavy attack, the more furious became the barrage of punches.

Outweighing his rival 171 pounds, Von Porat spared leisurely during the first round. He floored Gagnon for counts of eight and nine with terrific punches to the head and body. He repeated his knockdowns, once in the third and three times in the sixth, before he finally finished his opponent. Von Porat's impressive victory probably blasted whatever chances he had of getting a match with Griffith, a match that probably would draw a large indoor or outdoor crowd, but it also placed him in line for bigger game. The stadium matchmaker is now seeking a bout for him with the winner of the Jack Sharkey-Max Schmeling fight for the heavyweight crown.

LOMSKI-LENHART BATTLE IS DRAW

PORTLAND, Ore., May 29.—In one of the best boxing cards seen in Portland, Fred Lenhart, Spokane, and Leo Lomski, Aberdeen, light heavyweights, put on a battle last night that had the big coliseum crowd on edge throughout and which terminated in a popular draw. Lenhart's ruggedness and fighting heart stood him in good stead. For the first six rounds Lomski had a decided edge. In the second Leo opened a bad cut over Lenhart's left eye and in the fourth did the same thing to his right eye. From that time on Lenhart was handicapped by the blood getting into his eyes. But he never let up and in the sixth round he

caught Lomski on the jaw with a hard overhand right swing and charged him like a wild man. Lomski plainly sagged at the knees, but the bell rang. Lenhart had another good round in the seventh and was forcing the fight in the tenth. Lenhart weighed 178, Lomski 173.

Mr. Conn in Town—Creed Conn, Umpqua, was a business visitor yesterday in town.

International's 7 FOR 1 Record

Proof of Remarkable Value

Every truck user should give full consideration to this fact and its bearing on his own future success with trucks:

- In ten years International Truck production has increased 700 PER CENT while the total truck production of the industry has increased only 100 PER CENT.
- Such an increase from a small beginning would not be important—it is necessary that you know and bear this in mind also:
- Ten years ago, in 1919, International Harvester was already a highly successful truck builder of fifteen years' experience. Even then it was one of the leaders of the industry, with a production of thousands of trucks per year.

From that vigorous starting point International production went into high gear. Demand for International Trucks sprang ahead by leaps and bounds, with this result:

- Last year International Harvester built seven times as many trucks as it was producing in 1919. In the same year—1929—the industry as a whole was building only twice as many trucks as were being turned out in 1919.

Year by year International Harvester reaches and passes new and significant milestones in truck success. The consistent march of the Company toward a dominant position in truck building is the best possible evidence of the value of the International product. It is the everyday truck buyer, himself, who provides this evidence. We offer this steadily growing preference for International Trucks and Service as a guide to any man in search of economical transportation.

The International Line includes Trucks ranging in capacities from 3-ton to 5-ton.

for 200 extra miles of Lubrication ... specify **MOTORITE**

—the Union Motor Oil that seals in compression

MOTORITE was developed by the Union Oil Company to meet the high speed requirements of our modern high compression motors. It is refined by an electrically controlled, secret refining process that assures a uniform high quality with minimum chance of human error.

38 Rigid Tests

In addition to this positive refining control, **MOTORITE** is subjected to 38 specific checks or analyses before it reaches the crankcase of your high compression car.

200 Extra MILES

There is no oil quite like **MOTORITE**. Tests in standard makes of automobiles prove that you can easily get 200 extra miles out of a crankcase full. Thus with **MOTORITE** you drain at 200 miles farther than you have been in the habit of doing.

Secure **MOTORITE** at any UNION OIL COMPANY service station, or where you see the **MOTORITE** sign. It's only 25c a quart.

Use it exclusively with UNION-ETHYL, for efficient mileage in high compression motoring.

UNION OIL COMPANY

MOTORITE FACTS at a glance

1. **MOTORITE**, because of its high adsorptive or clinging quality, seals all the compression in your motor and enables you to obtain the full power that the designer of your car intended.
2. **MOTORITE** resists dilution by "giving up" stray gasoline in the form of vapor without harming the lubrication efficiency of the oil.
3. **MOTORITE** possesses a variable viscosity that guarantees 100% efficient lubrication at every working temperature.
4. **MOTORITE** has a great capacity for carrying away and dissipating heat. On long drives at sustained high speeds it keeps your motor cool.
5. **MOTORITE** is super oily or super slippery and thus minimizes friction.
6. **MOTORITE** deposits less carbon and only the soft, fluffy kind.
7. **MOTORITE** contains no acid-forming properties that might corrode your motor. Used conscientiously it means fewer engine repairs.

Don't miss these advantages. Ask for this New High Compression Oil by name ... **MOTORITE**.
