

MEN PUNISHED ON LIQUOR CHARGES

(Associated Press Local Wire)
PORTLAND, Ore., June 18.—R. L. Littlefield, Cottage Grove, was sentenced to 18 months in McNeil prison and fined \$1,000 and William Ober, Astoria, was sentenced to one year and fined \$250 when they pleaded guilty to liquor charges in federal court today.

Both have been convicted previously.

Herman Green, Cottage Grove, and George Crane, Klamath Indian, pleaded guilty as first offenders and were given fines of \$50 and \$100 each with a six month parole and jail sentence.

INDIAN FUGITIVE NABBED AT SILETZ

NEWPORT, Ore., June 18.—Leo Umata, Siletz Indian, who is said to have robbed the post office at Siletz last March and later broke out of jail at Toledo, was captured today by a deputy sheriff after an exciting chase.

The officials surrounded Umata's home during the night. Early this morning the Indian leaped from an upstairs window amid a volley of shots. The authorities chased him into a thicket where he was caught.

Umata will be taken to Portland.

STORY 4 (Continued from page 1)

their policy toward the liquor traffic, he said.

"I look forward to the time when the old leaders in the temperance movement will appreciate that they have not reached a final solution of a world old problem by the present eighteenth amendment."

"I look to the time when the moral teachers of the country will realize that in the battle for a great social reform there was wisdom in the old system of experimenting in 48 laboratories rather than in one."

The prohibition party nominated Dr. James Gilbert Mason for the long term and Miss Esther H. Elferth for the short term.

Henry Jager was named by the socialist party for both terms.

Port was formerly secretary of the republican national committee. He has been a fishing companion of President Hoover and was leader of the floor forces which nominated the president at the 1928 convention.

Boomer for President
At a campaign meeting, Morrow was praised as presidential timber by Dr. John Grier Hibben, president of Princeton university and by former Governor Edward C. Stokes. Twice statements were issued from the white house denying that President Hoover favored a particular candidate.

Morrow, an Amherst classmate of Calvin Coolidge and a lawyer, was a partner of J. P. Morgan & Co., before being appointed ambassador to Mexico by Coolidge in 1927. He is the father-in-law of Col. Charles A. Lindbergh.

Joy in Mexico

MEXICO CITY, June 18.—There was great rejoicing in Mexico today among Americans and Mexicans alike at Ambassador Dwight Morrow's overwhelming victory in the New Jersey senatorial primary elections yesterday.

Election returns were furnished in bulletin form by the foreign correspondents' club and newspapers to many Mexicans and Americans who sat up late to hear them. As soon as the result was seen as certain messages of congratulation poured into the cable offices for transmission to Mr. Morrow's home at Englewood.

Hoover Vows Support
WASHINGTON, June 18.—Confidence that Ambassador Morrow would be the next senator from New Jersey was expressed at the White House today on behalf of President Hoover.

"The White House will give every possible support to the republican nominee for the senate from New Jersey," the statement said. "The president and the administration have every confidence that Mr. Dwight Morrow will be the next Senator from New Jersey."

Senator Keam, a republican from New Jersey, contended "the victory

SEALS IN HIGH COMPRESSION POWER

MOTORITE is refined to meet the high speed requirements of the new high compression motors.

It is the oiliest oil known. It has a great capacity for carrying away and giving up heat.

It resists dilution by giving up stray gasoline in the form of vapor.

It is entirely free from acid forming properties.

It forms NO hard carbon.

It seals in high compression giving 200 EXTRA miles of lubrication.

Authorities endorse and recommend it.

Drain out the old. Refill with MOTORITE. Only 25¢ a quart at any UNION Station.

was no more one for the wets than it was for the dries." He said thousands of dries voted for Morrow because he was "such an outstanding candidate that he transcended any one campaign issue."

Wets Are Pleased
Senator Tydings, a democratic wet from Maryland, said the voting had congealed anti-prohibition sentiment and was indicative of what "is happening to some extent all over the country." He held Morrow to be "blazing a trail which will take us out of a bad situation."

Anti-prohibitionists in Washington greeted Morrow's nomination as an encouraging gain in their fight for a wet majority in the senate.

Despite assertions of state republican leaders that Morrow would look with distaste on any attempt to make him the titular head of the wet forces, should he be elected in November, the wets here were more than pleased with the decisive primary victory.

It was pointed out that his nomination was the first to be won by an avowed republican wet in the 1930 primaries. Wets asserted that his victory was the more a triumph for the anti-prohibition cause in view of his prominence in public life.

designating Roseburg the site, as the need for the home, as a relief for congestion of the only home on the coast, would make it selfish for Roseburg to hold up construction of the institution longer than necessary.

The senate committee is accepting the proposition as an emergency measure and has called General Wood, chairman of the board

of soldiers' home managers, for the hearing Friday, to obtain first hand information on the plans and immediate needs as found by the board.

Would Speed Plans
The action of the senate committee, if favorable, will make it possible to develop construction plans during the summer months. The bill does not carry an appropriation for the home, but authorizes the budget committee to include \$2,000,000 for the institution. It will be necessary to pass an appropriation bill at the short session, but this will be merely a matter of form after the money has been authorized, so that the board of managers will be able during the summer to select a site, have plans and specifications drawn and all other preliminaries ready for construction to start immediately after the money is made available.

It is believed that there will be little difficulty in securing a favorable report from the senate.

Relief Need Urgent
The board of managers for the soldiers' home has been anxious to secure additional facilities for caring for veterans. Applications have been rejected in large num-

bers during the past year, due to lack of accommodations, and all of the present homes are crowded to capacity. The veterans bureau also is interested because the home would permit moving a number of men out of hospitals. General Wood is expected to greatly strengthen the status of the bill as an emergency measure before the senate which will give it a much more important standing.

Attend Graduation Exercises—Mrs. Amelia Bell and Miss Minnie Bell attended the graduation exercises Monday at University of Oregon in Eugene, Maynard Bell being one of the graduates.

FLY-TOX KILLS THEM ALL

Where was that fly before he settled on the meat? Where had those ants been before they found the bread box? Where were those mosquitoes before they pierced your skin with their stinging needles? A past that's a story of filth absolutely bans germ-carrying, loathsome insect pests from well-kept homes.

FLY-TOX—the favorite everywhere because it is stainless and fragrant—is the safe, effective way to keep your home free from the insect hordes that threaten it. Harmless to people and animals, but fatal to insects. Get the FLY-TOX habit for comfort!

Sold at grocery, drug and hardware stores.

error John Garland Pollard of Virginia.

A complete radio description of the reception at quarantine and the ceremonies at city hall will be broadcast over nationwide chains by both the National Broadcasting company and the Columbia Broadcasting system.

Admiral Byrd and his men will remain in New York only one day, leaving at midnight Thursday for Washington to be received by President Hoover and to be guests at a luncheon given by the National Geographic society.

Honors Await

WASHINGTON, June 18.—An ensign retired by the navy 14 years ago will return to Washington June 20 as the youngest of rear admirals—and with the fame of flights over both ends of the earth. The day after he steps ashore in the United States and receives New York's welcome Rear Admiral Richard E. Byrd will bring his entire Antarctic party to Washington and receive from President Hoover a special medal of honor of the National Geographic society.

To Recite Achievements
Rear Admiral Byrd will give his report of the South pole expedition to members of the society who furnished \$50,000 for scientific work, and official motion pictures of Little America will be shown for the first time.

As a navy officer who at 41 has conquered by air the Atlantic and two worlds of frozen waste, Byrd also will pay his respects to Secretary of the Navy Adams.

His career of explorations has been carried on during an extended leave from the navy—even though a leg injury caused his removal to the retired list four years after his graduation from Annapolis. That was 14 years ago.

Scarcely a month of retirement had passed, however, before the government recalled him to active duty—a service that has been continuous ever since.

Leader in Aviation

He won his wings as a navy av-

iator, was in charge of navigational preparations for the first transatlantic flight—that of the navy flying boats in 1919—and served in the bureau of aeronautics.

It was not until late in 1924 that congress' attention was called to a young officer who was a leader in naval aviation, but who was performing active duty with no chance of promotion—because he was carried on the navy rolls as "retired."

In 1925 he was voted the rank of lieutenant commander on the retired list, shortly before he was given command of his expedition to the North pole, where he won a second promotion.

The rear admiralship was voted him last year after his now historic South pole flight, and special medals for his entire party have been voted by congress.

STORY 2 (Continued from page 1)

Later he contended the remainder was expended in a manner which made it unnecessary that a report be filed.

Tinkham appeared before the committee and charged Cannon with a violation of the corrupt practices law through his failure to report the entire sum, an assertion which he repeated yesterday.

Cannon repeatedly refused to answer questions on his political activities when before the committee and contended such an examination lay outside the committee's authority. On this point he was upheld by a majority of the committee.

A report on the Cannon episode was prepared for introduction today by the committee chairman, Caraway, of Arkansas. It consisted only of the transcript of the bishop's testimony and contained no recommendations for action against him.

IT TAKES 5 MEN TO MAKE A BASKET BALL TEAM AND ALL THESE 5 QUALITIES TO MAKE GOOD GASOLINE

ASSOCIATED IS Equi-fractionated for

- 1 STARTING
- 2 PICK-UP
- 3 POWER
- 4 SPEED
- 5 MILEAGE

FROM the moment you step on the starter to the time you settle back to yield to the joy of full speed ahead, your eager motor demands five vital qualities from the gasoline it consumes. For finest performance it must have them all; Starting, Pick-up, Power, Speed, Mileage—in correct proportion.

That's why Associated Gasoline is Equi-fractionated. Lighter gasoline fractions in vapor form are scientifically blended with heavier fractions—from higher boiling points—to assure, first, Starting and Pick-up, and then Power, Speed and surprisingly long Mileage.

Step by step, just as your car gets under way from low gear to high, Associated Gasoline is Equi-fractionated to supply the successive demands of your motor.

No one quality alone makes good gasoline; it takes them all. Don't be content with less. Read the interesting "Equi-fractionated" pamphlet picturing this refining care in assuring you a perfectly balanced motor fuel. The Service-man at the red, green and cream Associated pump will offer you your copy.
