HE SUFFERED FOR YEARS WITH PILES

Bleeding Kind Was So Painful He Slept on a Pillow

TELLS HOW FINALLY HE OVERCAME PILES

"It was no clinic for me to overcome my pile trouble because I suffered more or less that way for twenty-five years, but in six weeks time I was rid of piles and feeling like a new man and thinking it simply wonderful. I am writing to let the whole world know," declares Hugo Miller, a prominent partner-hanger of Abbotford, Wisconsin.

"My piles were the bleeding kind. Pains in the bowels almost doubled me up sometimes and the pain was so bad that I couldn't lay in bed comfortably so I slept with a pillow under me. Of course I already had tried a number of remedies for piles through the years but they did no good until a couple months ago I ran across these wonderful Colace Pile Pills. The first couple bottles began to show results. The pain got less and then stopped. I kept on taking them for a full six weeks and it was marvelous the way they worked. I recommend Colace Pile Pills to everybody now," continued Mr. Miller.

Until the perfection of these pills which you swallow with a little water at meal times, about the only remedies known for piles were a surgical operation, salves or suppositories. Now nobody need suffer any longer. They are guaranteed to completely relieve you of every sign of piles or money back without quibble or question. At drug stores or by return mail on receipt of 75c in stamps or coins. Colace Chemical Co., Brentwood, Maryland.—Adv.

BABY AUTOMOBILE MAKES FINE DEBUT

The much heralded "vest pocket" edition of the Austin automobile has just made its appearance on the northwest coast, and up at Portland, according to L. R. Chambers, well known car dealer of Roseburg, who was in the Oregon metropolis yesterday, it has created a sensation. Mr. Chambers, who has secured the dealer privileges for the Austin automobile, said this morning that he will have models of the car here by July 10. In the meantime he is showing photographs of the car. While at Portland, Mr. Chambers said, he saw demonstrations of the Austin which were almost unbelievable.

This new car's possibilities around mile speed in second and 58 miles in high, and in either gear the motor works smoothly and almost noiselessly. The car weighs 1130 pounds, is built low, so that it can turn corners at high speed and not upset. The wheel base is 75 inches, the entire length being only 112 inches from front to back, and will operate over any sort of road on marvelously low gas consumption—40 miles to the gallon, the actual cost of driving being only three-fourths of a cent per mile. This new car's possibilities aroused dealers in Portland to the point of competitive bidding for privileges of sales, and two of the big retail merchandise concerns of that city were in the field for dealership rights there, besides various automobile concerns.
