GROWERS FAVOR COOPERATIVE CANNERY

Editorials on the Day's News

By FRANK JENKINS
FRANCE, "Ile de France" a few years ago, has recovered her economic stability, and is now one of the most prosperous of European countries.
Paul Reynaud, French minister of finance, gives this as the reason: "The French work hard and spend little."
TO this truthful statement by a Frenchman, let us add another on our own account, which is equally truthful:
"They have to, in order to pay for the wars which France is forever fighting, sometimes in an effort to lick the other fellow, sometimes in an effort to keep the other fellow from licking France."

MINISTER REYNAUD continues: "Contrary to legend, the French people give the government, in the form of taxes, A LARGE PART of what they earn."
Wars, you see, HAVE TO BE PAID FOR.

IT WOULD be vastly better for the people of France if they WENT ON WORKING HARD, but were enabled to SPEND ON THEMSELVES, for their own comfort and enjoyment and self-improvement, a large part of what they earn, instead of being compelled to give it to the government to pay for wars.

IT IS sword-rattling in Europe that keeps the French people working hard FOR THE GOVERNMENT, in order to pay for wars instead of working FOR THEMSELVES, in order to pay for the comforts and the satisfactions that human beings are entitled to have during the one life that is theirs to live.

SENATOR JOHNSON, of California, who just now is rattling the sword on THIS SIDE of the water, declaims in the senate, in opposing ratification of the London naval limitation treaty:

"We demanded 23 eight-inch gun cruisers, but Premier MacDonald said we couldn't have them and must take only 18. The only thing we did (at London) was to scrap OUR program and accept the BRITISH program."

IF Senator Johnson ever traded horses he probably demanded AT FIRST everything in sight for HIS HORSE, but if he wanted to make the trade he finally got down to earth and took what was reasonable.

If the nations of this world are ever to get out from under the crushing burden of competitive armaments, they too must get down to earth and accept WHAT IS REASONABLE in the way of limitation.

The sword rattlers don't want that. They want THEIR SIDE to have everything and the other fellow to have nothing.

BE REASONABLE about armaments, but DON'T BE A PACIFIST.
If you find yourself leaning in that direction, take a look at Russia, where the "dictatorship of the proletariat" has first confiscated the forests and now is impressing the labor of peasants so as to be able to manufacture lumber cheaper than anybody else on earth can manufacture it and so dominate the lumber markets of the world and bring in vast sums of money to Russia.

IF Russia were able to carry out this program, American owners of timber would be bankrupt for lack of a market, and American lumber workers would be OUT OF

Killer's Story Being Probed

DREW FARMER SAYS HE SHOT TO SAVE SELF

Grilling Fails to Shake Self-Defense Story of Man Who Shot Urban Barrett.

Lack of Disorder in Cabin Taken as Contradictory of Statement; to Continue Quiz.

Further investigation is being made today into the slaying of Urban Barrett, 38-year-old rancher, who was killed by his partner, J. W. Hamm, 70, at their hill farm located on the Red Mountain road three miles from Drew yesterday. Sheriff Jackson and deputies returned to Drew today to make a further search of the cabin in an effort to prove or disprove Hamm's story of self-defense in connection with Barrett's death.

Hamm claims that Barrett flew into a rage and attacked him, and that the three shots fired into Barrett's body were in self-defense. He has maintained his account of the affair in the face of a severe grilling, and has failed to contradict his statements in any particular.

The lack of disorder in the cabin, however, coupled with certain other peculiar circumstances, is leading to a very thorough investigation before Hamm's version of the affair is entirely accepted.

Body is Examined
Barrett's body was brought to Roseburg yesterday evening by L. J. Mikeworth, deputy coroner, acting in the absence of Coroner Stearns, who accompanied District Attorney Cordon and Deputy Sheriff Ditsch and Daugherty to the scene of the killing.

The body was examined last night by Dr. E. B. Stewart, who reported that there were three bullet wounds. The shots were fired at close range from a 25 calibre automatic pistol. One shot grazed the stomach, inflicting a flesh wound of minor nature. Another shot entered just above the heart, penetrating the left lung and lodging in the back. Another, the one that caused death, went through the upper part of the left arm, penetrated the left arm pit, and cut the big artery above the elbow.

SHAMROCK STRIKES GALE OFF ENGLAND

PORTSMOUTH, Eng., July 19.—Shamrock V ran into a gale within an hour of her departure for New York and Newport today, causing Captain Ned Heard to consider the advisability of anchoring off Yarmouth until the weather cleared.

Captain Heard expected to reach the Azores in seven days and to complete the ocean crossing, dangerous for so small and frail a craft, within one month.

In the forecastle of the yacht is a growing shamrock, presented by Irish fans as a mascot.

PORTLAND WOMAN CHAMP

PORTLAND, July 19.—Mrs. E. Eva, Columbia Country Club, Portland, is the new champion of the Oregon Women's Golf association. A former state women's title, she defeated Miss Frances Scott of Waverly 9 and 8 in the final match of championship play here yesterday.

FIRE HITS LA GRANDE

LA GRANDE, Ore., July 19.—Two residences and the two-story Macabee hall at Cove were destroyed by fire today. Loss of approximately \$15,000 was partly covered by insurance. The fire started after a dance in the hall last night, possibly, firemen said, as the result of a smoker's carelessness.

Scorching Heat Wave Does Damage Throughout Land

Although the rest of the country yesterday sweltered in intense heat, the thermometer in Roseburg never passed the 70 degree mark. The mercury went down during the night to a minimum of 49 degrees.

Predictions of E. H. Fletcher, meteorologist at the weather bureau office here, are that normal temperatures will prevail today and Sunday, with the weather fair.

Phillipsburg, Kan., had 113 degrees, and Emporia 109.

Weather prophets were doubtful concerning immediate relief for most of the country. Possibility of thundershowers was bespoken in the central and northwest, but forecasters pretended to see no certain surcease to the heat.

The need of rain was felt in a score of states. The United States weather bureau at Washington said the dry spell was particularly severe in Tennessee, Alabama, Mississippi, Louisiana and Arkansas, and to a slight less degree in the middle and southwest.

Such heat as the nation experienced yesterday—and faced again today—has proved a vicious tax upon pumping stations. Already in parts of Maryland warning has been given that unless there is rain soon, there must be a 50 per cent curtailment of water consumption.

Pacific Coast Cool
The coolest section of the nation yesterday was in Michigan's upper peninsula where Marquette had an enviable maximum of 62. The Pacific coast had a maximum of 70.

Orin Frost Dies in Marine Duty
Private Orin William Frost, of the U. S. Marine corps, son of Mr. and Mrs. William Frost, of Elkton, died June 30 in Shanghai, China, according to word just received by his parents. The young man, a native of Elkton, was 22 years of age, and entered the marine service last fall. He was previously employed in forest service work near Diamond lake for several years.

It is expected that the body will arrive in Seattle about July 26, and will be brought to Roseburg. The local American Legion post is expected to assist in funeral arrangements.

Besides his parents, the young man leaves a brother, Lewis Arthur Frost and two sisters, Margaret and Rose Frost, residents of Elkton.

Factory at Loon Lake Destroyed

Word was received here this afternoon that the cheese factory at Loon lake was destroyed by fire this morning, with a loss estimated at between eight and ten thousand dollars. The details regarding the fire were not learned. The cheese factory is the main industry of the Loon lake district, and its loss will be a great blow to that community.

The plant was insured for \$5,000 in the Grange Fire Relief, and Fred Gott, local director, will leave next week to adjust the claim. The plant will be rebuilt as soon as possible, it is expected.

Drowns When Car Dives into River

PORTLAND, July 19.—Jack Leslie, 45, drowned in the Willamette river here last night when his closed automobile plunged from a dock after striking an obstruction. He was a watchman for the Union Oil company and the accident occurred on the company dock.

Witnesses said the car was traveling too fast and got out of control. It hit an oil valve and crashed through the low railing, and fell into 40 feet of water. His body was recovered by harbor patrolmen.

Many Cases Grow Old on Records

Attorneys and administrators of estates in which action has been taken for the past year, are being notified by County Clerk Roy Agge that reports must be made at once. Mr. Agge states that there are nearly 250 estates on the probate books in which reports are delinquent, the law requiring that reports be made every six months. Some of these estates, he reports, have been on the docket for 10 or 12 years without action of any kind, and the court is anxious to have them disposed of.

Pays Traffic Fine

LA J. Christmas of Crescent City was fined \$10 and C. D. Wallace, San Francisco, was fined \$25 yesterday upon their appearance before Justice of the Peace Hopkins, charged with speeding. Christmas, according to his statement, was on his way to Portland, where his mother is ill, and was given a lighter sentence in view of that fact.

Tries to Loop Auto

Aviators comparatively recently learned the difficult stunt of performing an outside loop, a stunt now quite common with airplanes, but Lloyd Chambers, local Nash and Austin dealer, claims to be the only driver who has ever performed the feat with an automobile. Mr. Chambers was demonstrating his new Austin car yesterday, and was putting tight circles at high speed around his service station, when the car proceeded to loop. The car was undamaged, except for a few scratches, and neither the driver nor passenger was injured.

Capone Says Scribes Not on Pay List

Gave Lingle Diamond Belt Buckle for Yuletide Present, He Says; Denies Story.

Man Suspected as Actual Slayer of Reporter Captured After Wild Chase.

(Associated Press Leased Wire)
MIAMI, Fla., July 19.—Alphonse Capone—by his own pronouncement the chief lieutenant of Chicago's gangland—says he is willing to go before any grand jury to deny statements attributed to him that he has "plenty" of Chicago newspapermen on his payroll and that he and Chicago police know who killed Jake Lingle, Chicago reporter.

Capone dictated a statement at his Palm Island estate last night regarding a copyrighted story written for the St. Louis Star by Harry Brundage, a reporter.

Says writer "Liar."

"If he is trying to build his reputation on what he thinks I said, and not the truth, he is a deliberate liar," Capone asserted. "I defy him to say that the statements he has made are true. I will face him before any grand jury and deny them to his face."

"It is the truth when he said I gave Lingle a diamond belt buckle. Lingle was a dear friend of mine. The buckle was a Christmas present."

Capone said Brundage talked with him for approximately ten minutes recently.

"I told him I was through with the racket in Chicago and didn't care to be mixed up in it one way or another."

Capone also denied he had contributed to the senatorial campaign of Ruth Hanna McCormick of Illinois, but added he would have been glad to contribute had he been approached.

Chase Nets Suspect

CHICAGO, July 19.—Thomas Abbott, who has been secretly sought as the actual slayer of Alfred (Jake) Lingle, was captured early today in a spectacular chase in which hundreds lined the streets, cheering.

Abbott, driving the same type of automobile used in the recent attack on Lingle, was seen fleeing from police.

Railroad to Put Shops of Six-Day Basis Immediately

(Associated Press Leased Wire)
ST. PAUL, Minn., July 19.—Effective at once, the Northern Pacific railroad will operate all its car repair shops between St. Paul and Seattle six days a week instead of five as heretofore.

This was announced today as part of a program to speed up preparations of getting box cars ready for the northwest grain harvest.

In addition, 150 car repairmen will be employed west of Billings, Mont.

Jumps into Pot of Molten Iron

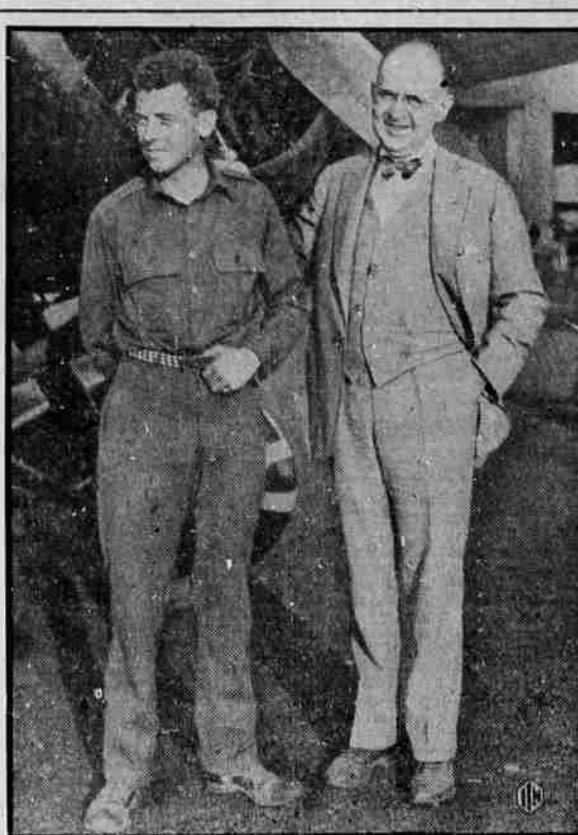

MEUSELWITZ, Germany, July 19.—Oscar Voetold, proprietor of a foundry, dependent, the police said, over industrial reverses and credit losses which were wrecking his business, dived into a cauldron of molten iron in his blast furnace and perished.

Electric Rates Slashed by P. S. C.

SALEM, Ore., July 19.—Over an area extending from the north city limits of Portland to and including Salem a reduction in residential and commercial electric lighting rates of the Pacific Northwest Public Service company is made in an order of the public service commission Friday. All territory in the Portland area is affected except that of Multnomah county west of the Willamette river and north of Portland's north city limits.

The aggregate reduction will be about \$140,000 a year. The order becomes effective August 15.

Ready for Start on World Hop

John Henry Mears, globe traveler, and his pilot, Henry J. Brown, are seen as they appeared at the Municipal Airport at Chicago. They are shown standing in front of the plane in which they expect to lower the Great record of twenty-one days for a round-the-world flight.

Iowa Boy Admits Shooting Mother

(Associated Press Leased Wire)
HOLSTEIN, Ia., July 19.—A 14-year-old boy confessed to County Attorney George Clark, Jr., last night that he knocked his mother unconscious with a brick, dragged her into the kitchen of their farm home and shot her to death.

The youth, Lester Mohr, said he had quarreled with his mother, Mrs. Gus Mohr, 35, Thursday afternoon over some work she wanted him to do and that he threw bricks at her while she was in the farm lot.

One of the bricks knocked the mother unconscious, the youth confessed, and then he dragged her into the kitchen and shot her with a title and a shotgun.

Lester previously said he had worked in a neighbor's oat field that afternoon, then had come to Holstein, and upon returning home found his mother dead. He called neighbors.

The woman's skull had been crushed. There were shot gun wounds in the breast and neck and a rifle wound in the temple.

Borah Ordered to Take Long Rest

(Associated Press Leased Wire)
WASHINGTON, July 19.—Ordered today by physicians to take a complete rest for two months, Senator Borah returned to the senate to finish the contest for ratification of the London naval limitations treaty before obeying the command.

Foregoing his daily early morning horseback ride, the senator took a motor car instead this morning and journeyed over to Baltimore to get the report on his condition made earlier in the week by officials of Johns Hopkins university hospital.

They told him his condition was not dangerous but they warned he would not be responsible if he did not immediately take a rest of at least two months.

The veteran Idahoan was back in the senate chamber as another grueling day of debate on the naval treaty got under way. He said to his colleagues: "I guess I better take their advice when the treaty is out of the way."

Game Chief Never Took Dollar as Bribe, He Asserts

(Associated Press Leased Wire)
PORTLAND, July 19.—Possibility that the game commission, hearing of charges of inefficiency and laxity brought against Harold Clifford, warden, and "E. H. Clark, chief deputy, by several sportsmen's clubs, might be concluded today, was indicated as the hearing yesterday tending to discredit unworn testimony of witnesses for the complainants.

In speaking of the testimony of J. Page Bond, Portland, who said he overheard Clifford and Clark talking in Clark's house, and that large sums of money were mentioned, as well as a "50-50 split," the warden said he had gone to Clark's house to discuss with him a purely administrative matter—that of setting back from the Columbia slough.

While they were there, Clifford testified, Clark complained about the salary he was making and mentioned the sum he considered necessary to support his family. Clifford said he recalled that \$2900 was the amount mentioned.

Clifford vigorously denied taking as much as a dollar outside his salary, since he has been in office. "If anyone working for me ever said anything in my presence about my taking as much as a dollar outside of my salary I would write out his resignation at once,"

Norton Plant Would Be Run This Season

Plan Accepted Calls for Operation of Local Cannery to Handle Present Crop.

Issuance of Stock Finds Approval at Meeting Held Last Night; Ask Federal Aid.

Without a dissenting vote, a large group of cannery patrons and interested growers, at a meeting held at the courthouse last night, approved plans for the organization of a cooperative association to take over the Norton Cannery company holdings in Roseburg and Sutherlin, and appointed a committee to proceed with the organization. Final action to perfect the association will be taken at a meeting to be held Tuesday, July 29.

The plan advanced by the committee, recently appointed to devise ways and means of creating the proposed cooperative association, was presented in a report by Claude Banning, and resulted in a brief discussion, after which a vote was taken and the proposition given approval. The success of the entire enterprise now hinges upon the action of growers in exchanging their claims for stock in the new association, and the arrangements that can be made for taking care of commercial accounts.

Need \$140,000
According to the report made by Mr. Banning, it is necessary to raise \$140,000 to secure the cannery free of incumbrance.

Indebtedness in the form of unpaid taxes, paying liens, real estate mortgages, machinery contracts, etc., amounting to \$38,000 must be met, while there is about \$37,000 outstanding in commercial accounts. Mr. Banning stated, it is estimated that about \$2,000 will be required to meet the expense of organization. The rest of the amount, or \$63,000 is in the form of claims held by growers for materials delivered last season and unpaid for.

It is planned to incorporate for the sum of \$150,000 of which \$100,000 will be common stock and \$50,000 preferred stock. Growers having claims against the cannery will be asked to take common stock to the amount of their claims, and to purchase an additional \$37,000 in common stock, making up the entire \$100,000 issue. The holders of commercial accounts will be asked to take preferred stock, giving more time in which to pay the debts owing to these companies.

Federal Loan Expected
It is hoped to be able, under this arrangement, to secure a loan

LINEN ORDERS LOW	
SALEM, Ore., July 19.—The management of the Oregon Linen mills today announced that the plant would be closed temporarily because of lack of orders. It was believed operations would be resumed not later than August 1.
