The Fulfilment of A Promise

Is manifest in our new location. As we originally stated upon coming into control of this organization, we believe, always have believed, and always will believe, in the sure advancement and inevitable success of the city of Roseburg.

As our part in this development, we have endeavored to give our customers the best in service and the most in satisfaction that has been possible.

Now we feel that we are taking another step forward, by preparing ourselves to give you better service than before through our increased facilities. Further, the larger amount of space will allow us to demonstrate even more clearly just what modern gas burning appliances are accomplishing.

Again let us urge you to visit us and see for yourself just what we have done and are doing.
