FISHING BOATS CREATE INTEREST AT BANDON BEACH

BANDON, Aug. 6.—The commercial fishing boats have been very active the past few weeks catching many pounds of salmon every day. The weather has been calm enough to make the bar and sea smooth enough to warrant deep sea fishing.

Silver-side and chinook salmon are quite plentiful this year and the boats are almost on a competitive scale, each trying to make a bigger haul than the other fellow. It is a beautiful sight around dusk to see eight or ten small crafts all making a gallant attempt to be the first to the dock to unload the catch for the day. Many of the boats stay at sea for two or three days before coming in to empty the fish. A great many of the boats are very neat little crafts especially designed for fishing and painted in brilliant appropriate hues.

Chinook salmon are more choice than silver-side so when a boat has many chinook on board it is a much more profitable day for the owner. The fish are always packed in ice in the hold of the boat to preserve them if the pilot decides to stay out over night or longer.

As soon as the fish are all weighed they are immediately packed in small boxes with ice and shipped away to be distributed all over the country.

The fishing industry here holds a great interest to tourists who are always on hand in the evening to witness the maneuvers at the dock and also on the bar. The smaller fishing boats have a busy time making their way across the bar without mishap. Any little thrill of this sort is greeted with interest by the standers-by.
