# DODGE DEPENDABILITY TRUE ECONOMY is more than price deep

Owners of the Dodge Six and Eight are gratified that the features which contribute most notably to the pleasure of owning these cars are also responsible for their economy, dependability and long life.

The carefully-perfected balance of the engines means less vibration. The floating comfort on the road means that the engine and chassis, as well as the passengers, are virtually free from shock and strain.

The strength and permanentsilence of the Mono-Piece Steel Bodies reflect freedom from upkeep expense as well as greater safety. The internal weatherproof hydraulic brakes, which give such reassuringly positive stops, are self-equalizing—require no costly adjusting—reduce wear on tires.

New more than ever before, Dodge cars combine all of the factors you want most in a motor car.

**Dodge Six—\$ 835 to \$ 935, f. o. b. factory**  
**Dodge Eight—\$1095 to \$1145, f. o. b. factory**

**THE MARATHON CAR STOPS AT NOTHING**  
Blistering heat, mountain trails, mud or sand—it's all the same to the standard Dodge Eight sedan which is continuously crossing the country in the Dodge Mileage Marathon. No greater demonstration of dependability has ever been attempted. Over 18,000 miles have been run in the first 34 days.

Dodge Eight closed cars are factory-wired for immediate installation of Translone, the pioneer automobile radio. Other models will be equipped on order. Ask for a demonstration.

# J.O. Newland & Son

## Announce

To their many patrons that starting Friday, August 1st, the Dodge agency is under the complete control of

# C. G. FERRIER

to whom they have sold their interests.

Mr Ferrier invites all Dodge owners and other customers of J. O. Newland & Son to come in and get acquainted. He promises the same efficient and courteous service as always has been prevalent at the Dodge Agency.

The personnel of the shop remains unchanged.

**WE HAVE MOVED!**

Now Located on Pine Street between Cass and Lane  
**THE VALLEY POULTRY**

**To All Motorists**

We have adopted the Raybestos "T"-Point Brake Service method which has been devised for all appointed Raybestos Brake Service Stations. This assures you of the following:

Inspection of condition of brake lining for wear, grease or glaze. Inspection and adjustment of wheel bearings and insertion of proper grade of lubricant.

Inspection of brake drums. Relocating and tightening shifted or loose axles, inspection of grease level in differential.

Lubrication and resetting of all rods, levers and connections. Adjusting of brake bands or shoes, testing for equalization and stopping distance.

Testing to eliminate dragging brakes and cleaning steering wheel, gear shift lever, etc.

**Out-of-Wheel Alignment Costs You Money!**

Your tires last a much shorter time and new ones cost money! Better drop in today and see if your wheels are lined up. It will save you money.
