Only One Day Left

THERE is very little more that can be said in this column regarding the canny situation here and in Sutherlin. If, by tomorrow night, the directors of the proposed cooperative have not obtained the signatures of all of the six men who are refusing to sign, the plan will have to be abandoned. Such is the way with a great many attempts at organizing growers of farm produce. Most people are sane, reasonable and willing to work with one another. There is always the small percentage of folks who will not cooperate. In the present situation this small percentage has the control. They could not be blamed if their power would do them any good. In that case they would have every right to look to their own best interests. In the face of the fact that they can gain absolutely nothing by holding out and spoiling the whole deal, their attitude is unfathomable.

The raisin growers of California have just gone through a similar experience. They needed a gross acreage of 80 per cent of the total in order to perfect their cooperative arrangement. A few held out, would not sign, and the deal was spoiled.

Enemies of cooperative marketing have had a great deal to say lately. It would be a pretty safe guess that if most of the talk against cooperative marketing could be traced to its source it would be found to be sponsored by those business interests which are affected adversely by the formation of cooperatives. Other cooperative undertakings in this country have been moderately successful. The preliminary setup for the canny shows a directorate of experienced and successful men. It will certainly be too bad if the entire project must be thrown overboard.

Congratulations are due Reedsport for the progressive spirit it shows in preparing to have a good airport. Reedsport wants to be on the map in every way possible. Wanting an airport proves that. Cities like Reedsport that try for things, even though accomplishment is difficult, become larger cities and more prosperous cities. The country surrounding such a city also becomes more prosperous. After all the thing a great city is made of is one small grain of natural advantage plus mountains of grit and determination. Reedsport has excellent natural advantages with both rail and harbor facilities. Reedsport also has plenty of the sort of grit and determination that builds.

The Douglas County Turkey Growers' association has affiliated with the Northwest Turkey Growers' and the organization will be known in the future as the "Oregon Turkey Growers." This means the expansion of the scope of co-operation in the turkey raising business. This means also that Douglas county ascends to a definite position of state leadership in turkey raising. In the past year membership in the turkey association has grown from a membership of 280 to a net actual membership now of 365. Turkey raisers have come to realize fully the value of cooperation.

Oregon Editors' Opinions

Selling Oregon

(Astoria Budget)

ACCORDING to Frank Branch Riley, the Oregon missionary, there are 91 millions of people living in the United States who have practically no knowledge of Oregon and what it has to offer them.

Mr. Riley made this statement in an address last week before a San side audience.

Mr. Riley would know what he is talking about when he discusses this subject, because for several years past his job has been to tell people living in what he calls "darkest America" about the wonders of Oregon as a vacation land and as a place for real living.

the benefits of tourist travel by advertising

(McMinnville News-Reporter)

Statements of condition, as published by the banks of McMinnville, show no financial depression here, but a strong gain in deposits over the last call. After all, this section of Oregon seems to be a favored one.

(Albany Democrat-Herald)

Eugene and Albany turned down the recent Pacific northwest air tour, but the little town of Springfield across the river from Eugene raised the required cash and put on the show in fine style. It isn't always the size of a town or city that counts.

(Arlington Bulletin)

If one is to judge by the licenses on cars which pass through Arlington, it would seem that the people of California and Washington are the only ones able to take a vacation.

Medford Mail-Tribune: You might as well get your ear drums ready for a terrific verbal offense during the next few months. Julius L. Meier, the independent candidate, believes in loud advertising, and has the money to pay for it. He also believes in personal and vociferous salesmanship, and has the money to pay for that, too.

So the hills and valleys of Oregon are going to fairly shake with the din of the Meier political barrage before many moons. The concatenation of sound waves will make the roar of Niagara Falls sound like the dulcet purring of a cream-filled tabby-cat.

Marshfield Times: Successfully managing one of the largest retail establishments of the nation, showing marked ability to select men for the varied tasks of his organization, Mr. Meier deserves the admiration and respect of the host of followers that he has.

Liquor Boycott May Ban \$70,000,000 Yearly Revenue From India

CALCUTTA, Aug. 13.—(A. P.)—Demand for a "dry" India was made by a committee of the Indian chamber of commerce of Calcutta in backing up Mahatma Gandhi in his fight for prohibition along with Indian independence.

Gandhi, in his eleven point summary of the nationalists' demands, started with "total prohibition." In a communication to the government of India the chamber of commerce committee urged that the government should embark at once on a policy of prohibition and, foregoing the revenue derived from liquor, should either curtail expenditure to the extent that revenue or raise it from other sources.

As an advocate of prohibition in the interests of the peasant and the workingman in general Gandhi claims that the annual drink bill of the country approximates \$350,000,000, while the yearly drink revenue of the British government is more than \$70,000,000.

India, in the opinion of the committee of the chamber of commerce, would soon become "dry" if she had the power to legislate according to her requirements. It was pointed out by the committee that the various provincial governments had rejected popular demands for prohibition solely on the ground of loss of revenue.

The committee contends that the picketing of the toddy or grog shops, as conceived by the nationalist congress party as one means of depriving the government of revenue, is a perfectly legitimate method of persuasion and that "the people have certainly the right to adopt all peaceful and legitimate methods for discouraging the use of liquor."

Editorials on News

(Continued from page 1)

DEND of \$4 a share on its stock.

PERHAPS this is the explanation of these successes: In a year when most people are standing around with long faces and saying: "Oh, what's the use," the competition isn't quite so keen for those who have the courage to roll up their sleeves and say: "Well, let's see what we can do by TRYING!"

A 23-YEAR-OLD Chicago school teacher must spend a day in jail and pay a \$300 fine because she told the marriage license bureau that her prospective husband is older than he really is. That isn't a caution to what she'll get about 30 years hence if she does the same thing right out in company.

WHILE we are talking about punishing some business men in the towns, we shouldn't forget to patronize the home industry of our own farm producers. It's an exceedingly poor rule that doesn't work both ways.

SHARKEY AGREES TO BOUT WITH CARNERA

(Associated Press Leased Wire)

NEW YORK, Aug. 11.—The New York American says today Jack Sharkey has agreed to terms with Mike Malloy, Chicago promoter, for a bout with Primo Carnera, Italian heavyweight, in Chicago next month.

The American says Johnny Duckey, manager for Sharkey, has agreed to accept a guarantee of \$100,000 with a privilege of 50 per cent of the receipts.

BRINGING UP FATHER

Maybe I'm Wrong

By J. P. MEDBURY

MARRIAGE is only a routine that woman has to go through in order to get alimony.

Efficiency Experts—A New York burglar said the police department the other day. He claimed he caught pneumonia riding in a drafty patrol wagon.

Social Events—A couple of half-wits had a wedding the other day and the guests threw grape nuts instead of rice.

Wonders of Nature—There's no doubt about re-incarnation in animals. Whenever a rabbit dies, he comes back a few days later as a mink.

You're Wrong—Daniel wasn't a Rotarian. He joined the Lions.

Momentous Moments—When an old time warrior discovered a flea in his knight clothes.

Excuse It Please—The sea of matrimony is usually rough.

Matrimonial Heroes—A diplomat is a husband who remembers his wife's birthday but forgets which one it is.

At the Government Ribbon Counter—Red tape at Washington costs the public about ten thousand dollars a yard.

Our Own Vaudeville—Rum Runner's Widow: What were my husband's last words? Prohibition Officer: "Don't give up the ship." (Copyright, 1930, King Features Syndicate, Inc.)

Talks on Health

By DR. R. S. COPELAND

HEALTH is a problem of proper nourishment, physical and mental activity and rest. In this connection, diet has been much discussed. The errors in diet of a large majority of people account for much poor health.

Our food budget should be divided so that it includes one-third milk products (milk, cream or cheese); not less than one-third of fruits and vegetables, and one-third or less for meats, poultry and fish. More people should adopt this division of foods.

The body is made up of cells. These must be built up constantly by the correct food intake and nothing less than nourishing foods in proper quantity and quality will maintain good health.

Well-conditioned muscles are the basis of good health. If you have active muscles, strong heart muscles, then the poisons of the wastes of the body cannot affect them. The body must be in good trim to throw off these poisons. It eliminates poisons by means of the kidneys, the lungs, the skin and the bowels. There must be normal functioning of all these parts.

Active physical exercise deepens breathing, induces perspiration and keeps the muscles tight and elastic. That is why you need daily moderate uses of the muscles of the body.

Constipation is almost universal today. People do not take time to keep fit. You cannot have healthy elimination without good muscle tone. Include in your diet foods that have bulk and roughage as aids in elimination of the wastes of the body.

Eating plenty of fruits is of the greatest value. Drink a glass of orange juice every morning before breakfast, and see how much better you feel.

Drink lots of water. The body uses up quantities of water in a day. It must be replenished regularly. We are apt to forget this for long hours and then wonder why we do not feel well. We store up trouble by this neglect. Man's work and play today are at high tension. They are a drain on the nervous system. Nerve out-pust must be compensated for in

two ways, by muscular action and by relaxation.

A person cannot go on and on, using up nervous and muscular energy, without rest and relaxation. Those who get eight, or even seven hours of good, sound sleep out of the twenty-four usually feel well and fit.

The greatest leaders of our time are sunshine and the out-of-doors. Get outdoors all you can. Learn to play and laugh.

Around... The County

By R. R. WOOD

Joelsen Bros., who are operating a small saw mill, located in the Coles valley section, a part of the time, and during spare moments are looking after a large prune orchard and their livestock interests, found time to give a brief survey of affairs as they see the situation. The mill on this 100-acre ranch has a capacity of approximately 15,000 feet daily, but is operated only as demand for lumber requires. There is quite a call, locally, for lumber products, and Joelsen endeavor to keep a supply in the yards to meet this requirement.

The ranch is stocked with sheep, cattle and turkeys, so that these people manage to keep busy most of the time looking after their varied interests. Business is not so bad, according to one of the Joelsen Bros. Earnings, he stated, were 87 per cent of what they were in '29. He is convinced that farm products are priced too low and manufactured commodities too high. He alleged himself to be a firm believer in cooperative effort.

"But, cooperation must be equally beneficial to all parties involved." The fair spirit must be in it—it is impossible to carry on along those lines single handed. At one time a grower might market his product when and where he could. At this time it can no longer be done, because everyday transactions are big and to attempt to do it alone is practically impossible.

Mr. Joelsen explained his views of cooperative business by saying that while it is not feasible for farmers to unite as a great cooperative body, yet it would enable them to compel the rest of the world to consider life from a different angle if it could be accomplished. Effective cooperation on the part of producers, Joelsen said, would change the situation and compel a fair recognition of the farmers' claim. This could be brought about, he alleged, by all producers agreeing to sell only for certain prices, positively refusing to accept any offer at a less price than that set by the cooperative organization.

PEDLETON YOUTH INJURED IN CRASH

(Associated Press Leased Wire)

SEATTLE, Wash., Aug. 13.—(Associated Press.)—A 24-year-old boy was in a hospital today with a badly fractured skull received in the collision of an automobile and a street car here last night.

The car in which Jensen was riding was driven by T. J. Crozier, who blamed the collision on unimproved street car tracks. Crozier was badly injured, and a third man, George A. Nelson, was less seriously hurt.

FLAMES SWEEPING QUEBEC VILLAGE

(Associated Press Leased Wire)

MASSON, Que., Aug. 13.—Almost half of this small village was destroyed today by fire. More than twenty homes, the Catholic church and two business buildings burned, and three hours after the first alarm was sounded, the fire was still out of control.

Masson has a population of 500 and is on the LaSalle river, 20 miles from Ottawa.

Business Visitor H. C. Hedden of Scottsburg spent Wednesday in this city as a business visitor.

"Quincing"

This is the season of the quinces—butter, jellies, preserves and marmalades. What wonderful possibilities for touching up a meal are found in a basket of quinces.

When you start your "quincing," provide yourself with a—d sharp knife and three dishes—one for the fruit, one for the skins and cores and one for the imperfect pieces—nothing need be wasted.

Quince Preserves Pare and core 15 good sized quinces and cut them in quarters or eighths. Cook in a small amount of water until rather tender and add to a syrup made of 2 cups sugar and 1 cup water. Cook very gently for about 20 minutes. Put into sterilized jars and seal.

Quince and Pear Preserves Using half the quantity of quinces add to syrup along with the partially pared and cored equal amount of pears. Cook until fairly thick. Seal. Pineapple may be added to the quinces while cooking in the syrup.

Quince Jelly To the quinces add the small imperfect fruit cut fine—and water enough to cover. Cook until very soft, press through cheesecloth bag, then drip through flannel or some heavy cloth for a clear sparkling jelly.

Boll 5 minutes, skim, add 3 cups sugar to 4 cups juice and continue boiling until it sheets through the spoon. Skim again if necessary and pour into sterilized jars. When cool and set, seal with paraffin.

Quince Marmalade No need to pare the quinces—just wipe them and cut fine. Cover with water and boil until soft. Press through sieve. Add 23 cups sugar to 4 cups of pulp and boll ten minutes or until the syrup sheets from the spoon.

Pickled Quinces Cook or steam quince quarters until fairly tender. Then drop into syrup made as follows:

Boil together 1 cup vinegar, 1-3 cup water, 1-3 cup sugar, 1 teaspoon stick cinnamon broken in pieces, 4 teaspoon cloves, tied in piece of muslin. Cook gently for 20 minutes. Put in jars and seal. These are delicious with meats.

Polychrome Marmalade (This is an Eastern favorite—which we know to be most delicious.) Peel and cut into very small pieces, twelve ripe peaches, four quinces (discarding cores and

Please help me: at the moment that I am writing this I'm crying. BROKEN HEARTED. BROKEN HEARTED: Don't be so sorry for yourself, my dear. You are only a child and you should be grateful your parents guard your welfare so earnestly. You seem to me that you would not be very successful at the task yourself. When you are older and have better sense you will realize what a foolish child you were. Train yourself for a career or profession—take up some special study such as languages or music; seek the companionship of nice young people of your own age; go in for athletic pastimes that later will take you into the sunshine and fresh air in your spare time and you won't have much time or any inclination to brood over imaginary troubles.

HOLLYWOOD BEATS SEATTLE AND ADDS TO LEAGUE LEAD

By the Associated Press

The Hollywood Stars were two runs on top of the Pacific Coast league ladder today, winning the second of the weekly series from Seattle last night, while Los Angeles, trailing one behind, lost to the Senators, and San Francisco, in third place, lost to Portland.

As a result of yesterday's and last night's play, Hollywood's lead seemed assured for this week, at least, with Los Angeles and San Francisco's Seals fighting it out for second and third, the results to depend on the kind of baseball produced by the lower half teams.

Playing in Los Angeles, Hollywood gave Seattle an 8 to 5 trimming. Seattle needed a score for the leaders when the northern team scored five runs in the fifth.

Roy Chesterfield held Los Angeles to six hits allowing the Senators to win 7 to 2 in last night's game. In Sacramento, today putting the Angels to bed behind Fred Holroyd, but still in second place.

The Seals scored five runs in the first inning of their game with Portland in San Francisco, but failed to hold the lead, and the Beavers won 12 to 10. Both teams had eight hits.

The San Francisco Missions, playing Oakland last night, took twelve hits off the Oaks to win 5 to 1. Johnny Moore's home run helped the final score for the Missions.

STAMPED PILLOW CASES, 77c Fine quality tubing, hemstitched, showy any pattern for work, extra value at 77c. Also genuine Pequot tubing cases at 99c a pair. New low prices at Carr's—where you save! Also new stock of threads and edges, etc.—Adv.

CHINESE DESTROY CATHOLIC MISSION

(Associated Press Leased Wire)

HONG KONG, Aug. 13.—The French Catholic mission at Nanking, capital of Kwangsi province, was virtually destroyed yesterday morning by Cantonese military authorities who bombed the city seeking to oust the insurgents who held it.

Civil war, which has been going on in Kwangsi for many weeks, is centered in Nanking where the rebels have been holding out against government forces.

Telegrams said that Tuesday morning, during an infantry attack upon the city, which is walled, Cantonese bombers appeared and showered the city with high explosives, resulting in the French cathedral and other mission buildings being destroyed along with a large number of other structures.

The messages said two priests and four Canadian sisters in the attacked cathedral were safe.

The aerial raid resulted in heavy casualties among the Chinese. The messages said the rebels were preparing to evacuate Nanking and that the missionaries feared wholesale looting by them before they departed.

Oakland Man Here—J. J. Grove of Oakland was a business visitor in this city yesterday.
