**The Spirit That Wins**  
 We print below an editorial  
 which appears in this week's  
 issue of the Reedsport Port Um-  
 pqua Courier. No fear for the future  
 of Reedsport when the young men  
 there possess such a spirit:

**Hall the Firemen**  
 Not being satisfied with giving  
 Reedsport the best fire protection  
 she has ever had and rendering  
 superb service in the two or  
 three emergencies that we have  
 had—fires that in other times  
 would have destroyed that portion  
 of the town where they originated—  
 the firemen have turned them-  
 selves to many civic improve-  
 ments and are now zealously work-  
 ing evenings to give the town an  
 emergency airport, without cost to  
 city or taxpayers.

Few cities have ever had such a  
 gift from any organization, least-  
 wise from one that has rendered  
 aid and is giving such valuable help.  
 If they but could imitate the  
 rest of us with their zeal and en-  
 thusiasm we would be the liveli-  
 est, fastest growing town in south-  
 western Oregon. Watch our special  
 for how they did it.

Elmer Wimberly makes this  
 statement in the advertising for  
 his firm, for all the world to see:  
 "You can't keep a squirrel on the  
 ground in a timbered country."

An alleged knowledge, intimate knowl-  
 edge, of squirrelhood is thereby  
 revealed. But does Elmer actually  
 possess such erudition? This is  
 mentioned here because, submitted  
 as it was, without evidence or  
 proof thereof, it is likely to be-  
 come a subject of public contro-  
 versy. This should be avoided if  
 possible. Why not conduct at once  
 a public hearing and let the facts  
 be presented, or submit the entire  
 matter to the Game Commission  
 for its early action?

**Oregon Editors' Opinions**

**Best Advertising**  
 (Coca Cola Times)

ADVERTISERS who spend their  
 money recklessly on this or  
 that kind of device, in the fond  
 hope that they will get return for  
 their dollars, might well ponder  
 the six reasons which prompted  
 the Fox theatre corporation, oper-  
 ating hundreds of showhouses  
 between the Mississippi river and  
 the Atlantic seaboard, to drop all  
 forms of advertising and spend  
 the money for newspaper space.

House managers were instructed  
 not to decrease their advertising  
 appropriations, it is significant to  
 note.

The Fox company has found  
 newspapers the "logical medium to  
 motion picture public."

The decision to confine advertis-  
 ing to the newspapers was based  
 on the following reasons, given by  
 G. S. York, director of advertising:

"Frequently the theatre must  
 make quick changes in programs.  
 These can always be advertised in  
 newspaper columns."

"The newspaper columns also  
 permit the best use of decorative  
 advertising, which is so essential  
 to our theatre."

"Increased space is always avail-  
 able in newspaper columns."

"Newspaper advertisements can  
 be changed or corrected with great  
 ease, at minimum cost and  
 greater convenience."

"Except in rare cases, theatrical  
 advertisements in the newspapers  
 do not have to compete with non-  
 theatrical copy."

"Newspaper advertisements can  
 be checked at the convenience of  
 the reader."

The decision is based on the ex-  
 perience of the Roxy theatre, Fifth  
 street and Seventh Avenue  
 New York, which has used news-  
 paper advertising exclusively.

**Another Gusher**  
 (Coca Cola Times)

Down near Oklahoma City an-  
 other "gusher" oil well has come  
 in and is flowing at the rate of  
 nearly 5000 barrels a day. This is  
 hardly news any more with news-  
 paper advertising exclusively.

Guest of Miss Casey—Mrs.  
 George Willet of Los Angeles ar-  
 rived here last night to visit for  
 a week at the guest of her former  
 schoolmate at University of Ore-  
 gon, Miss Helen Casey. Mrs. Wil-  
 let was accompanied by her hus-  
 band, who went on to Seattle on  
 business. Upon his return the  
 couple will spend a few days on the  
 North Umpqua river fishing.

stare where the victim looks like  
 he had swallowed a bicycle, but  
 was unable to gulp the handlebars.

(Salem Statesman)  
 The justice commission has fired  
 its warden and assistant warden  
 but not without a bitter fight with  
 the commission. The only hope  
 for harmony in the fish and game  
 business seems to be when the fish  
 are all caught and the game all  
 killed and the sportsmen all con-  
 verted to midget golf.

**LIBERAL LIST OF PRIZES POSTED FOR CANYONVILLE FAIR**

Many valuable prizes are to be  
 awarded in connection with the  
 South Douglas Community fair to  
 be held at Canyonville tomorrow.  
 Coen Lumber company of Rose-  
 burg is offering a breakfast set for  
 the best O.J.C. brood sow and a  
 chest of drawers for the best fat  
 lamb of any breed. Miss Harriet  
 Odle is donating a hand painted  
 china piece for the best quilt, and  
 a set of jolly glasses will be given  
 by L. E. Hehlinger. Prizes on  
 cooking, sewing and flowers will  
 be given by Mrs. Archie and Mrs.  
 John Ferguson of Days Creek. John  
 Hamlin is offering prizes for cook-  
 ing. Arrangements have been  
 made to furnish premiums on ar-  
 ticles not previously listed. The  
 ruling has been made that no ar-  
 ticle is to be accepted for entry  
 which was shown last year, with  
 the exception of livestock. One of  
 the interesting features of the fair  
 will be displayed by the forest  
 service.

Cash prizes are to be awarded  
 as follows:  
 Sheep and goats, first \$2, second  
 \$1, cutter, first \$2, second \$1, swine,  
 first \$2, second \$1; chickens, best  
 pen, first \$1.25, second \$1; turkey,  
 best pair, first \$2, second \$1; eggs,  
 first 50 cents, second 25 cents;  
 grains and seeds, first 75 cents,  
 second 50 cents; grass, first 25  
 cents, second 25 cents; vegetables,  
 first 75 cents, second 25 cents;  
 fruits, first 75 cents, second 25  
 cents; tanning, first 75 cents, sec-  
 ond 50 cents; crocheted and embroi-  
 dered piece, first \$1, second 50  
 cents; crocheted and embroidered  
 quilt, complete, first \$1.50, second  
 50 cents; pieced quilt, top, first \$1,  
 second 50 cents; machine sewing,  
 first 50 cents, second 25 cents; do-  
 mestic baking, first 50 cents, sec-  
 ond 25 cents; home canning, first  
 \$1, second 50 cents; butter, first \$1,  
 second 50 cents; honey, first 50  
 cents, second 25 cents; flowers, first  
 \$1, second 50 cents.

**LOMSKI GETS DRAW WITH ROSENBLUM**

ABERDEEN, Wash., Aug. 22.—  
 Leo Lomski, Aberdeen light heavy-  
 weight, battled his way to a draw  
 with Maxie Rosenbloom of New  
 York, champion of the division, in  
 a non-title eight-round bout here  
 last night. The bout featured a  
 smother held in connection with  
 the state American Legion conven-  
 tion.

It was a fast bout with both  
 boxers moving and hitting at light-  
 weight speed, but depending en-  
 tirely on their left hands. Lomski's  
 famous right that formerly  
 carried so much dynamite was  
 missing except in one or two in-  
 stances. In the third round, which  
 was his best, Lomski tore the  
 plaster off Rosenbloom's injured  
 eye and a second poke started the  
 blood. He then shook the cham-  
 pion with a solid right under the  
 heart.

Rosenbloom wound up the fight  
 with a furious eighth-round on-  
 slaught in which he threw every-  
 thing he had in Lomski's direc-  
 tion.

**ABEENE BACK IN LOCAL BARBER SHOP**

John Abeene, who for several  
 years was engaged in the barber  
 business in Roseburg, but who has  
 recently been residing at Oakland,  
 has returned to this city and is  
 associated with Tom Weatherford  
 in the latter's shop on Cass street.  
 Mr. Weatherford has installed a  
 second chair in his shop and Mr.  
 Abeene has assumed his duties  
 there.

**TURNER SIGNS TWO TACOMA PLAYERS**

(Associated Press Local Wire)  
 PORTLAND, Aug. 22.—Thomas  
 L. Turner, Portland ball club presi-  
 dent, today announced George  
 White, Tacoma "Tigers" shortstop,  
 and Neil Mazza, Tacoma "Leopards"  
 outfielder, had been signed and  
 would report to the Ducks Tuesday  
 when they open here against Sacra-  
 mento. He also announced the  
 unconditional release of George  
 O'Connor, rookie shortstop of San  
 Francisco.

**EARTHQUAKES GIVE ITALY FRESH PANIC**

REGGIO, Calabria, Italy, Aug. 22.—  
 A slight undulatory earthquake  
 shock was felt here at 2:30 a. m.  
 bringing about a panic among the  
 populace. There was no damage.  
 Benevento, Jonica, and Catanzaro  
 also felt the tremor.

out over the valley. It will do you  
 a lot of good.

To some folks, the most tangible  
 advantage of their college edu-  
 cation comes along about this time  
 of year, when the alumni secretary  
 mails out football season dope  
 promising the 50-yard seat section  
 to alumni only.

VERY MUCH WORRIED. As  
 much as I realize that your con-  
 science is worrying you about the  
 unjustifiable wrong you did to the  
 girl you cared for, I would advise  
 you to let things be. The girl is  
 now married and as long as she is  
 with her husband, you would only  
 be doing her an additional wrong  
 if you were to tell and perhaps up-

By Geo. McManus

**Maybe I'm Wrong**  
 By J. P. MEDBURY

AND then there was the chorus  
 girl who was disappointed to  
 learn that a lobbyist is not a stage  
 door Johnny.

American Tragedies—Transfer-  
 ring from a subway local to an  
 express to save three minutes and  
 then losing one.

Justifiable Homicide—The back  
 seat driver who killed her husband  
 when he became deaf.

Excuse It Please—The girl who  
 thought a tawdry slayer was the  
 same as a wet blanket.

The Ace of Cads—The man who  
 mixed perfume with his gin so his  
 friends would not smell it and ex-  
 pect a drink.

Take It or Leave It—Since the  
 popularity of the tawdry bar, all we  
 need now is an automatic ejector  
 to make the boys go home at  
 3 a. m.

Advice to the Lovelorn—Many a  
 man wears large plaids who can't  
 write even small checks.

Among Us Unintelligents—The  
 girl who thought the primrose path  
 was laid out by a tourist.

Our Own Vaudeville—Buck: Did  
 you ever see a rope-walk? Whig:  
 No, but I believe it might if it were  
 taut.

**Advice to Girls**  
 By NANCY LEE

DEAR NANCY LEE:  
 I've been attending "High."  
 I loved a girl who was very much  
 interested in one of our classmates.  
 I knew that he loved her too.

It happened that one day, while  
 having a conversation with her, I  
 played the part of "Judas" as far  
 as deceitfulness was concerned. I  
 informed her that P. said, "he  
 could never be sincere with her on  
 account of her religion, and also  
 since she could not have a college  
 education." Ever since then, I have  
 never seen the two together, and  
 she has never been the same cheer-  
 ful and happy girl since that time.  
 I will be frank with you. I could  
 not win her heart, but have mar-  
 ried another.

She is also married but very  
 unhappy as she had to marry to  
 please her parents. Her husband  
 had greatly misrepresented himself  
 to her in order to win her for his  
 wife, and now he treats her very  
 brutally.

During the Christmas holidays I  
 dropped in to visit her as old  
 friends will at that time of the  
 year. I found her playing the  
 piano and singing "Memories."  
 This touched me very much.

Last week I also attended a ban-  
 quet and sure enough she had a  
 reading entitled "John's Mistake  
 Made Her Sad." Ever since then  
 I cannot sleep.

Please tell me how I ought to  
 inform each of them about the  
 great wrong I have done them.  
 Even if it is too late for them to  
 be "united as one," I long to see  
 them be friends again, as I greatly  
 admire both of them. Paul is also  
 still unmarried.

Please give this your considera-  
 tion. I hope also that your readers  
 will learn by my jealous error and  
 especially on loved ones.

VERY MUCH WORRIED. As  
 much as I realize that your con-  
 science is worrying you about the  
 unjustifiable wrong you did to the  
 girl you cared for, I would advise  
 you to let things be. The girl is  
 now married and as long as she is  
 with her husband, you would only  
 be doing her an additional wrong  
 if you were to tell and perhaps up-

**Around... The County**  
 By R. R. WOOD

A lot of city folks think that to  
 live in the country, remote from  
 the movies and far from shopping  
 centers, is the next thing to being  
 on a desert island or in exile. No  
 conveniences, just drudgery and a  
 lot of dull routine is all they can  
 see for the farmers. While it is  
 not the intention of this story to  
 deny that there is much hard work  
 in the country life there is often  
 another side to the picture. This  
 writer finds attractive homes and  
 a lot of cultured folks on Douglas  
 county farms who would not trade  
 places with royalty. Just one illus-  
 tration of this fact is the theme of  
 this story.

Down along the Umpqua, prob-  
 ably twenty miles from railway,  
 and more than that distance from  
 Roseburg, and standing on a slight  
 spot overlooking the river and  
 giving a splendid view of the gor-  
 geous mountains is a cement block  
 home, modern even to the radio.  
 Water from a big spring on the  
 hill in the background is piped into  
 the house. The yard is as fresh  
 and green as that of the best kept  
 city home. The water from sprink-  
 lers that fallily swirl under the  
 pressure keeps things growing and  
 flowers and climbing vines are in  
 greatest profusion. The home is  
 electrically lighted. The laundry  
 room is supplied with a modern  
 machine that is operated by  
 draine power from the water sys-  
 tem. They have their telephone  
 and the radio is connected with  
 the electric plant that belongs to the  
 farm—no meter charges to pay,  
 either. This modern convenience  
 brings the best musical programs,  
 farm reports, news stories, lectures  
 and playlets. A good road between  
 the river and the house is traveled  
 by auto and enables this farmer  
 to drive the eight or ten miles to  
 the nearest store in a few minutes.  
 The orchard, sheep, turkeys, chick-  
 ens and dairy provide the income  
 for this family, who have lived on  
 that ranch since 1907. And it has  
 made them some money in those  
 twenty-three years. They are per-  
 fectly satisfied to stay there and  
 carry on.

This ranch is the home of Mr.  
 and Mrs. J. Mortensen. These  
 people came to America 37 years  
 ago and first settled in Wisconsin.  
 They came to Oregon in 1906, and  
 the following year after looking  
 around a bit located the place  
 where they have resided since, and  
 started to make a home; and Mrs.  
 Mortensen avers there is no place  
 equal to Oregon, even though she  
 and her husband, accompanied by  
 their daughter, Miss Dorothy, have  
 just returned from an all summer's  
 visit to Denmark, the land of their  
 nativity. While gone they visited  
 Montreal from where they sailed  
 for England, took in London and  
 then crossed the channel to Den-  
 mark. Speaking of conditions in  
 Europe, Miss Dorothy Mortensen,  
 who is a native of this county, and  
 who has lived all her life on the  
 Umpqua, graphically described the  
 farms and methods in the old coun-  
 try, where dairying is a national  
 industry. Old and young ride bi-  
 cycles the young lady said. There  
 are a limited number of autos,  
 mostly American makes. The popu-  
 lation is very dense, one island  
 they visited being 14 miles long by  
 8 miles wide and having a popula-  
 tion, mostly of Dane farmers,  
 over 8,000 people. But the farmers  
 are quite thrifty, and the majority  
 of farm homes there keep hired  
 girls to help in the housework,  
 as well as a hand for the fields or in  
 the dairy. But after all, and while  
 they had a delightful time visit-  
 ing with relatives, they are all happy  
 to be back in the home where "rolls  
 the Umpqua."

**Talks on Health**  
 By DR. R. S. COPELAND

VACATION may mean a trip to  
 Europe, a summer at the sea-  
 shore, or any other outing on or  
 near the water.

Pleasant as these events are,  
 they have their drawbacks. Per-  
 sons with sensitive eyes know  
 what it is to have discomfort from  
 the glare of the sun on the water.  
 Sometimes the experience is ex-  
 tremely painful.

It is here that properly made  
 glasses will protect the eyes from  
 a condition that might prove se-  
 rious. That delicate instrument,  
 the eye, with proper care and at-  
 tention, should last a lifetime. Yet  
 it can be put out of commission by  
 a grain of sand.

The glare of the sun is capable  
 of causing blindness. Nobody  
 wants to take the risk and it can  
 be avoided.

Many persons, after a day on  
 the water, even though they pos-  
 sess very good eyesight, may have  
 badly inflamed eyes. Either the  
 direct sunlight or the "sky-shine"  
 may set up an irritation that is al-  
 most unbearable.

Light is made up of an unceasing  
 stream of rays. Sunshine and  
 "cloud-shine" send out an endless  
 procession of these light beams.  
 They are not alike. Some are il-  
 luminating rays, and others cause  
 the sensation of heat. Those we  
 consider here are those producing  
 chemical changes in the objects  
 they strike.

The photographic plate of a camera  
 is changed by these rays. The  
 same rays "sunburn" the skin by  
 their action. The eyes are greatly  
 irritated by them.

In recent years, experimentation  
 with these light beams, or the "ul-  
 tra-violet rays," as they are called,  
 has demonstrated what marvelous  
 effect they have on human beings.  
 They promote growth and well-  
 being, and life itself depends upon  
 them.

The ordinary window glass does  
 not allow these rays to penetrate.  
 But now man has learned how to  
 make a certain window glass  
 which has the quality of transmit-  
 ting the ultra-violet rays. Such  
 glass has been found beneficial to  
 the health of young children when  
 used in windows of the home and  
 schoolroom. The health is im-  
 proved when the body enjoys the  
 stimulating effects of the chemical  
 rays.

When it comes to the eyes we  
 are dealing with quite a different  
 problem. Overstimulation of the  
 delicate retina of the eye is  
 brought on by these rays and real  
 harm may be done by them.

When you go on the water, if  
 your eyes are at all sensitive, you  
 will be wise to wear glasses or  
 spectacles made of glass which  
 permeates the eye. After much ex-  
 perimentation such a glass has  
 been found.

It was necessary to produce a  
 glass that would not cut out use-  
 ful vision, as glass densely smoked  
 will do. It was important, too, to  
 find a glass which would not dis-  
 tort, or seriously change the nor-  
 mal appearance of the natural  
 colors.

The painful glare of the sun is  
 overcome by their use. They are a  
 blessing for sensitive eyes. Take  
 care of your eyes, and enjoy life on  
 the water.

Answers to Health Queries  
 W. S. Q.—What do you advise  
 for correcting constipation?  
 2.—Can blackheads be cured?  
 3.—What will remove freckles?

A.—You should eat only simple  
 foods. Avoid foods unduly rich in  
 fats and starches.  
 2.—Yes.  
 3.—Freckles may be made less  
 noticeable by applying equal parts  
 of lemon juice and peroxide of hy-  
 drogen.

E. V. O. L. Q.—What do you ad-  
 vise as a tonic and body builder—  
 cod liver oil or olive oil?  
 A.—I would suggest that you  
 take a tablespoonful of pure cod  
 liver oil after meals.
