LOS ANGELES TO CHICAGO ROUTE OF NEXT AERIAL RACE

(Associated Press Leased Wire)
METROPOLITAN AIRPORT, Los Angeles, Aug. 26.—William S. Brock, noted Detroit round-the-world flier, took off today to start the Los Angeles to Chicago non-stop aerial race staged as a part of the national air races now being held at the middle western city. Exactly five minutes later, Lee Schoenhalz, Los Angeles, took off. Wilcox Post, Oklahoma City and Roscoe Turner, Los Angeles, followed.

The fliers predicted they would make their goal in from 9 1/2 to 10 hours, depending upon weather conditions. Post said if he made Chicago in eight hours he would take off immediately again for New York in an effort to better the transcontinental speed record set recently by Frank Hawke. The latter flew from Los Angeles to New York in 12 hours and 25 minutes.

Art Goebel, fifth entrant in the race, announced he would fly his plane through a series of tests today in preparation for a takeoff tomorrow.

Turner was accompanied by Gilmore, his flying lion mascot, on the 1,725-mile jaunt.

UNDER the non-skid tread of these famous Firestone Tires is a double breaker of two plies of cord fabric anchored in cushion rubber. This special construction absorbs road shocks—protects against punctures and blowouts—provides the foundation for the thick, tough tread with deeper grooves—giving longer non-skid wear.

OTHER makes of tires have only a single breaker of old-fashioned square woven fabric which Firestone discarded when they developed the balloon tire. Some makes do not have any breaker at all. The Firestone Tire is set apart as an "All Cord Tire".

Every tire we sell bears the Firestone name for the protection of our good customers. Every tire carries the unlimited Firestone Guarantee and ours.
