JOE CRONIN WINS VERDICT AS MOST VALUABLE PLAYER

By ALAN GOULD Associated Press Sports Editor NEW YORK, Oct. 10.—Joe Cronin, sensational young shortstop of the Washington Senators, today was proclaimed the American league's "most valuable player" for 1929 by a special committee of members of the Baseball Writers' association of America. The writers, representing each American league city, cast their votes at the request of the Associated Press for the second successive year since the league abandoned its custom of making an official selection. Cronin, although playing only his second year as a major league regular, merited sufficient votes to beat out Al Simmons of the Athletics, the league batting champion, and Lou Gehrig, slugging first baseman of the Yankees, in a close contest. Cronin, selected as Washington's most valuable performer by every one of the eight experts, led with a total of 43 points out of a possible maximum of 61. Simmons and Gehrig were tied for second place with 29 points each. Simmons was the choice of most of the experts for first ranking, being put at the top of the list by four of the eight critics, but his chances of winning the honor were reduced by the nomination of Lefty Grove and Mickey Cochrane by other experts as the representative of the world's champions. The Washington shortstop's selection by the writers comes as something of a birthday gift. He will be 24 years old this Sunday, Oct. 12, according to the baseball records. Born in San Francisco, Cronin received his first major league trial with Pittsburgh in 1925. Cronin was one of the chief factors in the surprising rush of the Senators toward the top this year. He is a sensational fielder and scored for the fine average of .315. He scored 127 runs, collected 263 hits, including 42 doubles, and
