**New Thor WRINGERLESS WASHER**

For a limited **\$5.00** time Only down

Balance... Easy Monthly Payments

Thor has developed and now offers you a new type of Wingerless Washer which extracts the water from the clothes by centrifugal force and does it in the same tub in which clothes are being washed.

Not only does this washer eliminate the necessity of putting your clothes through a wringer, but it eliminates the necessity of lifting heavy, steaming clothes from the washing tub into separate spinning tubs. The ingenious arrangement by which this is accomplished must be seen in operation to be fully appreciated.

**Speed and Simplicity**

This new Wingerless Washer is the climax in the effort of the Thor people to attain speed. Thor Speed Washers reduced to about half the time in which it was formerly necessary for a woman to do her weekly washing. The new Wingerless Washer clips about 20 minutes more from the time now required to wash, making it one of the speediest washers on the market today. A more attractive, trimmer, neater washer was never built. Moreover it is simple in operation, having an arrangement that extracts the water from one batch of clothes while another batch is being washed in the water below the extractor.

**Don't buy any washer until you have seen the new Thor Wingerless Washer**

**\$5.00 down delivers it to your home. Balance... easy monthly payments. INVESTIGATE TODAY!**
