BAILEY AHEAD IN LOCAL STRAW VOTE

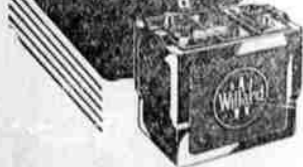

One of the most humorous programs to be held by any of the service clubs recently was staged by the Roseburg Rotarians at their noon luncheon today. W. H. Fisher, program chairman, selected representatives for the several candidates for governor. Foster Butler appeared in behalf of Meier, J. E. McClintock for Bailey, A. C. Seely for Metschan, Harris Ellsworth for Mrs. Wilson and Carlos Page for Streiff. The speeches took a very humorous turn and resulted in much hilarity, as the speakers resorted to wit and sarcasm in answering arguments of their opponents. Three selections were presented by a quartette composed of Walter Fisher, Charles Stanton, H. C. Church and R. L. Whipple, accompanied at the piano by Mrs. C. E. Heintze. Following the political speeches, a straw vote was taken resulting in 14 votes for Bailey, 12 for Meier, 7 for Metschan, 6 for Wilson, 1 for Carlos Page.

WOMAN HURT AS AUTO HITS TRUCK

Mrs. P. E. Foster received minor injuries yesterday evening when the car driven by her husband collided with a truck reported to have been standing on the pavement about three miles south of Roseburg. Mr. Foster, according to his report, was blinded by the lights of an approaching car and did not see the truck, which he said had been left on the highway without

The commerce department, conferred with Secretary Lamont, and began to organize his headquarters' personnel. Edward E. Hunt, who was secretary to the unemployment commission of 1921, was designated as temporary secretary for the new campaign. He has been secretary to the president's commission on economic changes and formerly was secretary of the United States coal commission. John J. Gries, public construction expert of the commerce department, also will assist Woods in his work. As soon as possible Colonel Woods plans to designate state committees on unemployment and committees to deal with the subject in the various industries. Boston Mayor Advises Mayor James J. Curley of Boston said, after a conference with the president, that Massachusetts

had set up a group of presidents of the state's educational institutions and economic professors to study unemployment and they had recommended a federal economic board be set up to work out a long time program looking to the elimination or mitigation of economic depression.

Mayor Curley said in his opinion the federal government could greatly assist the country by formulating a permanent instead of temporary program to provide for unemployment.

Legge Offers Wheat

WASHINGTON, Oct. 23.—Chairman Legge said today the federal farm board would be glad to make its holdings of wheat available as food for the unemployed if congress would replace the money used by the grain stabilization corporation for its purchase.

War Horror Realized

RIO DE JANEIRO, Oct. 23.—Arrival of the first casualties from the southern front is bringing home to residents of this capital, one of the most beautiful cities of the world, that a bloody civil war actually is being fought just a few hundred miles away.

Until now Rio De Janeiro has remained so calm and with so little excitement beyond that incident to mobilization of volunteer and reserve armies in the outskirts, that war and revolution

have been almost unthinkable. Official communiques have been monotonous, all very much like that of this morning which says that government forces are maintaining their positions without change in all sectors. Sometimes a few details are added, as today, that General Santa Cruz, commanding at Bahia, is coordinating all military elements in that state in preparation for operations he is about to begin. The banks passed their first day under the new opening order of President Washington Luis functioning normally as before, their fifteen day "holiday" with the exception that they were not allowed to issue bills of exchange, this privilege being reserved for the Banco Do Brazil. Legal rate of the milreis was fixed at 9.5 to the dollar.

Let's Stand Back of PHIL METSCHAN and FREE SCHOOL BOOKS

Phil Metschan republican candidate for governor, recognizes the injustice of forcing families of small means to purchase school books for their children. Oregon is one of five states in which the parents are compelled to buy school books.

Thousands of children are thrown behind in their studies at the opening of every school term because their parents are unable to purchase books for them. This shameful condition is placing children of families of low incomes at a disadvantage and building up a class consciousness. Phil Metschan will lead a fight for free text books.
