"A REMARKABLE REVELATION"

Says

HON. JAMES FRANCIS BURKE

General Counsel of the
National Republican Committee

Congressman 1905-1915. Government
Director of War Savings during World
War.

"Americans love to do their own thinking—But they welcome facts from others. You are wise in letting every smoker know that you employ the modern Ultra Violet Ray principle in 'Toasting LUCKY STRIKE' tobaccos. This 'extra secret process' is a remarkable revelation."

James Francis Burke

Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray. LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating!

"It's toasted"

Your Throat Protection—against irritation—against cough

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. James F. Burke to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Burke appears on this page.
