Around... The County

By R. R. WOOD THREE years ago a canning plant was established at Myrtle Creek and during the past season more than 1400 cases of tomatoes alone were packed.

It has been the ambition of the promoters of this local canning company to build up a business here that would serve the people of Myrtle Creek as a means of marketing their tomatoes and other products, and also creating a source of employment for residents of that locality.

Advice to Girls

By NANCY LEE DEAR NANCY LEE: I am in love with a man who tells me he loves me dearly. Have known him for eight months and saw him steadily until just about a month ago, when he stopped calling or seeing me very suddenly and I don't know why.

ANCESTORS OF HOOVER, NAMED HUBER, TRACED BACK TO SWITZERLAND

BASEL, Switzerland.—President Hoover's ancestors originated in Switzerland, believes Prof. Hermann F. Maccio of Berlin, after three months' search of archives in this city. Professor Maccio came to Switzerland with the intention of tracing the Hoover family ancestors further than American biographers whose researches ended with Andrew Hoover, a land of 15 emigration in 1788 from the Palatinate to Pennsylvania.

Is terrible because such cases of cancer will never be cured of themselves or by medicine. If we could only make everybody understand that surgery in early stages of cancer is a simple procedure we could remove the terrifying and bitter effects of advanced cancer.

It is then often too late to operate. Sudden swellings, tumors, sores, abrasions and ulcers are not always true cancer. Delay in treatment of what in the beginning is a harmless thing increases the chances of development of the disease at a later time.

Talks on Health

By DR. R. S. COPELAND YEARS ago the word "cancer" brought horror and fear to everybody. Cancer seemed about the worst thing that one could have. Today this disease is still dreaded, but it is handled more sanely and more successfully.
