For Hard Coughs That Call For Super-Help

Creomulsion is made for coughs from colds that hang on. For coughs deep and difficult—coughs where you dare not risk a less effective help.

But careful people use it for coughs which seem milder—use it to do the utmost and be safe. For nobody knows where a cough may lead.

Creomulsion combines seven major helps in one. Some coughs yield best to one help, some to another. Doctors often differ on the best help, for coughs are not alike. So here we combine all the best—to be sure.

Creosote stands first. Here it is blended, emulsified and made palatable. For soothing membranes and combating germs, it is considered the supreme help in this type of cough.

But other helps are sometimes needed—pine tar, wild cherry, menthol ipecac and others. Nobody can tell to which help your cough will soonest yield. So experts have combined in Creomulsion all best helps in one. No narcotic, nothing harmful to a child, but a seven-way help to deal with all conditions.

The price is $1.25—a little higher than a lesser help. But your druggist guarantees it. Your money is returned if it fails to bring the quick, complete help you desire. Don't you think it worth that little extra to be sure that you are doing the utmost for a cough?

"Competition is the life of business. To win leadership a manufacturer must make his product more desirable than others. Hence there results a great benefit to the public through constant striving for improvement. The use of the modern Ultra Violet Ray in toasting the tobaccos used in LUCKY STRIKES is an example of such advancement."

Vincent Bendix

Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray. LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating!
