PLANE CRASHES IN OKLAHOMA, TEXAS TAKE FIVE LIVES

(Associated Press Leased Wire)

MARSHALL, Tex., Jan. 8.—Wreckage of an airplane which bore three men to death was scattered today about a clearing in a densely wooded area eight miles west of this city, tortuous roads hampering an investigation. The plane crashed in a fog yesterday, the second fatal air accident in a week in the forests of east Texas. Arthur C. Brown, New Orleans pilot; Everett William, of New Orleans, co-pilot, and Robert Wilson, 16-year-old New Orleans student who was returning from his home in Fort Worth, were the victims. The bodies, thrown clear of the wreckage, were brought here. Three men were killed Sunday in a similar accident near Overton when their plane lost in a fog, crashed into a tall pine. Reports received last night from Fort Worth said the boy's mother, Mrs. E. H. Carlton, was in a serious condition from shock.

ADA, Okla., Jan. 8.—Collision of a wing on a plane described as experimental caused the death yesterday of Wayne Snegser, 21-year-old transport pilot, and Lee Davis of Ada, his passenger.

ITALIANS' AIR VENTURE COST 5 LIVES, 2 PLANES

BOLAMA, Portuguese Guinea, Africa, Jan. 8.—The glory attained by ten Italian seaplanes Tuesday in their trans-Atlantic flight to Natal, Brazil had its price—five aviators were left behind dead and three injured. Two of the 11 planes in the squadron were virtually destroyed.

Belatedly official announcement has been made of the tragedy which attended one of the greatest victories over the elements in the history of aviation, the delay being due to the wish of the Italian government that reluctance at completion of the flight and celebration of Italy's "Benahy," or second Christmas, not be marred. As 12 of the planes in formations of three, took off, one of the red group crashed from a height of 100 feet. The sergeant mechanic who was riding above the right pontoon, was killed and the two pilots and the radio operator were injured. Ten minutes after the takeoff the second plane of the white group was forced to alight on the sea at full speed. It took fire and the four crew members perished. After these two accidents word was flashed to the two replacement planes to take off for Natal. Both came down after crossing the equator between St. Paul's rock and Fernando de Noronha.

LINGLE'S SLAYER

JAILED IN CHICAGO, OFFICERS DECLARE

Leo Brothers, World War Vet, Alleged For-Hire Killer, Identified by Witnesses.

(Associated Press Leased Wire)  
CHICAGO, Jan. 8.—A solution of the mystery of the murder of Alfred E. Lingle, Chicago Tribune reporter, has been reached, authorities claimed today, with the arrest of Leo Brothers, a St. Louis gangster, who was identified by several witnesses, they said, as the man who shot and killed Lingle last June 9. The identification, they said, was positive.

Brothers, it was revealed by Patrick Roche, chief investigator for the state attorney's office, was arrested by three detectives in a Chicago apartment after he had been trailed to 12 different cities. He denied he killed Lingle, but admitted Roche said, that he was wanted in St. Louis for the slaying of a service car driver.

"This man will sit in the electric chair for the murder of Alfred E. Lingle," Roche told newsmen. "I'll stake my official reputation on that. If he is not the killer, then Lingle is still alive."

Big Question Unanswered

Neither Roche or State Attorney John A. Swanson, however, would reveal if they had uncovered the answer to the all absorbing question in Chicago crime in recent years, namely, "why was Lingle killed?"

There was an unofficial report that the investigators have been working on the theory that the Tribune reporter was out to death because he had incurred the enmity of gangsters whom he had harassed. Nor would the officials give out a list of the names of the persons who made the reported identification.

This information, Roche indicated, would be withheld until the facts of the mystery are more definitely determined. Roche was asked by a reporter if "any highbrows were being sought or any other persons." And his answer was: "We have a lot of work yet to do."

World War Veteran

Brothers, a chestnut-haired, well-dressed man of 31, served on a submarine chaser during the World war. He is a native of Bellefonte, Ill. near St. Louis. Roche described him as "the toughest man I have ever encountered" adding that "he hasn't a nerve in his system."

Police said Brothers hired himself to gangsters requiring a cool, fearless head.

Lingle met death in a crowded room under North Main avenue at Randolph street leading to a suburban railroad station. His assassin fired a .32 calibre bullet into the back of his head from a snub-nosed pistol.

His death created a furor such as Chicago has never witnessed, and rewards totaling \$55,000 for the arrest of his slayer were posted.
