### UNUSUAL GOODNESS OF FAMOUS COFFEE INTRIGUES EXPERTS

Probably no coffee sold today has enjoyed the success of Hills Bros. Coffee. Everywhere it has been introduced it has become a leader.

This popularity lies in the fact that Hills Bros. Coffee has a delicious, uniform flavor such as no other coffee has. While the rare blend is partly responsible for this, the patented process, by which it is roasted, is one factor that has made this matchless, uniform flavor possible in every pound.

Instead of roasting in bulk, Hills Bros. roast only a few pounds at a time. By this process—the degree of roast, the continuous flow of coffee through the roasters, never vary. Hence the name of this process—Controlled Roasting.

Grocers everywhere sell Hills Bros. Coffee. It is always fresh because it is packed in vacuum cans from which air, which destroys the flavor of coffee, is taken out and kept out. Ordinary cans, even if air-tight, do not keep coffee fresh. Ask for Hills Bros. Coffee, by name and look for the Arab—the trade-mark—on the can.

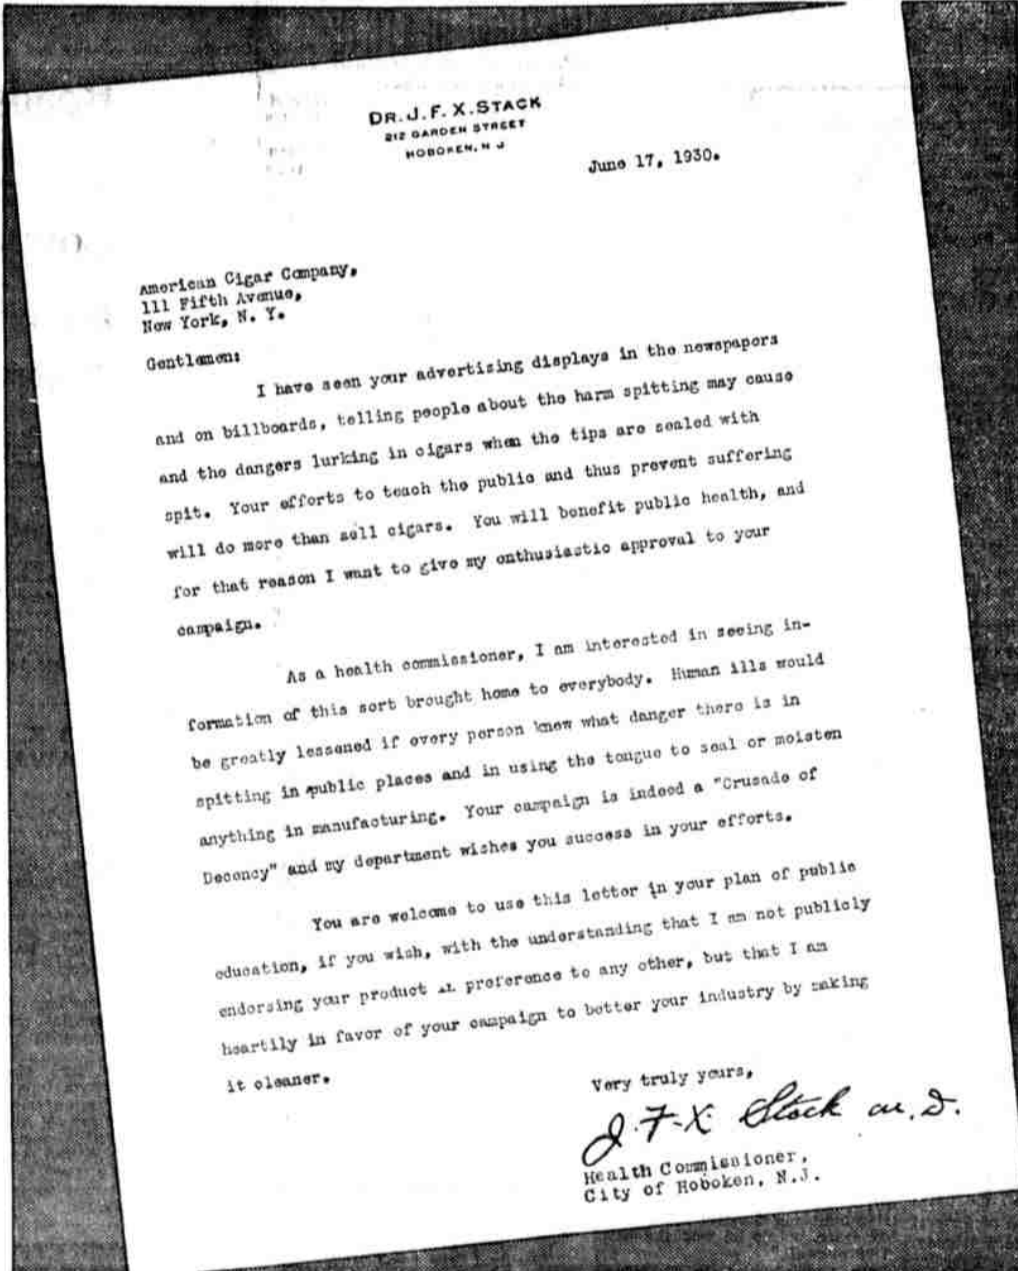

Hills Bros. Coffee, Inc., Portland, Oregon.

# "You Will Benefit Public Health"

Says  
**DR. J. F. X. STACK**  
 Health Commissioner, City of Hoboken, N. J.

... one of 56 health officials from 56 different points approving Cremo's crusade against spit or spit-tipping.

Every smoker, every wife whose husband smokes cigars, should read Dr. Stack's letter.

"Who are the friends of 'Spit'?"

YOU MAY WELL ASK THIS QUESTION WHEN 56 IMPORTANT HEALTH OFFICIALS HAVE WRITTEN SO STRONGLY AGAINST THE EVILS OF SPIT OR SPIT-TIPPING.

Dr. Stack writes: "I am heartily in favor of your campaign to better your industry by making it cleaner."

The war against spit is a crusade of decency. Join it... Smoke Certified Cremo—a really wonderful smoke—mild—mellow—nut-sweet! Every leaf entering the clean, sunny Cremo factories is scientifically treated by methods recommended by the United States Department of Agriculture.

In this period of cold weather and cracked lips, above all insist on a cigar—free of the spit germ.
