### WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned. It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute.

### Happy Kitchens For Roseburg

Miss Virginia Randolph, kitchen expert, will be here in person from Feb. 4 to Feb. 6, to demonstrate the latest in modern cookery to local housewives at the Roseburg News-Review free cooking school. Follow these articles every week until the cooking school—then be sure to attend.

Programs will be from 2 to 4 p. m. Wednesday, Thursday and Friday, Feb. 4, 5 and 6, at the Roseburg armory.

The happiest men and women in the world today, says Miss Virginia Randolph, who is to conduct the Roseburg News-Review cooking school in Roseburg for this past next Feb. 4, 5 and 6, "are those who create things. The inventor, the artist, the abstract thinker—all are happiest in their laboratory making things, thinking things. A like happiness is easily available to the housewife who looks upon her kitchen as her laboratory—a place where she can discover and prepare delicious and healthy meals. The cooking school opens up new vistas for exploration in the art of cooking which bring constant joy. I know many women who find the keenest enjoyment in experimenting with variations of the recipes which our school offers. One woman said that our school was to her the multiplication table which gave the principles of cooking, and enabled her to work out many interesting problems. This woman has sent us some very interesting and practical original recipes. It is easily seen that a housewife who can not make good pie crust can not make a good pie. The woman who does not understand the great importance of temperature regulation can never become efficient in baking. Knowledge of certain fundamental principles is absolutely necessary before one can step out alone in creative cooking; and certainly that should be the aim of the woman who wants real kitchen enjoyment."

Miss Randolph has a pleasing personality, and all will enjoy her lectures every minute. Every sentence is packed full of interesting facts about household management. The cooking school is free to every housewife.
