

### SPORTSMEN'S CLUB OF SOUTH UMPQUA FAVORS GAME CODE

Suggests Penalties Should Be Matter for Discretion of the Criminal Courts.

(News-Review Douglas County Special.)  
**DAVE CREEK, Jan. 23.**—The greater portion of the meeting of the South Umpqua Rod and Gun club, held at Tiller, Wednesday evening, was devoted to a consideration of senate bill No. 17, the proposed new game code recently introduced into the legislature.

In general the club favored the recommendations of the state game commission but took exception to a few items. The clause imposing minimum fines of \$200 for violation of the act relative to game animals was considered unduly severe and the club recommended that the fine and other penalty be left to the discretion of the court. The club opposes that section which will make it illegal for a land owner to hunt for deer on his own property without a license. It also favored the retention of the law permitting children under the age of fourteen to hunt without license.

The suggestion of Representative Nichols that the South Umpqua to the South Umpqua falls and up Jackson creek to the junction with Beaver creek be opened to year long fishing for 10-inch trout, was unanimously adopted.

The legislative committee, consisting of C. C. Hill, R. A. Moore and Archie Ferguson, was instructed to present the views of the club to the Douglas county delegation in legislature.

The fish and game committee reported that during the last week sixteen thousand eastern brook trout were liberated in Elk creek, Stone creek, Coffee creek, Curm creek, St. Johns creek, Shively creek, Woods creek, Days creek and Deadman creek. The committee is requesting more fish fry for spring and summer planting. W. C. Smith, Earl Duncan and Andy Moore, the active fish and game committee of the club supervised the liberation of the fish.

Extension of the light and power line up the river to Milo was adopted as a major project by the club. Arrangements have already been made by a committee to have R. L. Matthews of the Copco make a survey of the situation. A mass meeting will then be held, probably at the Days Creek school house, to put the matter before the residents.

Archie Ferguson and Earl Duncan, the membership committee of the club, were instructed to investigate the practicability of including the North and South Myrtle creek territories in the next hunt now being conducted on the South Umpqua under the auspices of the Rod and Gun club. A desire on the part of a number of the residents of the Myrtle Creek country to enter the hunt has been expressed and the club felt that considerable good could be done by extending the limits of the next hunt.

The meeting of the club will be held at Lavador, Wednesday evening, Feb. 3. At that time refreshments will be served by the social committee and a large attendance is expected.

**PLANS MADE FOR PLAY AT GLIDE**  
**GLIDE, Jan. 23.**—The play, "Sonny Jane," has been selected by a committee of the Christian church to be presented at the Glide school house February 21. The committee, which is composed

of Willard Smith, Mr. and Mrs. Frank Wilson, Mrs. A. Erlebach and Miss Bjorge, met Sunday afternoon at the Ed Everts home where the arrangements were discussed. The play provides a great deal of humor and is well adapted for home talent production.

**TENMILE**  
**TENMILE, Jan. 23.**—Mr. and Mrs. Jake Patterson and family were the guests Sunday of Mr. and Mrs. M. McDaniel.

Frank Albro spent Tuesday attending to business matters in Roseburg.

Clarence Markland of Eureka, California, is visiting with Mr. and Mrs. S. L. Moss.

Mrs. R. D. Lockwood and son Lawrence have returned from Corvallis where they have been visiting friends.

Adrian Ward and L. D. Lockwood were business visitors to Astoria Creek Tuesday.

### MISSIONARY AND AID SOCIETY AT GLIDE PLANS WORK

(News-Review Douglas County Special.)  
**GLIDE, Jan. 23.**—The monthly meeting of the Baptist Missionary and Aid society was held in the church house on January 21st.

Mrs. Floyd Watson was to have been the program leader but was unable to attend and Mrs. J. J. Shrum conducted an interesting program on missions, in which several ladies took part. The business session followed the devotional program, the ladies planning more improvements in the kitchen and other constructive work.

The social program was in charge of Mrs. Ada Morgan, Mrs. Grace Bond and Mrs. Frances Bond, who served lovely refreshments at a beautifully decorated table, using Valentine favors.

Those present were Mrs. Alva Hunter, Miss Laura Silenius, Mrs. Carlton Livingston, Morris Morgan, Mrs. S. J. Shrum, Mrs. Alvin Schlemmer, Mrs. W. P. Price, Mrs. Herbert Conline, Mrs. Oscar Silenius, Mrs. Charles Christian, Mrs. Fred Aarn, Mrs. George Anderson, Mrs. Sarah Winger, Mrs. May Engles, Mrs. F. Winkler, Mrs. Paul Casswell and her grandmother, Mrs. Kinnen, and the hostesses, Mrs. Walter Morgan, Mrs. Perry Bond, Mrs. Roy Bond.

### OAKLAND SEWING CLUB MEETS WITH MRS. H. C. STERANS

(News-Review Douglas County Special.)  
**OAKLAND, Jan. 23.**—The Wednesday Afternoon Sewing club met with Mrs. H. C. Sterans, of Roseburg, at the R. D. Bridges residence on Second street. Rooms were tastefully decorated with sweet peas, carnations and ferns. The afternoon was spent in sewing and conversation after which dainty refreshments were served. Members present were Mesdames J. E. Stafford, J. E. Sterans, R. D. Bridges, R. G. Young, R. M. Beutel, Roy Trout, Woodruff Trout, H. R. Underwood, H. R. Clark, Ruth Chesno-dew and the hostess.

### YONCALLA GIRL GIVEN SURPRISE

(News-Review Douglas County Special.)  
**YONCALLA, Jan. 23.**—Miss Mary Clark was pleasantly surprised at her home Friday evening by a group of friends, the occasion being her birthday. Games were played and a very pleasant evening spent, following which delicious refreshments were served to the following guests: Misses Mary Clark, Edna Daugherty, Dorothy Edes, Lucille Glover, Ester Tomer, Audrey Rogers, Hazel Cooley, Mrs. Carol Gray, Mesdames Harold Edes, Marvin Holland, James Weber and Kyle Turpin. Miss Clark received many beautiful presents from her friends.

### STATE ADMINISTRATION POWER BILLS APPEAR IN LEGISLATURE

Public Utilities Body and Hydro-Electric Conservation Measures Carry Special Messages From the Governor; Enabling Act Covers Grange-Sponsored Proposal.

(Associated Press Lead Wire.)  
**SALAM, Ore., Jan. 23.**—The three major bills expected during the entire session were in the legislative hopper, following their introduction yesterday in the house and senate, two of which carried special messages from the governor. The public utilities commission bill, and the hydro-electric and conservation measure, the important administration proposals, were accompanied by long messages from Governor Julius L. Meier in which he not only explained their purpose and urged their adoption, but also pointed out why they should be passed in the interests of "public promotion." The third bill, known as the grange district power measure, was also introduced late in the day in the senate.

**To Banish Commission**  
 The first of the trio provides for the abolishment of the public utility commission, creation of a commissioner of public utilities, adoption of home rule for cities in dealing with utilities and the repeal of the certificate of necessity and public convenience act. The latter provision would allow utilities to enter into competitive fields without certificates of necessity.

The second measure, which follows the lines outlined by Governor Meier in his preliminary statement, creates a new hydro-electric commission to consist of the state engineer and two persons appointed by the governor.

This commission has virtually full power over water power projects within the state, and the act provides for control of private enterprises from preliminary survey until taken over, if at all, by state or municipality.

The commission is given judicial powers to the extent that it can hold hearings, summons the witnesses, and accounts and books of private enterprises concerned, and to regulate such private enterprises in conformity with the new act.

**City Charters Unaffected**  
 There is nothing in the act, the sponsors state, to modify in any way the charter provisions of any city or town. All property owned or controlled by a district created under the act would be assessed and taxed in the same way that privately owned utility property is taxed. No bonds could be issued except by the vote of the qualified voters of the district. In the instance of debt the district board of directors would be restricted to the annual income of the district, unless otherwise authorized by vote of the people of the district.

**Survey Proviso Made**  
 Provision is made for a preliminary survey for a hydro-electric project, not to exceed 100 acres, to the concern which is given permission of the commission to proceed with its project. At all times the commission is expected to be in touch with costs of development, and is given the right to regulate bonds issued by the company, which bonds, it is specified must be based on cash or property.

Provision also is made for regulating the finances of the private concern for the creation of an amortization reserve, and for a depreciation account.

A provision is included which gives the right to the state or municipality to take over private plants erected under the act at any time, plus damages.

**Utility Districts Asked**  
 The grange bill is an enabling act that provides the machinery to make effective the water and power utility district amendment adopted by the people last November. If enacted into law, its operation will be in direct connection with the hydro-electric commission provided for in one of the other bills.

The bill provides for the creation of utility districts for the purpose of public operation of utilities. The creation of the districts is placed into the hands of the hydro-electric commission, provided in the administration bill instead of

### AMERICAN WOMEN BACK WORLD COURT

**WASHINGTON, Jan. 23.**—A demand for a special session of the senate if the present session fails to ratify the world court protocol was made yesterday by 600 women conferring on the cause and cure of war.

Mrs. Raymond Morgan, of Washington, D. C., urging the resolution to ask the president to call the special session, defined the present senate as "13 hopeless, 21 saying they opposed, 41 votes pledged and the rest in the twilight zone" of the world court issue.

Carrie Chapman Catt commented:

COMING Monday—Tuesday JUST IMAGINE with EL BRENDAL

This Fine ALL-PURPOSE FLOUR

improves all home baking

Not just your cakes, or your crullers, your pies or your popovers—but everything you bake!

And no wonder! The unvarying quality of Sperry Drifted Snow Flour gives richest flavor, most delicate texture, airy lightness, snowy whiteness every time. "It is the ideal type of all-purpose flour," say leading cooking authorities. Its unvarying quality has made Drifted Snow the largest selling flour in the West. Try it!

SPERRY DRIFTED SNOW FLOUR

### FAITH CURE GIVEN CANTERBURY O. K.

Archbishop Asked to Name Board to Frame Hand-Laying Service.

**LONDON, Jan. 23.**—With only three dissenting votes the lower house of the Canterbury convocation of the Church of England today gave its approval of faith healing and asked that it be given the official sanction of the church.

The approval took the form of a petition to the Archbishop of Canterbury, asking him to appoint a joint commission to frame a professional service for the purpose of being used until a permanent and fully authorized form could be issued under synodical sanction.

The vote on the resolution followed discussion in which Christian Science was praised and criticized. The Rev. T. F. Monahan criticized it as a religious faith, in other speeches it was praised as a means of faith healing.

"We cannot lose sight of the fact," said the Rev. Monahan, "that a great deal of what is called faith healing is really due to natural causes, and that the faith which is essential is subjective rather than objective. That is why we see so many cures from what is called Christian Science. It doesn't matter what the faith of a person is where mental healing is concerned."

**Church Neglect Cited**  
 The Bishop of Woolwich said Christian Science had grown because of neglect by the Church of England.

"Communicants in our church," he said, "are continually joining Christian Science. They say: 'I have been in the church for thirty years, but I have never heard spiritual healing mentioned once. Since I have joined Christian Science I have never heard anything else. I want to get what has been

denied me by my church.'"

In asking for a vote on the resolution as an "historic occasion," he moved a supplementary resolution, which also was passed suggesting that modern therapeutics and psychology as applied to mental and nervous sufferers, be taken into account in framing the proposed service for the physically infirm.

"There is not the slightest idea in the minds of any of us," he said, "of bringing back any of the medieval ideas associated with the extreme unction and such errors. I have a horror of medieval errors."

themselves are not very dependable because the senators denied me by my church."

Resolutions against military training in secondary schools and colleges and in favor of intensive education on disarmament were adopted.

ed such statements were "not very dependable because the senators denied me by my church."

### CUSTARD DESSERTS WILL BAKE BETTER IN SMALL DISHES

Coffee is Also Better When Roasted in Small Lots — Hills Bros.' Method

The smaller the dish, the more evenly and quickly the oven heat can penetrate to the center of the custard. Such results cannot be counted upon when large baking dishes are used.

Applying this principle to roasting their fine blend of coffee, Hills Bros. found the way to develop a uniform flavor in every ounce. A constant stream of green coffee is introduced into the roaster in automatically measured lots of about three pounds, and passes through in a steady flow, roasting a little at a time. There is accurate control of both the flow of coffee and the temperature.

This process, patented by Hills Bros.—Controlled Roasting—develops a delicious uniform flavor no other coffee has. The ordinary method—roasting in bulk—is virtually lacking in control.

Grocers everywhere sell Hills Bros. Coffee in the vacuum can that keeps it ever-fresh. Air, which destroys the flavor of coffee, is removed from this can and kept out. Coffee packed in ordinary cans, even if air-tight, does not stay fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can.
