

TWO GLENDALE TAX WILL BE LOWER THAN LAST YEAR

(News-Review Douglas County Special)
GLENDALE, Jan. 26.—Glendale taxpayers will find their 1930 taxes less than in recent previous years according to summary of 1930 tax rolls received this week from the county assessor's office at Roseburg by I. H. Smith, deputy assessor here.

For each dollar paid the tax collector last year the Glendale taxpayer this year will pay approximately 23 cents, or for each \$100 paid out in taxes last year there will be required \$95.64 this year.

The total tax levy here for 1930 is \$5,519. State and county general taxes total 13.7 mills, special school tax 8.1 mills and special city tax 23.8 mills.

The total assessed valuation for 1930 in Glendale is \$251,850, an increase of \$23,000 over the previous year. The special city tax raised with special levy of 23.8 mills is \$59,918.

Special school tax for Glendale school district No. 77 for 1930 is 8.1 mills as compared with 8.9 mills for 1929. The amount of special school tax raised on a valuation of \$1,727,815, the second largest school district in the county, is \$14,513.63. Special school taxes varying in amounts up to about three times the levy in the Glendale district, or as high as 25.8 mills, prevail in some of the other school districts of the county.

The present amount of special school tax levy will need to be considerably increased within a year or two if the schools here are to be maintained and operated at present standards and this without any increase in actual operating costs. The reason for this is for several years past a special tax refund received from the O. & C. bond grants a few years ago has been used by the local school board in preparing the annual school budget thus lessening the amount required to be raised by special school tax. Another two years will see this refund money all used and that will necessitate the amount represented by this refund to be made up in the regular school tax budget which can only be done by increasing the special school tax levy.

No special tax levies are being made in the tax rolls for 1930 for road districts No. 54 and No. 19. The city of Glendale comprising road district No. 54, made provision for \$2,000 for road purposes in its city budget and this is included in the amount of special city tax.

The lower Cox creek, Fernvale, Reuben and Withcomb roads, just outside of Glendale, are included in district No. 19. No special levy was voted here last year. With a total district valuation of \$1,410,480 its proportion of the county's general road fund will be approximately \$1012.
