

PREVIEW REVEALS "AFRICA SPEAKS" UNUSUAL PICTURE

(By G. C. R.)

Through the courtesy of the management of the Indian, we saw a preview of "Africa Speaks" yesterday afternoon. W. M. Campbell, city superintendent of schools, several teachers and representatives of the News-Review saw this remarkable exploration picture. It is our candid opinion as well as that of Mr. Campbell that every man, woman and child who sees this picture will profit by it. It is the most unusual motion picture this reviewer has ever witnessed.

The Colorado expedition which plunged into the very heart of the jungles and plains of Africa to "shoot" wild animals with talking picture cameras came back with a record that is breath-taking. Unlike many other travel pictures, "Africa Speaks" includes little preliminary material. Almost all of the film is devoted to camera studies of people and animals in the strange dark continent. Duck-billed women, native "beauties" with wooden discs in their lips 10 inches in diameter, a whole tribe of pigmies whose average height is four feet, actual pictures of a man-killing lion slaying a boy, a tropical lake upon which untold millions of giant birds, breed, live and die—these and scores of other scenes which test the imagination in grasping them feature this picture.

By all means see it and be sure that the children see it. "Africa Speaks" shows at the Indian theatre today and Saturday.

Never Saw Such Medicine, He Says

way to do it than to tell them of the fine new health Sargon brought me. Before I started I was constipated, bilious and rundown. Stomach trouble and indigestion had me in mighty bad shape and I hadn't seen a well day in five years. Sargon and Sargon Pills turned the tables for me completely, ended all my troubles and built me up to where I feel as good as I ever did in my life. This Sargon treatment is wonderful."
