"NOW-We AUDIT our INSURANCE as well as our books"

"We were concerned to learn that the owners of a neighboring plant, following a disastrous fire, found serious deficiencies in an insurance protection they had supposed to be completely adequate."

"We asked ourselves: 'If fire came what would our situation be?' The more we studied our many policies, the more perplexed we became, and the less convinced of the quality of our own protection."

"A GENERAL Insurance Audit and Survey, made at no cost to us, was highly illuminating. It revealed 'overlapping' of policies, lack of protection at vital points, and plant conditions that raised insurance costs."

"Corrective measures indicated by the Survey were adopted. Now, for the first time, our insurance coverage is adequate and accurate, giving us simplified, complete, SAFE protection against all contingencies—and at lowered cost!"

Insurance AUDIT & SURVEY makes protection CERTAIN!

After the loss, it is too late to find out whether your policies cover your hazards properly. Authorize us NOW to make (at no cost to you) an Audit and Survey of your insurance in force. Its written findings will disclose any deficiencies in your present protection. Adoption of its recommendations will assure you (1) absolute uniformity of policies in force; (2) accurate relation of insurance to values; (3) COMPLETE PROTECTION at lowest cost.
