ACCUSERS FACED BY BISHOP CANNON

Churchman Goes to Trial on Crutches and Police Keep Public Out.

WASHINGTON, Feb. 4 — Police stood guard as the secret hearing of charges against Bishop James Cannon Jr. proceeded today at the Mount Vernon Place Southern Methodist church.

The accused prelate arrived on said he was "extremely weak."

Bishop W. N. Ainsworth of Birmingham, Alabama, who is presiding over the hearing, again refused to divulge charges against his fellow bishop. He said, upon entering the church, that he had nothing to say now regarding the charges and their nature might never be made public. The results of the hearings will be made public promptly, the question being whether the charges justify his citation for trial before the next general conference of the church in 1934.

Bishop Cannon faced his accusers once more after having spent the night in Sibley hospital. He planned to conduct his own defense, Bishop Ainsworth having ruled yesterday that he could cross examine any witnesses.

During yesterday's hearing, Cannon objected vigorously each time a specific charge was submitted by Dr. Forest J. Prettyman of Baltimore, Dr. I. P. Martin of Abingdon, Virginia, and Drs. Costen J. Harrell and J. T. Mastin of Richmond, who filed the charges last September. Most of the objections were overruled.

The first witness to appear today was George P. Adams of Blackstone, Va.

Adams is secretary and treasurer of the Blackstone Female institute, a Methodist school for girls, and a lifelong friend of Bishop Cannon. The nature of his testimony was withheld.

WHITSETT RITES SET FOR SUNDAY

Mrs. Pearl Houlis, of Dallas, Texas, daughter of Samuel D. Whitsett, who was killed last Friday morning in an automobile accident, arrived in Roseburg yesterday evening. Arrangements have been made to conduct the funeral services for Mr. Whitsett Sunday at 2 p. m. at the Roseburg Undertaking company chapel. Rev. C. A. Edwards will officiate and interment will take place in the Masonic cemetery. Arrangements have been held up pending the arrival of Mrs. Houlis.

NEW BUILDING TO COMPLY WITH LAW

Construction of a tile building of small size, to accomodate salesmen and patrons at the Hansen Chevrolet company used car lot on Jackson street, has been started. The building will replace a wooden house, built in the form of a trailer recently. The first shelter was ordered removed by the board of fire commissioners, as the city's fire ordinance prohibits the erection of all except fireproof buildings in the business district.

ONLY ONE COFFEE IS ROASTED UNDER SCIENTIFIC CONTROL

Hills Bros. Use Radically Different, Patented Process to Develop Finer Flavor

The housewife who cooks food in small quantities to insure perfect results will instantly recognize the value of Hills Bros.' patented, continuous process—Controlled Roasting—as a means to develop the utmost flavor in coffee.

Instead of the rare blend of fine coffees being roasted in bulk, which is the ordinary method, only a few pounds at a time are roasted. These small quantities pass continuously through the "Controlled Roasters" in which heat and speed of operation are automatically controlled.

Because of this accurate control of the flow of coffee and the heat, every berry of the blend is roasted evenly. None are overdone—none are under-roasted. This uniformity is demonstrated in the cup of coffee eventually made. It has a flavor other coffees cannot equal because they are not roasted the same way.

Hills Bros. Coffee is sold everywhere by grocers. It comes to you perfectly fresh because it is packed in vacuum. This process extracts air, which destroys the flavor of coffee, from the can and keeps it out. Ordinary cans, even if air-tight, do not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can.

The egg and poultry industry produces an annual return of over $1,175,000,000 more than the total wealth produced by the entire wheat crop of America! These are U. S. Department of Agriculture figures! Of this sum Oregon received $23,000,000. Part of these profits can be yours through the ownership plan of the Oregon Poultry Farms, Inc.

Month by month—year after year—owners of Units in the Oregon Poultry Farms, Inc., receive the earnings from their units of egg-producing hens.

Remember the hens are yours! You can see them daily, if you wish. You see them cared for under most scientific conditions by thoroughly experienced poultry men. Your first investment is your last cost, over a period of ten years. You are not responsible for the Oregon Poultry Farms, Inc. You are not liable to assessment. All you need do is cash your monthly earnings check! Think what this means toward your independence and peace of mind!

The amazing story of the poultry industry and how you may share in its rich earnings through association with the Oregon Poultry Farms, Inc., is told in fascinating style in our valuable and beautiful illustrated book.
