FORGER USES BOY AS AIDE IN CRIME

Milton Spafford, 26, Held in Roseburg With His Companion of 12.

Milton Spafford, 26, of Rainier, Oregon, and Henry Johnson, 12, of Reedsport, were brought to Roseburg late yesterday by Deputy Sheriff George Dietrich, following their arrest in Eugene. Johnson will probably be charged with aiding and abetting in the crime of forgery, and will be subject to a penitentiary sentence. The boy will be turned over to the juvenile court.

Spafford is said to have seen the Johnson boy playing with some other lads at Reedsport and told him he knew a way to make some easy money. He had the boy write several checks, using the name of his grandmother, with whom he made his home, and then proceeded to pass the checks, amounting in all to about \$20, the officers report. He persuaded the boy to accompany him, and they boarded a freight train for Eugene, where they were apprehended, upon information given by Sheriff V. T. Jackson.

Spafford is reported to have confessed the crime. He is said to have recently been released from the Portland jail where he served a sentence for vagrancy. He claimed to be Johnson's uncle, but the boy denied such relationship.

that the state should refund the money and start anew.

Eddy Suggests Plan
An argument arose over the disposition that has been made of the money collected. C. C. Chapman said it was held "in suspense" by the state treasurer, but Senator B. L. Eddy declared it had gone to pay state expenses, and that if the money were refunded it would be necessary for the state to issue nearly \$900,000 worth of interest bearing warrants that would cost the state \$150 a day interest. He could see no logic in "handing the money back with one hand by refunding and then taking it back with the other hand by passing the pending retroactive intangibles bill." Later Eddy suggested that the legislature might drop the retroactive bill and insert in the proposed permanent bill a clause providing for transferable certificates which, in the payment of other taxes, would give the holder credit for payments made under the invalid act.

Opinions Aired
Byron insisted that it was imperative that the state keep good faith with the people who paid. "If it is not done," he said, "I predict that it will cost the state many hundreds of thousands of dollars in evasions of other taxes."

Smith exhibited clippings from Oregon newspapers in an attempt to prove that the state tax commission had actually promised a

refund of the money if the law were held invalid, and criticized the commission for what he said was a change of front.

Pending Bills Assailed
Talley said he did not think either of the new intangibles tax bills that have been introduced were constitutional, and that he would not vote for either until assured that the refund on the old act would be made. Speaker Frank J. Loneragan of the house was of the opinion that the supreme court was wrong in holding the old act unconstitutional and urged that someone be named to carry the case to the United States supreme court. If the opinion that it is invalid stands he said the state could not escape the refund.

SUNSHINE MELLOWS Heat Purifies

LUCKIES are always kind to your throat

Everyone knows that sunshine mellows—that's why the "TOASTING" process includes the use of the Ultra Violet Rays. LUCKY STRIKE—made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED"—an extra, secret heating process. Harsh irritants present in all raw tobaccos are expelled by "TOASTING." These irritants are sold to others. They are not present in your LUCKY STRIKE. No wonder LUCKIES are always kind to your throat.
