WHAT gives Coffee a Sparkling FLAVOR?

A COFFEE EXPERT would answer immediately, "It is the quality of the green coffees from which it is blended; it is the care with which it is roasted, ground, and packed." And then he would add, "And the care with which it is made."

Golden West Coffee owes its popularity to all of these important steps . . . the choicest hard-as-flint green coffees from the mountain tops of Brazil, the high-grown coffees from Central America, the Mochas from far away Arabia, all help in producing a mellow blended smoothness.

Critical experts watch every step in the roasting, the grinding, and the "sealing in of the flavor" in the vacuum Golden West tins. Golden West even suggests a positive method of making . . . the "drip" system . . . as it assures the bringing into the cup all the stored up deliciousness of Golden West flavor.

Golden West Coffee and the "drip" coffee maker are as near as your own grocery store. Select Golden West the next time you buy coffee and use the maker. You will thoroughly enjoy that "flavor" which distinguishes Golden West from all other coffees.
