Play Safe... Buy in Pairs SAVE MORE, TOO...

Generally, when you need one tire, you need two. Many accidents are caused by one bad tire, or by trying to squeeze just a few more miles out of tires with smooth treads or weakened side-walls. For Safety's Sake, you need "Balanced Traction"... good treads and equal strength in both opposite tires. To induce you to buy in pairs, we offer you Extra Savings. Compare our prices, you will see that our price for two tires is considerably lower than twice the price of one!

You will enjoy Swift & Company's 1931 Year Book

...because the story of Swift & Company's activities for the year 1930 is of absorbing interest to every man and woman.

It tells how a solidly organized concern, dealing mainly in perishable foodstuffs, was able to come through a year of general depression, and earn dividends for its shareholders.

It shows that Swift & Company's profits come chiefly from savings and the elimination of waste.

It tells why a food monopoly by any packer or group of packers is impossible.

There are chapters on the Consent Decree and its modification; on Swift's service to the small retailer; on the incessant competition in the packing business; on Swift & Company's marvelous distributive system—and many other important subjects.
