## REEDSPORT MAN TAKES POSITION IN PORTLAND FIRM

REEDSPORT, March 5.—Stanley D. Chapin has arranged to turn over to his father his part of the office and business maintained by the Chapin Investment company, and will become identified with the Mutual Life Insurance company of Portland. He plans to go to Portland in the latter part of the month to begin his new duties. Mr. Chapin stated that while he is making this move for the purpose of enlarging his own field, he will still keep an interest in ReedSPORT, and be connected with Douglas county. His activities include a special course of training for the enlarged line of work. Mrs. Chapin and her daughters plan to remain in ReedSPORT until the close of school. Aside from being city recorder and being very actively engaged in furthering the city's affairs, Mr. Chapin has been teaching a class of 40 high school students in Sunday school. He is one of the most popular of ReedSPORT's businessmen, and the family will be greatly missed.

## CRITICS MARVEL AT AROMA AND FLAVOR OF FAMOUS COFFEE

Patented Roasting Process is the Reason for Distinctive Goodness

Of all coffees being sold today, there is one that is winning countless new friends wherever it is introduced because of its distinctive, rich flavor. As a matter of fact, more of this coffee is sold west of the Mississippi than any other brand of fine coffee.

Hills Bros. Coffee owes its matchless flavor to the patented process by which it is roasted. Instead of the rare blend being roasted in bulk, only a few pounds at a time pass continuously through roasters in which the heat and speed of operation are accurately controlled.

This process—Controlled Roasting—proves its superiority over any other method, because it roasts every berry evenly. None are overdone and none are underdone. Naturally a flavor is developed which is the last word in uniform goodness and one that no other coffee can equal.

Hills Bros. Coffee is sold everywhere by grocers. It comes to you perfectly fresh because it is packed in vacuum. This process extracts air, which destroys the flavor of coffee, from the can and keeps it out. Ordinary cans, even if airtight, do not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can. Hills Bros. Coffee, Inc., Portland, Oregon. ©1931
