Yet you sign for me at your country club"

What do the grim watchdogs of the desert know of luxuries? Well, try to take their Chesterfields away from them! Over there—and here too—a good cigarette means good tobaccos. What you taste in Chesterfield cigarettes is milder and better tobaccos—nothing else—blended and "cross-blended" to produce a satisfying fragrance, a flavor which is Chesterfield's alone!

Greater mildness... better taste!

FOR NINETEEN years, our Research Department has kept intimate touch with every new development of Science that could be applied to the manufacture of cigarettes. During this period there has been no development of tested value or importance to the smoker which we have not incorporated into the making of Chesterfield cigarettes.
