

DAIRY PRODUCTS' ODORS DISCUSSED

Few problems cause more frequent inquiry of Oregon State college specialists than the flavor and odor of milk, cream and butter. To answer these queries a new mimeographed circular of information by Dr. J. R. Jones has just been issued by the experiment station.

Flavors and odors in milk can ordinarily be traced to one or more of four causes: namely, the physical condition of the cow, highly flavored feeds, absorption of external odors and the growth of definite kinds of bacteria, says Dr. Jones. Feed flavors are the most commonly encountered.

Experiments have shown that when green alfalfa, kale, turnips, cabbage, rape, silage made from alfalfa or soy beans, are fed to dairy cows one hour before milking, the flavor and odor of the milk produced is seriously affected. Green rye, potatoes, dried beet pulp, carrots, and corn silage affect the flavor and odor of milk to a slight degree. Green corn, green oats and peas, green soy beans, pumpkins and sugar beets have practically no effect.

LEFTY GROVE SEES CHANCE FOR FLAG

PHILADELPHIA, Jan. 15.—(AP)—Lefty Grove predicted today the coming pennant drive will find him better than last year when he topped American league's pitching for earned runs.

The number one comeback of 1935, arriving here after signing a new Boston contract for next season, which is reported to carry a salary boost, said he's near the peak of condition even now.

For the Red Sox in general, the fireball artist saw even brighter possibilities. With the purchase of Jimmy Fox, Doc Cramer and Prez McNair from the Philadelphia Athletics, Lefty believes the Sox are "tops."

"We ought to be right in the thick of the pennant fight," he said.

RETZLAFF AND LOUIS HAMMER PARTNERS

CHICAGO, Jan. 15.—(AP)—Mike Jacobs, who has Joe Louis' pugilistic services tied up for five years, probably would be just as surprised as anyone else if Charley Retzlaff should whip the Brown Bomber Friday night, but such an eventuality would not find him unprepared.

Jacobs said he had an option on the North Dakota slugger for three fights, apparently on a just-in-case basis.

While both boxers hammered sparring partners about, the management disclosed that the advance sale of tickets had passed \$36,000.

Louis put in his heaviest day since he started training. He boxed seven rounds with an assortment of partners, but concentrated on Otis Thomas, Thomas, biggest and most active, devoted his time to defending himself, but took a severe body beating. Louis did not score a knockdown, concentrating on speed and timing rather than hard punching.

Retzlaff, who has been accused of being "right hand crazy," worked impressively. He landed a lot of sharp right hand punches, but missed them with the best left hand he has shown in drills. He boxed only three rounds, all of them with Harry Nelson of Detroit, who was nailed frequently.

They will start tapering off today, although both plan to box Thursday.

MAY STAGE BOUT FOR DEMO MEET

PHILADELPHIA, Jan. 15.—(AP)—The lure of a national political convention crowd—and its free spending reputation—has tempted Mike Jacobs toward bringing Joe Louis-Max Schmeling heavyweight fight here in June.

Jacobs is coming here a week from today to discuss the suggestion the bout be staged for the democratic national convention crowd.

The democratic convention opens June 23. Two fight dates suggested are June 22 and June 29.

In 1621— This picture shows how the Jamestown Colonists exchanged tobacco for brides. They paid "120 pounds of the best leaf" for transportation of each future wife who came to the New World from England.

In 1936— And here is a picture of the modern auction warehouse of today where the same type of leaf tobacco is sold on the open market to the highest bidder.

There is no substitute for mild, ripe tobacco to make a good cigarette—and there never will be ... and that is the kind we buy for Chesterfield Cigarettes.

In the tobacco buying season Liggett & Myers Tobacco Co. buyers will be found at 75 markets where the Bright type of tobacco is sold, and 46 markets where Burley and other types of tobacco are sold.
