1 t. salt
2 T. granulated sugar
1 egg well beaten
2 1/2 cups grated American cheese
3/4 to 4 cups bread flour
1/4 cup of granulated sugar
2 T. lukewarm water
1 compressed yeast cake

LOW COST HOUSING PROGRAM SHAPING

WASHINGTON, Jan. 22.—(AP)—Plans for a gigantic low cost housing program were almost ready today for presentation to President Roosevelt by officials who have been quietly drafting them for him.

They call for a permanent governmental agency to direct the program over a long period of years in conjunction with states and municipalities.

Federal funds would be offered to encourage local governments to inaugurate slum clearance and housing projects. How much money the treasury will put up remains, of course, to be determined by the president and congress. But some of the planners visualize appropriations of \$300,000,000 or \$400,000,000 annually, to be more than doubled by local funds.

In addition to low cost housing, the proposals it is said, aim to encourage private construction, perhaps through more liberal federal insurance of loans for new residential building and modernization.

Although based upon experience gained in the current low cost housing program, the long range plan contemplates three sharp contrasts in policy:

Local governments would inaugurate and carry out the projects. A means test would be applied to renters so the low cost housing would be available only for those of the lowest income class.

Federal financial aid would be frankly a subsidy so rentals could be low enough to reach families in slum areas.
