Today's Pattern

2671
FROCK WITH INDISPENSABLE JACKET A BOON TO LARGER SIZES.
PATTERN 2671

by Anne Adams

A jacketed dress comes in that category of things "once owned—always owned"—for its serviceability, usefulness and downright comfort are virtues much popularized. Especially flattering to the stout—(whether young or mature) this jacket-topped frock gives the illusion of tapering slimness, so much to be desired. The soft jabot and high-rising waist panel conceal and minimize surplus pounds. See how smart the contrasting jacket that whisks on or off in a wink, and may even accompany another frock? Choose a spaced print in crepe or sheer, with jacket or plain; or, fashion it of all one fabric, if you like.

Pattern 2671 is available in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44 and 46. Size 36 takes 33 yards 39 inch fabric and 12 yards contrasting. Illustrated step-by-step sewing instructions included. Send FIFTY CENTS (15c in coins or stamps (coins preferred)) for this Anne Adams pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Send for our SPRING PATTERN BOOK NOW! See how easily you can have a flattering, individual wardrobe that'll keep you smart all season! Trim house dresses, gay sports clothes, lovely afternoon and party frocks. Clever slenderizing styles. Misses and children's patterns. And a full story of the latest fabrics, with tips on using them to best advantage. PRICE OF BOOK FIFTEEN CENTS. BOOK AND A PATTERN TOGETHER, TWENTY-FIVE CENTS.

BOWES' AMATEURS PLEASE BIG CROWD

By C. V. S.
Ben Bernie, "The Old Maestro," in his radio program last night, said: "The only difference today between amateurs and professionals is that the amateurs are employed."

Local theater goers who last night saw and heard the Major Bowes' amateurs at Hunt's Indian theater will agree with "The Old Maestro," that the amateurs seen here gave a truly professional performance.

Although they have had only a few weeks of stage experience, all members of the troupe had stage presence and personality, plus ample ability as entertainers.

The show was greatly appreciated by a capacity audience at last night's performance.

YONCALLA GRADE 5 BEATS DRAIN FOES

The Yoncalla 5th grade basketball team defeated the Drain 8th graders 27 to 12 in a game Saturday night at Yoncalla. The first half was played on fairly even terms, with Yoncalla running up a lead of 13 to 8 near the close of the period. Applegate and Snide went on a scoring spree in the last half to give Yoncalla a victory by a wide margin.

The Drain graders also lost to Oakland in a game played at Drain Friday night, Oakland winning by a score of 27 to 8.

FINE OF \$15 PAID FOR DRUNKENNESS

A fine of \$15 was paid in the city court here this morning by B. R. McCollum of Myrtle Creek. He entered a plea of guilty to a charge of drunk and disorderly conduct, following his arrest last night by city officers.

ELGAROSE COMFORT CLUB HAS ENJOYABLE MEETING

MELROSE, Feb. 19.—One of the pleasant social gatherings of last week was the meeting of the Elgarose Comfort club held Friday afternoon at the beautiful home of Mrs. E. Edman.

The rooms were decorated in a Valentine motif and with bouquets of pussy willows and acacia blossoms, placed attractively about the living room. The dining room was beautifully decorated with red hearts and table decorations were pink carnations and greenery.

The meeting was called to order by the club president, Mrs. F. T. Reese and plans were made to hold a potluck supper and a leap year party to be held Saturday evening at the Elgarose play shed. A social time of visiting, games and dancing will precede the supper. At the club roll call the members responded by readings and household hints.

Preceding the business meeting a Valentine box was enjoyed. Two new members joined the club during the afternoon, which included Mrs. Kate Reese and Mrs. Lucy Woodruff. After the meeting adjourned a lovely luncheon was served by Mrs. Edman and Miss Lois Ford, joint hostesses for the afternoon, who were assisted in serving by Mrs. Roy Wether and Mrs. Norman Heas of Roseburg. The Valentine motif was carried out in the lovely lunch.

Those enjoying the afternoon were Mrs. D. J. Matthews, Mrs. Bruce Elliott, Mrs. Norman Heas, Mrs. C. M. O'Malley and Mrs. Roy Webber, visitors from Roseburg, and members present were Mrs. Stanley Sjogren, Mrs. Carl Lindas, Mrs. Charles Olson, Mrs. T. F. Ward, Mrs. G. D. Paris, Mrs. P. T. Reese, Miss Helen Backlund, Mrs. J. Sjogren, Mrs. J. G. Wicklund, Mrs. C. J. Lundeen, Mrs. E. L. Cooper, Mrs. Ed Glass, Mrs. John Busenbark Jr., Mrs. Kate Reese, Mrs. Carl Becker, Mrs. M. There are No Safer Brakes Made

than the Super-Safety Brakes on the 1936 Ford V-8

No other car in America has the same basic design as the Ford V-8. And because of its unique design—the Ford car could use any type of braking system now in common use.

BUT, with the whole field to choose from, Ford stands by mechanically-operated, Super-Safety brakes as the safest, surest, most positive for the Ford V-8.

This is the type of braking system used on many of America's costliest cars and on most racing cars. And because of its unique chassis design, Ford can use it to better effect than any other automobile built today.

Then, for the brakes themselves, Ford has provided more effective square inches of braking surface (186) than is found in any other low-priced car. And big, 12-inch alloy-iron drums with special cooling fins to give maximum braking power under all road conditions. All in all, no safer brakes are made than you get with the 1936 Ford V-8.

And right through the Ford V-8 for 1936, from bumper to bumper, the same attention to

your safety, comfort and peace-of-mind, characterizes the whole car. . . Ford uses a one-piece, welded-steel body because it is safer and quieter. . . Ford gives you Safety Glass in every window at no extra cost because Ford believes it is the manufacturer's duty to provide for maximum safety as part of the car's sales price.

Drive the Ford V-8. . . Notice how it "holds the road" on curves (you never have to "fight" a Ford around turns). . . Notice how dependably the brakes work on rough roads—on steep hills—or anywhere else. You can arrange to do this easily by calling:

FORD PERMANENT WHEELBASE

Radius rods [1] brace the front axle like a pair of giant arms. Radius rods and Torque-tube [2] give triple bracing to the rear axle. This means that the front and rear axles of a Ford car are always held equi-distant—in perfect alignment. On this permanent wheelbase any braking system now in common use could be used. Only with this Ford-type wheelbase, can mechanical, Super-Safety brakes be used to the fullest advantage.

FORD USES 4 INDEPENDENT BRAKE RODS

Four brake rods [3] of strong, tempered steel link the pressure of your foot on the pedal with the four big brake-drums on the wheels. They do this positively, surely, under all road conditions. Note especially that no one Ford brake has to depend on the other three. Failure of one—practically impossible—would leave three perfectly-operating brakes. Tear out this chart and check it with the car you are driving now.
