FARMERS TOLD TO CUT COSTS!

When the Douglas County Agricultural Outlook Conference recommended more careful attention to production costs they repeated what we have been working toward for fifteen years. THAT IS OUR BUSINESS. Not just to sell goods, but to get the best, most economical goods to the farmers of Douglas County at the lowest possible price. We have no theoretical illusions about doing business without any profit. But every dollar of profit made goes back to Douglas County farmers either in lower prices or increased service. We have no absentee ownership or management and no aim except to lower cost on farm necessities and help you to cut costs of production. Do YOU want lower prices and lower production costs? THEN DO YOUR BUYING WHERE IT HELPS TO GET IT. The economy of operation and upkeep of the tractors and implements we sell have set marks for others to shoot at.

The feeds we sell produce eggs or growth at a low cost per dozen or pound and you need not support a whole business just because you prefer one certain feed. The feeders of other feeds and the buyers of other goods help you support our business, and the profits are used for your benefit.

Think it over, friends, and "See Us First—We Can Save You Money"
