ITALY WON'T YIELD CONQUERED AREA

ROME, March 5 — (AP)—Italy will accept the league of nations appeal for peace with Ethiopia, an excellent source said today, as a basis for discussion under certain conditions.

What the conditions would be was not disclosed exactly, but the principal one was declared to be that territory already occupied by Italy in East Africa must be considered hers, and must not form any part of the peace negotiations. (This prediction of a conditioned Italian acceptance of the league conciliation committee's appeal for an end to hostilities, with a view to definite peace discussions within the framework of the league, followed an Addis Ababa announcement of approval of the proposal—without reservations.)

ADDIS ABABA, March 5 — Emperor Haile Selassie announced today his approval of the league of nations appeal for a cessation of hostilities with Italy, with a view to opening definite peace negotiations within the framework of the league.

Imperial approval of the peace appeal followed an announcement that an Italian plane bombed a British ambulance camp yesterday near Quorom, 20 miles south of Addis Ababa, in the northern front. This announcement said the fascist plane dropped 40 high explosives, killed three patients instantly and wounded four who died later. None of the ambulance personnel was reported injured.

NO WORLD WAR IN SIGHT, SHAW SAYS

SAN FRANCISCO, March 5 — (AP)—George Bernard Shaw says there will be no world war in the near future because major powers are afraid of each other.

"Disarmament conferences are utter rubbish," the 79-year old Irish playwright said. "They are held merely to keep the public amused. No nation is going to disarm. They sit around a table and say:

"If I shoot you with a 14-inch gun you will throw away your 16-inch gun."

"It is impossible to guess where the next great war will break out because it probably won't break out at all. War has changed so that the old gentlemen who send out young men to fight for them are no longer safe. Airplanes can bomb them as well as the soldiers."

Nations keep on building greater armies and navies, he told interviewers here yesterday, "because they want to build up a few profits for those who are engaged in the business of equipping armies."

"It keeps the taxpayers and the professional pacifists feeling busy."

BREAK ATTEMPT AT OREGON PEN FAILS

SALEM, March 5 — (AP)—Dupree Poe, life-terminer at the state penitentiary, got only as far as a prison storeroom adjoining cell, and two suspected accomplices failed to get out of their own cells in an attempted break early today, Warden James Lewis reported.

Poe, sentenced for the murder of a Silverton nightwatchman; Earl Davis, Redmond bank robber; and Clifford Daugherty, forger and escaped life-terminer from the Idaho penitentiary, occupied three ad-

joining "correction" cells in the yard of the prison next to a storeroom.

Guards found Poe gone when they went to serve breakfast to the trio this morning. Investigation revealed a hole in the wall between his cell and the storeroom, and further search disclosed the convict hiding in the room.

Another small hole was found in the wall between Poe's cell and that occupied by Davis.

Daugherty was sentenced from Coos county October 1, 1935, for 10 years. His record shows he has participated in 11 previous prison breaks. At the expiration of his sentence here he will be returned to Idaho to complete his life term.

Davis was sentenced to 18 years imprisonment from Deschutes county June 1, 1935. Poe was received at the penitentiary July 28, 1932, from Marion county.

WASHINGTON, March 5 — (AP)—Shortly before joining a white house conference on new relief appropriations, Harry L. Hopkins predicted today 3,300,000 employables will be dependent on the federal government for support July 1.

This estimate, made at a press conference, would be "300,000 less than the intended scope of the present works program — which, however, is now employing approximately 3,800,000.

Hopkins said he expected slow moving relief agencies to put on an extra 400,000 employes between now and July 1 — beginning of the next fiscal year.

Meanwhile, he said, the WPA rolls will be cut by 700,000.

He explained that "in some instances" those now employed by WPA would be dropped, while most others would find either other federal relief employment or seasonal jobs.

Engineers and farmers are the most "masculine men," a psychological survey at Stanford university showed.
