MAYOR CLARK PAYS TRIBUTE TO B.P.W.

A tribute to women engaged in business and professional activities is given by Mayor Charles W. Clark, in cooperating in the national observance of National Business Women's week from March 16 to 21. In a proclamation today Mayor Clark says:

"The Business and Professional Women's clubs, through their untiring efforts since their organization, have brought about a greater recognition of woman's place in the business world. We know that for many years the woman in business was frowned upon, not only by her male associates, but also by the members of her own sex who could not reconcile within themselves the thought that a woman was fitted to take her place with men in business and professional callings. They have demonstrated beyond a doubt their ability. They have won our admiration and esteem. In fact, they have raised the standards of business and professional life to a degree which merits our commendation and commands our attention."

"In observing National Business Women's week from March 16th to 21st, we are giving rightful homage to the women who have and are making this a better world through their influence and ability."

(Signed) C. W. CLARK, Mayor.

WOULD BAN POLITICS FROM GAME BOARD

PORTLAND, Ore., March 12.—(AP)—Arthur J. Moulton sounded a call to take politics out of the Oregon state game commission. "If we can do this," he told Isaac Walton league members last night, "the commission will be able to carry out its plans without fear of interruption after each new election."

Moulton, well-known Portland member of the league, has been a close follower of game and fish legislation for years. On numerous occasions he appeared at state legislature committee hearings to present the views of sportsmen.

Snappy Joke on Thief

PORTLAND, Ore., March 12.—(AP)—A thug who seized the contents of a metal box Richard Reeves was carrying, fled in disorder when he found a snapping turtle instead of a roll of bills in his hands.

Prodigal Returns

BERWYN, Ill., March 12.—(AP)—When Mutzy, pet cat of Walter Zelenski, 12, disappeared in 1923, Walter was not worried. He had heard that a cat always comes back.

Three years later his faith was wavering.

Then in walked Mutzy, travel-worn but otherwise unchanged.

REINHARDT'S FILM TOPS FAME'S CREST

By L. K. P.

When Warner Bros. who gave talking pictures to the world, announced that they had persuaded Prof. Max Reinhardt to produce Shakespeare's greatest comedy, "A Midsummer Night's Dream," they declared that the resultant picture would be the finest ever filmed. That this promise has been fulfilled, everyone who saw the gorgeously fantastic production at Hunt's Indian theatre last evening will agree.

The film is a revelation of the possibilities of motion pictures. Here is art in its finest sense and sheer beauty of fantasy, where imagination has its fullest play. Yet here too, is entertainment—for all the down-to-earth, side splitting humor of the "Dream" has been retained and spectators pause for a moment in their laughter to thrill at the drama or marvel at the beauty of spectacles. Throughout it all is heard the glorious music of Mendelssohn, especially arranged for this production by the famous Viennese composer, Erich Wolfgang Korngold, and played by a symphony orchestra.

Reinhardt, genius of the stage, has written a new page in the history of motion pictures. He has simply made a comedy that turns the mirror on the frailties and perversities of human nature, or in Shakespeare's words credited to Puck, "What fools these mortals be."

DIRECTOR DELZELL EYES WPA PROJECTS

Tom Delzell, district WPA director for southern Oregon, was in Roseburg yesterday from his headquarters at Medford to spend a short time here inspecting projects now in operation. He is continuing his trip to Coos county to inspect work being conducted there.

Mr. Delzell was greatly interested in the announcement made by Claude McCulloch, Klamath Falls, who declared his candidacy yesterday for democratic national committee. Mr. McCulloch and Mr. Delzell are close friends, and were neighbors in Klamath Falls.

It is the first time for several years, Delzell says, that a man from southern Oregon has sought a position as national committee man. Heretofore these positions have been held almost entirely by residents of Portland and vicinity, with an occasional candidate from eastern Oregon.

Mr. McCulloch, an able attorney, has been active for years in the democratic party, and his friends are expecting he will receive a large vote and will be one of the committeemen selected by the democratic party in Oregon, Delzell says.

work out a solution of it.

(THE solution favored at the present moment, as you must have noted in the paper, is to work on South America the same kind of skin game that was worked on Uncle Sam back in World war days, holding out the bait of big war markets and then borrowing the money with which to pay the bills. South America MAY fall for it.)

THERE is always, of course, the possibility of some startling incident that would influence the passions of war-maddened peoples. You will note that German planes have been flying over the French frontier and French planes have been chasing them back again, much as small boys "dare" each other. One of these "dares" might result in a bloody fight.

In that event, war might follow without waiting for the diplomats and the politicians to work out schemes to make somebody else pay for it.

The Way These Great Trucks are Built . . .

International Trucks today are the result of experience gained in over thirty years of concentration on truck manufacture. Not once do International engineers have to face the problem of compromising a detail of truck construction with passenger-car manufacture. They design trucks for truck work.

Truck men recognize the extra value in Internationals and the result is a demand that warrants large scale production. Out of that comes the manufacturing economy that enables Internationals to sell at remarkably low prices.

Come in and see the long line of quality Internationals and we will gladly arrange a demonstration of the one that fits your needs. Sizes range from 1-ton to powerful 6-wheelers, with all types of bodies.
