HITLER DECLARES HIS AIM IS PEACE

KARLSRUHE, March 12.—(AP)—Adolf Hitler, in a declaration of peaceful intentions to a cheering campaign meeting, said tonight "Germany has neither the intention nor the will to attack France, Czechoslovakia, or Poland."
Russia, the reichsfuehrer said, is not on the German border although she has been brought through pacts with a third state, to Germany's frontier.
"I think that there is an incalculable number of Frenchmen who want to live in peace with Germany," Hitler shouted to a madly cheering throng of 60,000.
Throughout his impassioned address he urged "common sense" and peaceful relations between nations. Citing the history of centuries of conflict between Germany and France, he expressed the opinion

that "dispassionate consideration of our mutual interests must lead us to understanding."

PORTLAND, March 12.—(AP)—The Franco-Russian alliance forced Germany into the Rhineland as a defensive maneuver, Major J. P. Stephenson, M. C., a member of the British army general staff, said today during a visit here.
The pact was signed against England's wishes and was recognized as a thrust at Germany, Stephenson asserted.
"Here's our military point of view," said the major. "When France entered negotiations with Russia, we tried hard to stop that, because in our opinion it was aggravating to Germany. It was bound to be dangerous."
"France and Russia only have themselves to thank for having Germany walk into the Rhineland. I don't think Germany would have gone into the Rhine unless that French-Russian pact had been made and I think Germany went in solely as a defensive measure."
He described the treaties of Versailles and Locarno as "vicious" and perfected in the "heat of passion."

MERCY KILLING OF CHILDREN FAVORED

SALEM, March 12.—(AP)—Chloroforming of hopelessly feeble-minded children committed to state institutions and tightening up of marriage laws was advocated by Dr. S. B. Laughlin, head of the Willamette university sociology department here.
Although stating that these children "were better off dead," Dr. Laughlin said there would be fewer mental defectives for the state to care for if all applicants for marriage license were forced to submit to strict medical and mental examinations.
He declared that one family alone at the Oregon state feeble-minded home had cost the state \$12,000 in taxes up to three years ago.
"One has only to visit this institution and look at those children lying in bed unable to lift their heads from their pillows, to agree with me that they should have been chloroformed," Dr. Laughlin stated.
Figures taken from the state budget control department today revealed that should the sociology professor's policy be put in operation, Oregon would be able to strike approximately \$300,000 from its annual budget.
The population of Fairview home, the Oregon feeble-minded institution, now is 969 inmates, a large share of whom would be affected by the carrying out of a program such as suggested by Laughlin.
Dr. Laughlin pointed out that his suggestion was in no way new, and that he and many others had previously advocated elimination of those hopelessly feeble-minded, both as a humanitarian act and an economic measure.

OBESSE LADY DENIED TEACHER'S PERMIT

ALBANY, N. Y., March 12.—(AP)—State Education Commissioner Frank P. Graves today denied the appeal of Miss Rose Freistater from a ruling of the New York City board of education she could not hold a teaching license because she was overweight. She weighed 182 pounds.
Commissioner Graves based his ruling on a legal technicality. Miss Freistater's appeal, he said, was not filed within the required time. He did not discuss her weight, but he said in his opinion:
"Of course, weight is not an important factor in determining a person's efficiency as a teacher. The remedy, however, is through the local school authorities... The commissioner of education may not substitute his judgment for the judgment of such authorities."

COPCO ASKS BOND REFUNDING PERMIT

SALEM, March 12.—(AP)—A saving of about \$150,000 annually will result to the California Oregon Power company should the public utilities commissioner approve an application for the issuance of \$13,500,000 refunding bonds by the company.
The application for the issuance was received by Frank C. McCulloch, public utilities commissioner, here today and he stated the estimated saving would result in a reduced interest rate on the new bonds. The issue would cover first mortgage bonds upon which six and a half per cent interest is now being paid. The new issue will carry a four per cent interest rate.

PORTLAND, Ore., March 12.—(AP)—The Oregon state liquor commission ruled that the Albert's Products company no longer may act as beer distributor. The firm was charged with cutting beer prices in violation of state regulations.
Arthur K. McMahon, chairman, said "the revocation is final as far as we are concerned."
The commission also named Acting Administrator Otto J. Runte permanent administrator, suspended one beer license, refused applications for five others and discussed a proposal to compel members of "clubs" to purchase liquor-buying permits as a means to control private profits resulting from club licenses to sell mixed drinks.
