

Junior Ball Talent Summoned

MEETING SET FOR
FRIDAY, APRIL 24

Ultimate Hope Is Roseburg
Team for Bi-State Game
at Legion Rally.

All boys interested in playing junior league baseball are urged by Ward Cummings, chairman of Umpqua post junior baseball committee, to meet at Finlay field at 4 p. m. Friday, April 24, for organization.

Any boy is eligible who did not attain his 17th birthday before March 31, 1935.

Chairman Cummings reports that every effort is to be made to build up a strong team from Douglas county this year. It is expected the Oregon-Washington zone play-off will be held in Roseburg during the American Legion convention in August, and the local supporters are strongly hoping that Roseburg can be the Oregon representative.

Several of last year's players will be back for this season.

Curley McLain of Myrtle Creek, veteran catcher, who will be playing his third year of junior baseball, is expected to be one of the most valuable players. His experience is expected to be of great help in rounding the team into shape, as well as maintaining good field play.

His teammate, Elliott, Myrtle Creek southpaw, who dazzled fans and batters alike last year, is expected to be the ace pitcher for the Roseburg team this season. Morgan, Roseburg speedy baseliner, is expected to be one of the chasers in the outfield. Miller of Oakland and Neal of Glendale, on the infield, all from last year's team, will lend experience and steadiness in key positions.

To Remove Light Poles.

A good selection of players will be available from last year's older midgelets, while encouragement being given baseball in various high schools of the county is expected to result in some valuable talent being made available from outside Roseburg.

Arrangements have been made to remove light poles from the playing field, as was done last year, consent of the school board having been given to the committee.

It is planned to start practice immediately in order that the team may get plenty of work together before the elimination contests are started.

In order that there may be no delay in getting organized for the season, Chairman Cummings urges that every eligible and interested boy be on hand at Finlay field promptly at 4 o'clock Friday afternoon.

GROVE'S PITCHING WINS FOR RED SOX

By ANDY CLARKE
Associated Press Sports Writer
Lefty Grove yesterday held the

Washington Senators to three scattered hits for his second win of the season as the Red Sox defeated the Nats 8-1 in a game that was halted in the seventh inning. The southpaw deserved a shutout. Washington's second losing run being the result of McNair's error on a grounder. The game was called on account of darkness and rain.

The Brooklyn Dodgers-Boston Bees game was called in the 12th inning because of darkness with the score tied at 6-6.

The Athletics, showing surprising power in their last two starts, gave the Yankees plenty of trouble before going down 7-6.

By the same score, the Giants defeated the Phillies.

RESCUERS REACH MINE-TRAPPED DUO

(continued from page 1)

that, in any case, the two living men would be kept at least 24 hours in their temporary minehead hospital to enable them to gain enough strength to make the 75-mile ambulance trip to Halifax over the rural muddy roads.

A group of three veteran coal miners, members of Nova Scotia's famous mine rescue organization, the Draegermen, formed the spearhead of the underground attack which reached the noted Toronto surgeon and his friend.

So unbearable was the pain that the two entombed men suffered that Dr. Robertson asked for hypodermic injections at once.

When the report came up from the depths that the two imprisoned men at last had been reached, cheers broke out.

The excitement was so intense that Royal Canadian mounted police cleared a space and warned the crowd to stay back from the mine head.

The wives of the two living men and the widow of the dead were waiting anxiously in the mine office several hundred yards from the Reynold's shaft for the rescue to be effected.

BEAVERS' BATFEST DEFEATS MISSIONS

(By the Associated Press.)

All that it should be for the home town folk, baseball's northern debut left Seattle back in second place in the Pacific coast league standings today.

In yesterday's only game, where one pitcher was enough for a club, the Indians thrilled 10,000 hopeful fans with a 5-4 ninth inning victory over the Padres from San Diego.

Portland's batters helped Seattle up by setting down the Missions 12-5. More than 10,000, about half of them youngsters, saw six pitchers futilely try to stop a hitter's holiday. Sixteen of the game's 28 hits were doubles. Seven Beaver bingles and seven runs were garnered from Lammick in the first two frames.

At the expense of Los Angeles' sinking searaphs, the St. Louis Cardinals Pacific coast representatives reached the bewildering height of sixth in the circuit standings. Everybody hit but two of Sacramento's pitchers as they won 10-8.

As at Portland, three hurlers for each nine yielded 28 hits, including six two baggers and four home runs.

San Francisco and Oakland were rained out.

More emphatically out is Empire Ernie Stewart because League President Wilbur C. Tuttle didn't approve of his being homesick for Los Angeles. Stewart was one of the umpires whose decisions brought on a storm of protest from Manager Max Bishop of Portland at Oakland a couple of weeks ago.

CHANCE OF CLOSING UMPQUA IS SMALL

(continued from page 1)

qua river is doomed to extinction unless the stream is closed to commercial fishing for at least two years, Max L. Kimmel, president of the recently formed Oregon Wild Life council, told the commissioners.

Branding law enforcement facilities of the state fish commission as "inefficient and bungling," he charged further that the artificial propagation of salmon for the Umpqua was not sufficient to maintain the chinook run.

Statements of Kimmel that the annual egg take of the state fish commission for hatchery stock was "less than 3,000,000" were hotly contested by M. T. Hoy, master fish warden for the commission.

Records of the present commission, Mr. Hoy pointed out, indicated an egg take of 48,000,000 in the last 11 years from the Umpqua.

Kimmel Resents Attack.

"But you take five million eggs and liberate four million in the Umpqua," Kimmel said. "I resent this attack. How many eggs did you take in 1921, 1922 and 1923?"

Without waiting for an answer

he continued, "I'll tell you. You didn't take any. You were busy building a dam with \$50,000 of the taxpayer's money, and today there are about two pillars left of that dam. The administration of game laws in this state is rotten. If you close the Umpqua river to commercial fishing the law enforcement will take care of itself."

Charles Marks, commercial fish representative, declared that "there seemed to be as many fish in the river now as there were 20 years ago."

BASSETT CASE CLUE GIVEN BY BOATMAN

(continued from page 1)

ago may have been caught by snags or rocks.

Szekfu's story of mysterious lights has been substantiated, but scientists, who have studied them, say they are similar to those caused by marsh gas at night.

Bassett was last seen Sept. 28, 1928. He was en route to Cavite, Philippine islands, to accept a position with naval headquarters there.

TOWNSEND CALLED TO HOUSE INQUIRY

(continued from page 1)

under the Townsend plan.

REGIONAL DIRECTOR TO ENTER OREGON DISPUTE

PORTLAND, Ore., April 22.—(AP)—Controversy in the ranks of Oregon Townsendism brought a new figure into the limelight of the state's pension organization today along with notice of plans for a "house cleaning."

Frank Arbuckle, regional director, informed Regional Representative John Weir he would arrive in Portland "late next week."

Arbuckle was quoted at Los Angeles as saying "we're going to center in Los Angeles, San Francisco, Washington and Oregon, and we're going to clean out the whole organization of discontents."

Weir arrived here several weeks ago at the height of dissension

over leadership, candidates' endorsements, campaign funds and club speakers. He re-affirmed in office State Manager James Logan, discontinued plans to raise a war chest for the primaries, barred official Townsend speakers from entering political campaigns and invalidated the state groups' endorsements.

Yesterday, Weir announced he had accepted the charter of club No. 7, Portland, but said such action did not constitute a cancellation since "members can, if they desire not to follow their officers, form a new club or join others in their neighborhood without paying additional membership fees."

Club No. 7, headed by Martin K. Wigton, became involved in a controversy with state headquarters over the ousting of Luther Egerton as a club speaker. Wigton and directors of the club, comprising 1,100 members, demanded a "housecleaning" of the state organization.

Weir said Arbuckle would attend mass meetings and meet with club officials during his visit here.

T. G. Lawson, of Canby Valley, was here attending to business and visiting relatives yesterday.

BLAZE DESTROYS MILL AT OAKLAND

(Continued from page 1)

ery, much of which was electrically operated. He was unable to estimate the complete loss, but stated it would probably be in the neighborhood of \$15,000.

The plant has been furnishing employment for eight men.

Considerable excitement was created as volunteers fought to save the steel smokestack. Foundations for two guy wires were burned and the tall stack was in danger of falling. Firemen poured water around the wires until the flames could be controlled sufficiently for men to rush in and anchor the loose wires to heavy machinery, thereby saving the stack.

Mr. Saar says that his future plans are uncertain, but that he will rebuild and restore the plant to operation if at all possible.

C. E. Moyer, of Dillard, spent yesterday in town attending to business.

H. B. Hastings, of Wilbur, was here for a few hours yesterday attending to business.
