EXTRA! GREAT BARGAIN SALE OF USED CARS

Hansen Company Dates Big
May Event; Chevrolet
Tops All Makes in
Popularity.

Because of Chevrolet's great volume during the last few months, the used cars traded in on Chevrolet's have accumulated beyond a desirable number. To reduce this great stock of used cars, the Hansen Motor Company, local dealer, has decided to have a real Bargain Used Car Sale lasting one week and one day, starting Saturday, May 9, and ending Saturday, May 16th. During this time the salesroom will be kept open evenings and Sunday.

Visits Factory

Hans T. Hansen, local Chevrolet dealer, just returned from a visit to the Chevrolet Motor company branch factory at Oakland, California. He reports the place humming with activity. They are working night and day and building more cars than at any time in history, shipping several train loads of new Chevrolets daily, giving employment to more than one thousand men.

Chevrolet Popular

Chevrolet for 1936 has proved to be America's most popular automobile by outselling all competition, both with passenger and commercial cars. During the month of April, Chevrolet sold more cars and trucks than in any month in its entire history. The Pacific Coast plant located at Oakland, California, has stepped up its former schedule of about 400 cars daily to 600 cars per day. This huge volume, however, does not take care of the Pacific coast states and additional cars are shipped to the coast from various other Chevrolet factories in east and central United States.

Chevrolet All Steel

Chevrolet is the only low priced car with steel protection on all sides. The old type construction of wood floors and chicken wire and cloth top deck was discontinued more than a year ago, and Chevrolets now have steel on all sides, one-piece solid steel top with no seams or joints. This heavy steel shell is reinforced and insulated with selected hardwood, mostly Spanish cedar imported from the Philippine Islands. This wood, together with heavy felt glued to metal panels, makes the highest type of automobile body construction known, as it's used on all high priced cars such as Buick, La Salle, Cadillac, Packard and others.

SHATTERED! SALE RECORDS IN ROSEBURG

Chevrolet, in Past 30 Days,
Sells 48 New Cars, 150
Pct. Gain Over Same
Period in 1935.

Chevrolet sold 48 new cars in Roseburg during the past 30 days, setting a new all time sales record for Roseburg, Hans T. Hansen of the Hansen Motor Company announced today. The sales were 150 per cent higher than during the same period last year, indicating substantial improvement in local business conditions, as well as reflecting the public approval of Chevrolet's new models.

The two Chevrolet lines—the Master Series with patented Knee-Action, and the Special Series, priced in the very lowest brackets but embodying exceptional performance, durability and economy, have "taken hold" instantly with motorists of this vicinity, with the result that the Hansen Motor Co. expects to shatter its sales records during 1936.

Chevrolet's new commercial cars and trucks are also in good demand, Hansen said, owing to the fine service records made by previous models in the hands of business houses and rural users in this vicinity.
