Vets' Poppy Sale Opens Friday

FUNDS FOR SERVICE WORK ARE SOUGHT

Generous Public Response Urged in Proclamation By Mayor Clark.

Backed by a proclamation from Mayor Charles W. Clark, the annual "Buddy Poppy" sale, to be conducted by the Veterans of Foreign Wars, opens in Roseburg tomorrow and will continue over Saturday. Proceeds of the sale will be devoted to widows and orphans of World war veterans and to the relief, welfare and service work carried on among veterans.

Explaining the use of money derived from the sale, a statement of the V. F. W. auxiliary says:

"One cent from each buddy poppy sold will be sent to the V. F. W. national home at Eaton Rapids, Mich., where it helps to operate and maintain that institution, another 2½ cents is used to maintain the national and state rehabilitation service.

"Added to the small sum paid the disabled veteran who makes the poppy, this three and one-half cents brings the cost of each poppy to five and one-half cents. All the proceeds over this amount are devoted to our local relief, welfare and service among disabled and needy veterans of this community. This city has always responded generously to the buddy poppy sale. We are confident that its response this year will be no less enthusiastic and no less generous than in the past."

The proclamation issued by Mayor Clark, urging general public response to the sale follows:

"The city of Roseburg during the great crisis of the World war sent forth its sons in response to the nation's call. They served gallantly in the nation's defense, and of their numbers some were called upon to lay down their lives in that service. The memory of their patriotic sacrifice should always be held dear by the citizens of Roseburg.

"Others of these brave young men were called upon to sacrifice, not life, but the health and strength which makes life worth while. Their families and the families of the dead also were required to make heavy sacrifices. These disabled and dependents are still paying the human price of our nation's World war victory.

"From the battle front in France our returning soldiers brought the poppy as the symbol of sacrifice and the memorial flower of the dead. Each year on the Friday and Saturday before Memorial day, the men of the American Legion, the Veterans of Foreign Wars and the women of the American Legion auxiliary and the Veterans of Foreign Wars auxiliary ask us to wear this flower in tribute to the nation's fallen defenders and to give in exchange for the flower a contribution to aid the war's living victims. The poppies offered to you this year represent the painstaking effort of disabled veterans in our own veterans facility at Roseburg.

"Therefore, I, Charles W. Clark, mayor of Roseburg, urge all citizens to honor the dead and to aid the living by wearing the American Legion auxiliary memorial poppy and the Veterans of Foreign Wars "Buddy" poppy on Friday and Saturday, May 22 and 23.

"And to that end, I do hereby proclaim Friday and Saturday, May 22 and 23, Poppy days in the city of Roseburg.

C. W. CLARK,
Mayor.

OWNERS REPORT Saving up to 6 Barrels of Gas in a Year with DODGE

AMAZED BY SENSATIONAL GAS ECONOMY OF AMERICA'S BIG, MONEY-SAVING CAR
THINK of it! Owners say that the way Dodge economizes on gasoline, it is saving them up to six barrels of gasoline a year! Twenty miles . . . 21 miles . . . 22 . . . 23 . . . and even more miles to the gallon! That's what Dodge owners from coast to coast report they are getting right out on the highways—right in city traffic—in average, everyday driving! Here's a typical example—a letter from Martin Brady, Valley Stream, L. I., New York. Read how Mr. Brady figures it out! He says: "I drive my new Dodge on the average of 15,000 miles a year. It is giving me 21 miles to the gallon. On this basis I'll use only about 714 gallons of gas this year. In my old car I used about 1,070 gallons. In other words I'll save about 356 gallons—or more than six large-size barrels of gas—a year!"
No wonder owners report that the big, new Dodge is actually costing them less to own and operate than any car, big or small, they ever owned before! No wonder more people buy Dodge cars than any other make, with the exception of the three lowest-priced cars!

"This invention showed me how I can save up to $50 in gas expense this year," says F. I. Peterson, Waukegan, Ill. "It's the gasometer, and it registers the miles per gallon a car will go. My old car was giving me about 12 or 13 miles per gallon. A friend told me about the Dodge gasometer test. I took this test and saw a Dodge go 21½ miles per gallon. That's why I bought a Dodge."
