SOLE TRADE TREATY RIGHT IS OPPOSED

Northwest G.O.P. Group to Ask Plank for Repeal of Power to F. R.

CLEVELAND, June 10.—(AP)—Republican convention delegates from Oregon, Washington, Idaho and Montana pledged themselves at a general caucus today to work as a unit for inclusion in the party platform of a plank calling for immediate repeal of laws giving the president power to negotiate reciprocal trade treaties. The delegates adopted a "Pacific northwest platform" drawn by a sub-committee named yesterday by chairmen of the four delegations. The platform, adopted without change, called for "immediate return to congress of all treaty-making powers, total suspension of the future-national clause, and abolition of all present reciprocal treaties so far as they relate to agricultural products."

The sub-committee said soft wheat had been placed at a disadvantage, along with lumber, as a result of competition from Canada. Under reciprocal treaties, the platform said, the bulb, pea and potato and livestock industries have been "nearly destroyed" and the dairy industry "greatly handicapped."

A tariff of 42 cents on wheat to preserve for American farmers "their rightful market" was asked.

Without mentioning the Grand Coulee and Bonneville projects by name, the delegates recommended "completion of all projects for the conservation of water and soil and for the development of navigation now planned and under way" in the four states.

The water conservation plank was urged on the contention that waters of the Snake river should be conserved primarily for reclamation. Joseph E. Dunne, of Portland, member of the Oregon delegation, said.
