ROOSEVELT FORCES SET TO BATTLE SMITH

Editorials on the Day's News

By FRANK JENKINS
THE big political news of the day is that Representative Lemke, of North Dakota, is to lead a third-party ticket this fall. Where he will lead it no one at the present moment knows.

To defeat, probably. That has been the usual fate of third parties in this country. Even Theodore Roosevelt, brilliant, beloved, and admired, could do no better than lead his third party (the Bull Moose) to defeat.

LEMKER isn't another Theodore Roosevelt. He is a radical-minded representative from the state of North Dakota. He is one of the authors of the three billion dollar printing press money farm mortgage refinancing bill that was too strong for even the billions-juggling New Deal to swallow. He is apparently gathering around him a group of people who are discontented with everything that is and has been, and out of this group his third party will be formed.

SOME idea of the objectives of this new third party (the Union party, its sponsors plan to call it) may be gained from the 15 planks of its platform that were given out by Lemke on Friday.

It isn't necessary to review these planks in detail. A sufficient understanding of them may be gained from the fact that they provide for prosperity, happiness, security, equality of mankind, etc., by the simple process of passing a law.

Here is a sample plank: "Congress shall assure production and a profit for farmers." Nothing is said about the weather and the soil. Supply and demand, including competition by the farmers of other countries, are left unmentioned. The effect of good management

CLOSE VOTE ENDS LOGGERS' STRIKE

PORTLAND, Ore., June 22.—(AP)—A bare majority of Columbia district loggers and mill workers accepted a proposed strike and lockout settlement, leaving final decision with employers today.

Election judges said the vote was 2647 in favor of the new working agreement and 2615 against. It was expected the employers' Columbia Basin Loggers' association would give final approval. There was no indication when the men would return to work. Ten thousand lumber workers came under the agreement and were eligible to vote.

At Marshfield another lumber strike ended as 450 employees of the Evans Products company headed back to work today under a new agreement, granting collective bargaining, time and a half for overtime, open shop and the previous wage scale.

The agreement in the Columbia district strike calls for general 75 per cent increases, bringing the minimum to 55 cents an hour, a 40-hour week, and establishment of a neutral hiring hall and arbitration board. The agreement runs until March 1, 1937.

The annual salmon bake sponsored Sunday by the Roseburg Rod and Gun club exceeded all expectations from the standpoint of attendance and interest. More than 4,000 persons, it was estimated, were in attendance. While it was impossible to secure an accurate count, it was believed that nearly 3,500 persons were present for the picnic lunch, where the gun club served 1,600 pounds of baked salmon and 3,200 cups of coffee.

The club had made preparations to provide salmon and coffee, but barely managed to meet the demand. However, everyone had all the fish and coffee they desired,

Dispensers Stress Law Observance

CONVENTION OF OREGON ASSN. OPENED HERE

Ban on Minors, Ousting of Irresponsible Retailers, Curb on Drunkenness Expressed Aims.

Speeches and resolutions introduced at the opening session of the Oregon Food and Beverage Dispensers' second annual state convention here this morning indicated that the organization, which now has more than 1,400 members in Oregon, will take strong stands for full cooperation in law enforcement with the state liquor control commission. Action indicated includes complete segregation of light beverage administration by the state from its administration of hard liquor; work for the elimination of irresponsible tavern operators and unsanitary establishments; and legislation specifically designed to keep minors away from beer-drinking establishments and to discourage hard liquor drinking by adults in or around dispensaries.

In addition, the beverage men made it plain that they intend to adopt policies before tomorrow evening's closing session designed to build tavern operations along lines calculated to merit public confidence in them as constructive mercantile endeavors and practical means of encouraging greater temperance by substituting light beverage consumption for hard liquor.

With delegates present from every county in the state, the two-day business session got under way in the Elks lodge temple this morning.

Wallace Kapp of Roseburg, chairman of the state general convention committee, called the convention to order and introduced President Ernest H. Aebi of Portland, who presided over the business session.

Hard Liquor Still Issue
President Aebi's annual address, the reports of officers, appointment of new committees and introduction of resolutions took up the entire morning session.

In his opening address President Aebi stressed the accomplishments of the organization during the last year in achieving definite betterments in the industry itself and in regulations beneficial alike to the tavern operators and the public.

"We started out," said Aebi, "to build confidence with the public, by the state liquor control commission and the various communities, not by making promises, but by doing things that merit confidence."

"Hard liquor is still a problem," he said.

BRITISH AIRPLANE HITS FRENCH LINER

GOSPORT, Eng., June 22.—(AP)—A royal air force bombing plane crashed on the deck of the S. S. Normandie today. No one was hurt.

The break accident occurred while the ship was in Cowes roads, disembarking its passengers from New York.

As Hawley piloted the bomber over the big French liner, it struck the starboard side, fell on the deck across the bows of the ocean vessel.

The pilot, shaken up, went ashore, leaving his airplane on the deck of the Normandie, which steamed off for Le Havre still carrying its unexpected cargo.

and the club had two salmon left over.

The trapshoot was one of the major events of the day and some excellent scores were made. The traps were busy from early morning until late afternoon.

The fly and plug casting events were also closely contested and were of much interest.

Archery, horseshoe pitching, swimming and dancing were other sports early enjoyed by members of the large crowd.

Dancing was enjoyed Saturday night, Sunday afternoon and Sunday night with a great many dancers at each dance, for which music was furnished by the Canyonville Rhythm.

Bonus 'Baby' Balks

The youngest man eligible for the soldier's bonus, Frank Sauliere, above, 31, of Boston, isn't going to collect it. He enlisted at the age of 12 years, 7 months in the 18th U. S. engineers and served through the war. His belief is that the bonus money might better have gone to disabled veterans, and widows and orphans of soldiers.

THREE INJURED IN TRAFFIC MISHAPS

W. Blake of Roseburg suffered severe head and face bruises Sunday morning when his car struck the concrete culvert bridge near the junction of the Happy Valley road with the Pacific highway. He was brought to Mercy hospital for treatment.

Ned Robertson and Helen Stough, both of Roseburg, suffered minor injuries Saturday night when Robertson's car was crowded off the Umpqua park road. Miss Stough remained in the hospital over night, but returned home Sunday.

\$1,250,000 OFFERED FOR TITULAR FIGHT

CLEVELAND, June 22.—(AP)—Lincoln G. Dickey, general manager of the Great Lakes exposition, wired Mike Jacobs, boxing promoter, today he was prepared to underwrite a world's heavyweight championship match at the Cleveland stadium in September between Champion James J. Braddock and Max Schmeling of Germany, for \$1,250,000.

DRIED PRUNES ARE CONVERTED TO BEER

HOLLISTER, Calif., June 22.—(AP)—Prune juice will be foaming beer if E. A. Klepper has his way. Klepper, an employee of a San Francisco brewer, said today he has patented a process for making beer from dried prunes.

UTILITIES WIN ROUND IN U. S. COURT BATTLE

Appellate Justices Refuse to Postpone Injunction Suits Brought Under Holding Co. Law.

WASHINGTON, June 22.—(AP)—The government lost in the District of Columbia court of appeals today its efforts to delay trial of injunction suits brought by seven utility companies against the Wheeler-Rayburn holdings company law.

The court reversed a stay order entered in the case several months ago by Justice Jennings Bailey of the district supreme court.

Justice Bailey granted the stay after Attorney General Cummings had argued that litigation brought by the government in New York against the Electric Bond and Share company would thoroughly test constitutionality of the holding company law.

Cummings' plea that a "multiplicity" of suits brought by utility interests threatened to break down the machinery of the department of justice failed to win over the appellate court.

Issues Not Identical
Speaking for the Associate Justices Josiah A. Van Orsdal said issues raised in the cases were not all identical with those in the Bond and Share case.

"The government of the United States as a litigant has no greater rights than the humblest citizen," said his opinion.

"While we recognize the difficulty which confronts the department of justice in conducting the vast amount of litigation in which the various agencies of the government have become involved, as well as the duty of the courts to be indulgent where possible in the public interest, yet the rights of a citizen are not to be overlooked."

Stay Affects Business
That the rights of the plaintiffs in the cases here were suffering because of the stay was apparent.

SALEM COP GETS 3 YEARS FOR BRIBERY

SALEM, June 22.—(AP)—Circuit Judge Earl C. Latourette today denied a motion for a new trial for Orey Coffey and sentenced the former detective-sergeant of the Salem police to not more than three years in the state penitentiary.

Coffey was convicted last week of accepting a bribe, after which he was immediately relieved of his police duties by Chief Frank Minto. Coffey's conviction followed an investigation of gambling in the county.

The court doubled Coffey's bail and gave him 24 hours to put up the additional \$2,500 bond pending disposal of his appeal to the state supreme court.

Chief of Police Minto himself faces trial next Monday on two charges—malfeasance and failure to enforce the gambling ordinance.

CLYDE ANDERSON OF DRAIN PASSES

Clyde Anderson, well-known resident of Drain, died today following a short period of illness. He came to Douglas county about seven years ago, making his home at Drain. He was a member of the Pentecostal church.

Surviving are his widow, Mrs. Anne Anderson of Drain, and two daughters, Mrs. Lydia Erickson, Drain, and Mrs. Clara Belle Rowe, Bremerton, Wash. He also leaves two brothers, Earl and Glen Anderson, both of Kansas City, Mo.

The body has been removed to the Douglas Funeral home, and funeral services will be held in Drain, Wednesday at 2:30 p. m. Rev. Theodore Bueno officiating. Interment will be in the Drain cemetery.

Employment On Increase, Labor Figures Reveal

WASHINGTON, June 22.—(AP)—The labor department reported today \$8,000 persons were returned to employment during May and weekly payrolls increased approximately \$6,700,000.

At her press conference, Secretary Perkins commented the increase was unusual. She said May usually reflected the beginning of the summer decline in industrial employment.

"Everywhere I have been, I have found an underlying steady activity," Miss Perkins added. "Increased employment in building material industries apparently is resulting from repair work being done in summer resorts, indicating that they expect a good summer trade."

She said there was increased employment in durable goods industries, usually the last to gain.

The department said the total number of persons employed in May was 650,000 greater than in May, 1935, and that weekly earnings were almost \$36,000,000 higher.

The report said factory employment, contrary to seasonal movement, continued an upswing which has been reported each month since January.

An increase in farm wages and employment was reported by the bureau of agricultural economics.

"A definite increase in farm employment of hired labor and an increase in the rate of wages paid this spring compared with a year ago is expected to continue throughout the summer," the bureau said.

During the spring, farm wages paid a month with board averaged \$29.85 the country over, compared with \$19.11 in April a year ago. There is usually an advance with coming of the summer season.

COAL BILL TABLED AS CONGRESS QUITS

WASHINGTON, June 22.—(AP)—A heated but successful filibuster, which saw the Guffey-Vinson coal control bill kept from a vote, brought an end to the 74th congress early Sunday.

Senator Holt, West Virginia democrat, who played a prominent part in opposing the bill, yielded to an adjournment motion by Senator Robinson, Arkansas. The motion was adopted with a shout.

The house followed suit a few minutes later.

The controversial food and drug bill also died in the last moments of the session when the house refused to agree to the conference report.

An attempt by backers of the coal bill to hold congress in session failed.

The final major steps of the 74th congress were the passage of the congress were the passage of the 900,000 in new revenue, and the senate's rejection, 24 to 17, of the Frank-Leahy farm bill, which would have permitted the printing of \$3,000,000,000 of new money to refinance farm debts.

ROSEBURG BOY SAVED FROM DROWNING

Bobby Horner, three-year-old son of Mr. and Mrs. W. A. Horner of Roseburg, had a very narrow escape from drowning at Lake Tahkenitch Sunday. The lad, unnoticed, followed his father in a dive off the spring board. He was stunned by the fall and went down twice before his plight was observed. He was rescued by a man whose name was not learned, but who had been sunning himself on the beach after a swim. The child was unconscious when taken from the water but was soon revived. He was reported to be suffering but little effect from the accident today.

BONUS SENDS BANK CLEARINGS KITING

PORTLAND, June 22.—(AP)—World war veterans, cashing the first of \$3,000,000 paid out in checks in exchange for bonus bonds, sent bank clearings to new heights here Saturday.

The short-day banking session saw clearings reach \$5,951,000, compared to \$4,561,000 a week ago. Veterans' officials predicted that half the money was being spent to pay debts.

RESTRICTION ON WPA HIRE SLATED TO GO

Rule of Work Giving From Pre-November 1st Dole Will Be Rescinded This Week.

WASHINGTON, June 22.—An order to be issued this week by the works progress administration will lift the requirement that a person must have been on the dole prior to November 1 in order to obtain a WPA job.

Officials said today that state WPA administrators thereafter would decide which of those eligible for local relief, and able to work, would get jobs, regardless of when they went on the dole.

Lifting of the previous requirement, originally adopted to prevent communities from certifying an excessive number of unemployed for WPA work, was forecast several months ago by Administrator Harry L. Hopkins.

Officials said the present rule, requiring that a person must be on relief or certified for relief to be eligible for WPA employment, will be continued.

Explaining that under the new \$1,425,000,000 work relief appropriation not more than 2,300,000 persons could be given jobs, they added the rule is to be continued although a large number of the unemployed will not be eligible for federal help under it.

In his relief message this year, President Roosevelt told congress the appropriations would not be sufficient for a year unless private employment picked up.

Billions for Projects
Hopkins reported today that the WPA is ready to begin the new fiscal year July 1 with nearly \$1,000,000,000 in approved projects available for the job program.

A new report of works progress administration activities showed that 90,000 projects, involving an expenditure of \$1,149,371,856, were under way as of April 15, out of a total of 178,000 projects with an estimated total cost of \$5,450,000,000.

Approximately four out of every five dollars made available by WPA, the analysis said, are used for direct labor costs, while 86 per cent of the contributions of sponsors.

OREGON G. O. P. TO MEET IN CORVALLIS

PORTLAND, June 22.—(AP)—Week-end political caucuses of both major parties saw the selection of Corvallis for the third annual convention of the Oregon Republican club Sept. 4-5 and the election of John J. Beckman as chairman of the Multnomah county democratic central committee.

The democratic meet provided a momentary uproar when Mrs. Gladys M. Everett, vice-chairman, took over the meeting and found her authority challenged, some asserting she was without credentials.

Mrs. Everett, standing her ground, called for a vote and won, 183 to 69.

At the republican conference, Lowell Paget, president, said he had been assured that Senator Henry L. Allen, of Kansas, would attend the convention.

Bend and Pendleton also were considered for the republican convention site but Corvallis supporters succeeded in selling their city.

OFFICIALS LEAVE TO INSPECT ROAD

County Judge George K. Quine, Commissioners Britt Nichols and R. L. Stearns, and Floyd Frear, county engineer, left this morning for Diamond lake, where they will make an inspection of the work being done on the road westward from Big road. The CCC company at Diamond lake is engaged in extending the road westward from Rib Camas to Copeland creek.

The court will leave the lake Tuesday night and will spend Wednesday in Grants Pass, attending a meeting of the executive committee of land grant counties.

Heads Convention

Ernest H. Aebi, above, of Portland, president of the Oregon Food and Beverage Dispensers association, is presiding at the organization's state convention in Roseburg.

STATE WILL SUE FOR TRAFFIC FINES

SALEM, June 22.—(AP)—State Treasurer Rufus C. Holman, with the concurrence of the board of control, will start legal proceedings for the collection of traffic fines from counties and municipalities alleged due the state. It was announced here today.

The purpose of the friendly suit, in addition to collecting the funds for the highway department, will be to determine the law on fine collections, Holman said. The nature of the suit was not determined, but it was believed the city of Portland will be asked to start injunction proceedings against the state from collecting the fines.

Holman said the statutes were not clear on the matter. One act provides the state should receive half of all fines collected or assessed in the justice courts, while a later act provides the state should receive the entire amount. Fines levied for violation of city ordinances or assessed by city recorders would not go to the state, Holman added.

The treasurer's office has discovered many dormant fines lying in city or county treasuries, which should go to the state "in my belief," Holman said. The court action will be started at once, Holman said, following a conference here today with Governor Martin and Secretary of State Snell.

ASTORIA PLANS TO DEDICATE AIRPORT

ASTORIA, June 22.—(AP)—Children of Astoria, on the ground where Lewis and Clark made a rendezvous after their historic overland crossing from St. Louis, will dedicate the city's new \$500,000 airport Labor day with an air race from Salt Lake City.

Prizes of \$6,750 will be offered entrants in the race, which civic leaders hope to make an annual affair. Flies will be permitted to land at Boise, Pendleton and Portland.

The race also will mark the 100th anniversary of the first wagon train to blaze the Oregon trail.

Teachers Start Trek to Portland To Attend Convention of N. E. A.

PORTLAND, June 22.—(AP)—Thousands of teachers from all parts of the country packed their bags this week and turned toward Portland where the 74th annual convention of the National Education association starts next Sunday.

More than 16,000 teachers attended the last convention on the coast, Los Angeles in 1931, and the advent of better times is expected to bring an even larger number to Oregon.

The 1500 delegates and the other thousands of visiting teachers who will come to Portland to look will hear more than 300 speakers in the five-day program.

One of the outstanding events will be a debate on the two platforms of the major political parties, between two speakers chosen by the national committee.

Another scheduled event expected to attract widespread attention will be a demonstration of a new system of adult education exhibited by John W. Studebaker, federal commissioner of education. He will conduct a forum, at which

Dr. Agnes Samuelson, state superintendent of education in Iowa, will preside as president. Dr. Bruce R. Baxter, president of Willamette University, will deliver the principal address at the opening year per service.

PLATFORM

That's about the only big job confronting the democratic convention, opening in Philadelphia tomorrow. It may either win or lose for the Roosevelt-Garner ticket. Read NEWS-REVIEW wire reports.

NEW DEAL FOR FACES VOLLEY OF CRITICISM

President's Followers in Full Control as Demos Prepare to Convene in Quaker City.

By EDWARD J. DUFFY
(Associated Press Staff Writer)
PHILADELPHIA, June 22.—(AP)—The Roosevelt convention majorities paraded noisily into this usually sedate metropolis today talking frolic—but ready to make a fight of it with Alfred E. Smith, if he chooses.

"He is a delegate; the floor is his if he wants it," said Chairman James A. Farley.

Alfred J. Kennedy, an alternate from New York, had responded to Smith's demand for the unburial of Roosevelt with a proposal that the 1928 standard bearer go before the convention personally.

Should he do so, hostility from his own delegation and those of many other states already was assured. Neither Farley nor any other new deal leader apparently expected him to come down from New York.

The whole situation was thrown into the presidential campaign itself. Governor Alf M. Landon of Kansas, speaking at Topeka as the republican nominee, said each citizen would have to decide for himself the "demarcation between fealty to party and country."

In Massachusetts, Col. Frank Knox, republican vice-presidential nominee, said Roosevelt's chances of reelection were damaged. But Norman Thomas, the socialist presidential nominee in New York, said the Smith statement would win the new deal two votes for every one lost.

A third member of an old team of the empire state democracy, (Continued on page 5)

GOV. LANDON TO BE NOTIFIED JULY 23

TOPEKA, Kan., June 22.—(AP)—Gov. Alf M. Landon will be notified formally of his nomination as the republican candidate for president at a ceremony to be held on the statehouse grounds here July 23.

The scene will be that at which the late Charles Curtis was notified of his nomination for the vice presidency in 1928 and 1932 and on which President Roosevelt made one of his principal speeches of the 1932 campaign.

Rep. Bertrand Snell, permanent chairman of the republican national convention, is the chairman of the convention committee that will notify Governor Landon of his nomination. However, a vacation trip he has planned for that time may keep him from participating.

Governor Landon said the Topeka chamber of commerce would cooperate with the republican national committee in developing details for the ceremony.

The program will start at 8 p. m. (central time) and will be broadcast nationally.
