Editorials on the Day's News

By FRANK JENKINS
SENATOR CARTER GLASS, of Virginia, a Democrat, criticizing the New Deal in a speech delivered in his home state, says:
"The President made the mistake of taking all the power that congress was willing to give him. It is the CONGRESS that should be blamed for abjectly surrendering its own constitutional functions and delegating them to the President of the United States and to various minor executive officials."

THAT is to say, the President took all that congress would give him and congress GAVE TOO MUCH. Therefore congress is more to be blamed than the President, for it is human nature to TAKE WHAT IS GIVEN.

FOR example: If you have something to sell and somebody comes along and offers you a great deal more than it can possibly be worth, what do you do?

Why, if you are a normal person, you ACCEPT THE OFFER, of course.

In the same way, President Roosevelt has taken everything that congress has been willing to GIVE him.

CONGRESS, since the New Deal began, has given to the President more money and power than any one man should be allowed to possess in a country such as this. For that mistake, as Senator Glass says, congress is to be blamed.

HERE is the moral: At the election this fall we

ARMY OFFICER ENDS HIS LIFE IN LEAP

SHANGHAI, July 21.—(AP)—The military career of Orville M. Johnson, 52, ended today when he jumped or fell from the fourth floor of a hotel, Johnson, who was a native of Salem, Ore., was killed instantly.

Police said a note addressed to his wife, Mrs. Orville Johnson, San Juan Royal, Philippine Islands, indicated he planned to kill himself. Friends at Manila said he commented there, prior to leaving July 15 for the United States to visit his mother, that he might not return. He was an officer in the Philippine army.

Officers said his note ended with the words, "forgive me for having brought this upon you." Johnson was scheduled to leave for the United States today. He entered the Philippine constabulary in 1901 and later served as superintendent of the Baguio military academy. He also was once provincial governor of Landa.

His widow, Mary, formerly of Virginia, is in Manila.

KLAMATH FALLS, July 21.—(AP)—W. F. PORTLAND, July 21.—(AP)—Federal Judge Fee ruled that Harvey Beck, Jackson county miner, must make his formal complaint more definite in suing Tom Mix for \$10,000 damages. Beck alleged Mix roped him instead of a horse in a Medford exhibition May 5 and that he was seriously injured as a result.

Mayor Firm on Beer License Limit

CLARK SAYS 'NO' TO NEWLY VOTED PERMIT

Council Favors Findley's Request, 4-2, but Mayor Holds Roseburg Has Enough Parlors.

An emphatic ultimatum that he would not approve any applications for retail beer licenses which would increase the number of taverns in Roseburg was given the city council last night by Mayor C. W. Clark. The mayor's declaration followed the council's action by a 4 to 2 vote in granting a license to LeVere Findley to open a beer dispensary in connection with a restaurant he plans to operate in the Foster and Agee building on Stephens street.

Councilmen took the position that the place of business had formerly been licensed, although it has been closed for several months, and that it was, therefore, entitled to permission to operate. Mayor Clark stated that he definitely opposed adding to the number of taverns, that Roseburg is amply supplied with dispensaries and that he would personally refuse to give his approval to new applications which would add to the number of beer taverns in the city.

Rapp Favors Halt Wallace Rapp, trustee for the Food and Beverage Dispensers of Douglas county, appeared before the council and stated that the organization he represents does not oppose the granting of a license to Findley, in view of the fact that the place of business had once before been licensed, but it was urged that no further applications be granted.

Al Lunsford, until recently in business in Myrtle Creek, also appeared and declared that in view of the action taken on the Findley license, he would submit an application for a new license and would demand approval. Lunsford bore recommendations from the city council of Myrtle Creek.

Findley's application was received two weeks ago by the council and was referred to the committee on licenses. The committee reported last night it had thoroughly investigated the matter and that it was found Findley comes to the city with fine recommendations for character and business ability. In view of the fact that the place of business had been licensed in

DRUNKEN DRIVER LOSES LICENSE

Manford McCulloch, resident of Grandview, was fined \$100 and given a 30-day suspended license, when he entered a plea of guilty to a charge of drunken driving. The arrest was made Sunday by the city police, and McCulloch appeared late yesterday for arraignment before R. L. Whipple, acting city recorder. Upon payment of the fine and the 30-day jail sentence was suspended during good behavior. His license to drive an automobile was revoked for a period of one year.

SALEM PONDER'S ANTI-NOISE LAWS

SALEM, July 21.—(AP)—War on all types of noises, Sunday shoe-shining, and dealings by merchants evening and Sundays, opened in official quarters here last night when three ordinances were presented to the city council for action. The anti-noise ordinance, directed not only against automobiles, but barking dogs and other common near hospitals and churches and would carry a maximum penalty of \$500 fine and six months imprisonment.

The store closing ordinance prohibiting business after 6 and 7 p. m. evenings and on Sundays had the support of many merchants, while the bootblacks organized and seek to prevent any Sunday shining. The council will consider the measures further.

YOUTH MOVEMENT DECRIED BY FLYNN

PORTLAND, July 21.—(AP)—A critical attack upon the new deal by Edward F. Flynn, St. Paul executive of the Great Northern railroad, brought the assertion that "you and your children for generations to come will be living in a house of bondage."

Addressing a chamber of commerce forum here, Flynn expressed distaste toward the administration's youth movement, saying it smacked of "something un-American" and corresponded in name to activities in Russia, Germany and Italy.

CARSON HITS BACK ON SEWAGE EDICT

PORTLAND, July 21.—(AP)—It appeared to be build a sewage disposal plant "or else," so far as Portland was concerned today. The city received definite orders to "cease dumping its raw sewage into the Willamette river and Columbia slough" from Dr. Frederick Stricker, state health officer, who said "if this is not done the case will be referred to the attorney general for action."

Dr. Stricker cited a law ruling dumping of sewage a misdemeanor. The warning came on the eve of a city council discussion of the issuing of \$6,000,000 in bonds for such a plant. The bonds recently were declared legal by the state supreme court. Initial plans called for federal participation in the project, estimated to cost \$10,000,000.

The mayor sent a telegram to the governor, saying: "On behalf of the city government, we are calling on the governor and board of control to inform the city council whether Dr. Stricker represents the sentiments of the governor and the board. If he does we should like direct action from the governor and the board and if not we ask would he attend to his own business."

STRIKE HITS TWO PROJECTS OF WPA

VANCOUVER, Wash., July 21.—(AP)—A strike called by the workers alliance here in a protest against wages resulted today in a walkout of 116 men from two WPA projects employing 148 relief workers.

Walter Schwarz, resident WPA engineer, said: "If they want to walk out, they can, I presume. If they want to work, the work is there for them. If they want to picket, they can do so, so long as they do it peacefully and do not interfere with those on the job."

"About 19 of those in the walkout are leaders. The rest want to work but they are afraid." The strike follows a recent adjustment of the wage scale in Clark county. Strikers demanded a wage equal to that prevailing among employed labor in the county, or about 60 cents an hour. Other members said they would not ask an increase in the \$55 a month being paid by the WPA but would seek a reduction of hours.

Some leaders asserted that when the wage scale for the WPA was set, representatives of labor were not consulted, although farmers and business men were interviewed. "I am acting under certain regulations," said Schwarz, "and I am taking orders from the Longview headquarters."

Crusader. Informs Prober None of His Business; Contempt Citation Returns Him.

CLEVELAND, July 21.—(AP)—Dr. Francis E. Townsend, who walked out of a deposition hearing on the Townsend plan today, was stopped a few hours later in east Cleveland by a deputy sheriff on a citation for contempt of court, and was returned to Cleveland. Dr. Townsend then agreed to resume the hearing in common pleas court.

CLEVELAND, July 21.—(AP)—Dr. Francis E. Townsend walked out of a deposition hearing on the Townsend plan today, telling Benjamin F. Sacharow, attorney conducting the hearing, "it's none of your business." Sacharow was taking depositions in a suit he filed today in behalf of the Rev. Alfred J. Wright of Cleveland, deposed Townsend, central leader. He had asked Dr. Townsend concerning advertisements for pills, appearing in a weekly Townsend publication. As Dr. Townsend left the attorney's office, his attorney, Sheridan Downey, asserted "it's another walkout."

Wright's suit named Dr. Townsend and other officers of the Townsend organization as plaintiffs, and asked removal of Dr. Townsend and trustees of Old Age Revolving Pensions, Ltd., an accounting for more than \$1,000,000 in the organization's funds, and appointment of new trustees and a receiver. Sacharow threatened to have Dr. Townsend cited for contempt by common pleas court if the pension leader did not return today. Dr. Townsend said he intended to go to Erie, Pa., to keep a speaking engagement tonight.

MOTHER IDENTIFIES BODY FROM RIVER

LONGVIEW, July 21.—(AP)—The body of an attractive appearing young woman, victim of an illegal operation, recovered from the waters of the Lewis river near Woodland city limits June 26, was tentatively identified last night as Mrs. Alice Sudora Knowles, 22, of Grand Coulee.

Mrs. Ruth E. Anderson, operator of a photographic gallery in Prosser, made the identification at Sheriff H. T. O'Brien's office in Kelso. She is the mother of Mrs. Knowles.

Mrs. Knowles, according to her mother, has been missing from Grand Coulee since June 21. Mrs. Anderson said her daughter was wed January 25 to a Harry A. Johnson, automobile salesman, although already married to Ernest L. Knowles, now on naval duty in China.

The sheriff said Mrs. Anderson told him her daughter was anticipating the birth of a child within five months and had contemplated an illegal operation, such as resulted in the death of the "mystery woman."

Approval was made contingent on assurance from local interests that they would undertake improvement and maintenance of the river channel across the bay. Dern said the Port of Umpqua had agreed to undertake the improvement stipulated.

HEAT SCOURGE STARTS ANEW IN ARID AREA

CHICAGO, July 21.—(AP)—Temperatures rose over most of the corn belt today with cessation of showers which broke the heat wave and, to an extent, loosened the grip of the drought. Forecaster J. R. Lloyd predicted no rain of consequence today or tomorrow in the drought area. Forest fires blazed in Montana, upper Michigan and in Canada.

The worst wind and thunder storm in years lashed central northwest Texas last night, causing property damage estimated at hundreds of thousands of dollars. Whipped by a 65 mile wind, the storm poured torrential rain over a 200-mile wide strip. Property damage at Dallas was estimated at \$200,000, half of which was to the Texas centennial exposition.

At Tishomingo, Okla., 4.21 inches of rain fell in three hours. Additional deaths in Nebraska and Oklahoma, where for the most part the heat continued unabated, boosted the nation's total since July 1 to at least 4,576.

Scattered rains brought some relief to parts of Colorado, Wyoming and western Nebraska, where temperatures ranged in the nineties yesterday while states to the east enjoyed a respite from the heat. Lloyd predicted temperatures close to the 100 mark for today.

A renewal of unfavorable weather prospects, with comparatively small supplies on hand, caused a fresh rush of speculative buying in the Chicago corn pit. Corn futures soared in some cases to the full four cents a bushel rise, the maximum.

SIMMONS FACING ASSAULT CHARGE

Bert Simmons, resident of the Canyonville district, was placed under arrest today on a charge of assault and battery as the result of an investigation into an alleged battle Sunday between Simmons and Leslie Ellis, a neighbor, according to a report from the sheriff's office. Ellis is in the hospital here with a fractured jaw, blackened eyes and severe face and body bruises.

Simmons, who swore out a complaint against Ellis, charging the latter with assault with a dangerous weapon, was unscathed in the fight, according to Deputy Sheriff Clifford Thornton, investigating officer.

The stories told by the two principals, the deputy sheriff said, fail to correspond in important details, and the matter will probably be left to the grand jury. Ellis, the officer reported, claimed he was endeavoring to remove personal property from his farm which was recently sold for taxes, and was attacked by Simmons when he refused to remove his automobile from the farm.

Six other prisoners served in the Spanish American war. The largest bonus went to a life-terminer. PARKED FAMILY IS EUGENE PROBLEM

EUGENE, Ore., July 21.—(AP)—A WPA worker who found his \$44 a month salary was insufficient to feed and house his wife and six children, was residing on a parking strip in Eugene today while city and county officials pondered the question of his eviction, ordered by his landlord late yesterday.

The worker, Milo Casteel, allegedly has not paid his rent for 11 months and yesterday his eviction was ordered by his landlord, George Chapman, Casteel, employed on a WPA project on the university campus, told officials that of his \$44 monthly salary, \$10 was to go for the rent, leaving an average of 11 cents each for the feeding of each member of the family. Finding he could not do this, he let the rent go to remain on good terms with the grocer.

With the result that last night he found himself on the parking strip with no money and no place to go. Mrs. Casteel and the six children made themselves as comfortable as possible while Casteel mounted guard over his meager possessions. Disposal of his case puzzled officials today. Casteel meanwhile declaring he planned to "stick it out" on the parking strip till something happened.

The United States summer embassy is at San Sebastian and Ambassador Claude G. Bowers was reported in residence there as recently as Sunday. Peasants and workers, heavily armed, marched under the banner of the ruling popular front against entrenched rebels in several cities while civilian militiamen threw a protective circle around Madrid.
