By W. H. BAILLIE,
Executive Secretary, Convention Commission.

Percy Croft, chairman of the housing committee of the convention commission, is getting a lot of surprises lately. Not the least of these has to do with the number of reservations that are coming in from Dallas, Oregon. "I didn't know Dallas had that many people" was Percy's comment as he tolled through the room lists trying to find places for them to sleep. Dallas is only one of the communities of the northern part of the state sending large delegations to the convention. Percy does have his troubles and he deserves a lot of sympathy—and incidentally a lot of help.

A letter from Newport addressed to Al Bashford states that that community will have at least thirty-five in the parade along with not all the delegates to a convention march in the parade. If Newport will have thirty-five in their marching delegation, we can rest assured that there will be that many more standing on the sidelines to cheer them as they go by. From the looks of things this parade is going to be a lot bigger than was at first supposed. Judging from the delegations who already have their entries in, Al and his crew are going to have their hands full in getting it organized and away in proper manner. They will be busy ladies. When you see Al and his special police car dashing around from place to place with the siren wide open, step out of the way. They will be trying to be in several places at once.

A novel stunt will be pulled in connection with the great Legion parade this year. The entire route of the parade will be lighted with flares—red ones. A special subcommittee has as its job the placing of these flares along the route and the responsibility of replacing them when and if they burn out. It will be a beautiful line of march. The brightly lighted streets, the colorful uniforms and the post and unit flags all in line and marching to the most inspiring music is certainly a sight to look forward to. All southern Oregon will be here to see it.

Perhaps you didn't know it, but there is always a lot of jockeying by the different Legion bands and drum corps to win the coveted position at the head of the parade. This is already settled and who do you suppose gets the place? None other than our own famous and outstanding juvenile band. That's right. They draw the co-

ted honor and will that be a responsibility? Those kids are going to look mighty fine marching up the street under those lights at the head of the greatest Legion parade the Oregon department will have ever seen. And: "Along the sidelines you will see Emotion's sign of ecstasy: The hokey throat, the dampened eye.

The rigid form and stifled cry. Hearts full of pride forget to beat. When "Snap's" fine band swings up the street."

Visitors to the convention will see another organization that has won national recognition for their perfection. We hear, upon good authority, that the Salem drum and bugle corps, once national champions and twice runners-up for this great honor, have reorganized and will be present during the convention. After winning the national championship, this corps disbanded, as there were no further laurels for them to win. However, all the members of that old corps are troopers. They have it in their blood. They were never satisfied to sit on the sidelines and watch the other corps in the contests that they so dearly loved. Recently they perfected a permanent organization of their old drum corps members, and they tell us they are taking the old uniforms out of the moth balls and dusting off the old drums, with the idea of coming to Roseburg to demonstrate what the old "ins beans" can still do.

We are not able to learn whether or not Chuck Whittemore, national champion drum major, will be here with the Salem delegation. Chuck really is a handsome brute and there is little wonder that he was proclaimed the greatest Legion drum major in the country. He certainly could strut his stuff. The last we heard of Whittemore, he
