HAMILTON SCORES CATTLE PROGRAM

BILLINGS, Mont., Aug. 4.—(AP)—John D. M. Hamilton, republican national chairman, told party supporters here today the Roosevelt administration "pledged in 1932 to protect the American farmer," has instead caused "an enormous increase in farm imports and a startling decrease in American farm exports."

Hamilton and his party arrived here shortly after midnight from Bismarck, N. D., on his tour of 15 states in behalf of Governor Alf M. Landau's presidential candidacy.

"For three and a half years this country has been subjected to a remarkable hedge-podge in government," Hamilton's address, prepared for delivery here said. "It has seen an administration elected on a pledge of economy which has spent more than the administrations of the first 24 presidents of the United States in 122 years in office."

Hamilton declared President Roosevelt, "unlike a great president, Theodore Roosevelt, whose cousin he is, does not seem to understand in any sense the cattleman."

"You think you can run your business more efficiently than some one else can, and particularly more efficiently than theoretical bureaucrats in Washington can."

"You proceed on the insolent presumption that a study of socialist medicine in Europe in a library is less valuable to successful raising of cattle than the hardships and experience of the range."

"And you are rewarded accordingly with a policy which subsidizes the grass lands of your competitors and with a trade agreement with a northern neighbor which since January 1 has severely broken the market for your product."

MORE JOBS OFFERED DROUGHT FARMERS

WASHINGTON, Aug. 4.—(AP)—Orders to employ 25,500 additional drought stricken farmers, boosting the total number of works progress administration jobs in ten middle western drought states to 59,000, were issued today by Howard O. Hunter, assistant administrator in charge of drought operations.

Hunter assigned quotas for four states for the first time, with 4,000 WPA jobs authorized in Colorado and 5,000 each in Kentucky, Kansas and Nebraska.

At the same time, Wyoming's quota was raised from 2,000 to 3,000; Minnesota's from 1,500 to 3,000; and Missouri's from 3,000 to 5,000.

Hunter said WPA was "prepared and willing to meet the entire drought situation as far as providing assistance to drought stricken farmers through a works program" was concerned.

The government today authorized purchase of 4,793 head of drought distressed cattle, the first to be bought in the long delayed 1936 cattle buying program.

Purchases were made at the prevailing market price.

ZIONCHECK GOES BACK INTO CONTEST

SEATTLE, Aug. 5.—(AP)—Serious and determined, Marion Anthony Zioncheck, (D, Wash.), sought re-election to congress today to prove at his mother's request, he is "neither crazy nor foolish."

"At all times I wanted to file to succeed myself in congress, but I was advised that my mother's breakdown, caused by malicious and largely false reports about my activities, made this course inadvisable."

Later, however, my mother asked me to run to show the people that I am neither crazy nor foolish," said the frolicsome representative.

In a surprise declaration of candidacy yesterday, which came only three days after he said he would not seek re-election, Zioncheck became the sixth democratic and No. 13 on the list of those who seek the post from Washington state's first congressional district.

His brief radio address, which followed his filing for candidacy, was distinguished for its lack of reference to his eastern frolics with "cops and cockroaches so big that they cracked like teacups when stepped on."

"I will tell in the future all about my activities, both in and out of congress, so that my constituents can judge the truth for themselves."

PLANES STRIKE AT SPANISH REBELS

(Continued from page 1)

300 killed and a thousand wounded. Unable to bury their dead, troops engaged in the bitter encounter poured oil on the bodies and burned them on the battlefield.

The advance brought the insurgent right flank to within 36 miles of Madrid.

The insurgents have still to dislodge the strongly-outfitted loyalist troops from the protective Guadarrama mountains north of the capital city plateau before the way is clear for a march on the seat of the Spanish liberal government.

Red Cross officials estimated today 25,000 persons have been killed so far in the most savage political revolt in Spanish history.

Probably three times that many more have been wounded.

Determined to wipe out government leftist forces along Spain's northern seaboard, rebel troops launched a powerful artillery attack against Tolosa, south of the Bay of Biscay seaport of San Sebastian.

The steady whine and detonation of shells constituted the heaviest bombardment so far by rebel forces in the area surrounding the summer resort from which American Ambassador Claude G. Bowers was evacuated only a few days ago.

Further west the legions of General Mola began an offensive intended to reach an outlet to the sea by which hard pressed insurgents would be able to import arms and ammunition.

CRITIC OF SENATOR GLASS WINS OUT IN VIRGINIA RICHMOND, Va., Aug. 5.—(AP)—Norman Hamilton, Portsmouth publisher who has been a staunch supporter of the Roosevelt administration and frequent critic of Senators Carter Glass and Harry F. Byrd, was the nominee of second district democrats for congress today.

He defeated Rep. Colgate Darby, seeking re-nomination for third term, by an unofficial margin of 17,225 to 15,433.

HAVERHILL, N. H., Aug. 5.—(AP)—Expectations of a three-way race for the republican nomination for U. S. senator from New Hampshire disappeared today with the announcement of U. S. Senator Henry W. Keyes that he did not intend to seek re-nomination.

Former Senator George H. Moses and Governor H. Styles Bridges have announced their candidacies.
