BEAVERS, SEATTLE DOWNED BY FOES

(By the Associated Press.)

The Coast league's pell-mell race was tighter than ever today after Tuesday's losers dunked winners in the bitter cup of defeat Wednesday.

San Diego, Oakland and the San Francisco Missions were back in a three-way tie for third. Portland and Seattle, by losing dropped to three and a half and two games ahead of the third-place holders to make it mathematically possible for any one of four teams to usurp the league leadership from Portland this week.

Rock handed San Diego its sixth loss since late July. The Mission hurler let the Padres down with six singles, three of which were bunched in the fourth for their lone run in the 5-1 encounter. Hebert lasted less than two innings against the Reds, and Salvo and Archie Campbell also yielded runs, as the Missions totaled 12 safeties. Degantels was tossed out of the game in the third by Umpire Snyder for protesting a decision.

Sacramento manhandled Barrett as Seattle took a 10-5 lacing. The Solons made a run in the first, then put together five hits, a walk and an error for eight counters in the second. Osborn came to Barrett's aid and pitched creditable ball, but the Senators had too great a lead.

Newsome faltered, but finally choked off a ninth inning rally that sent four Indians home, and had the bases full at the end. Dollback led the hitters with three for five, including a double.

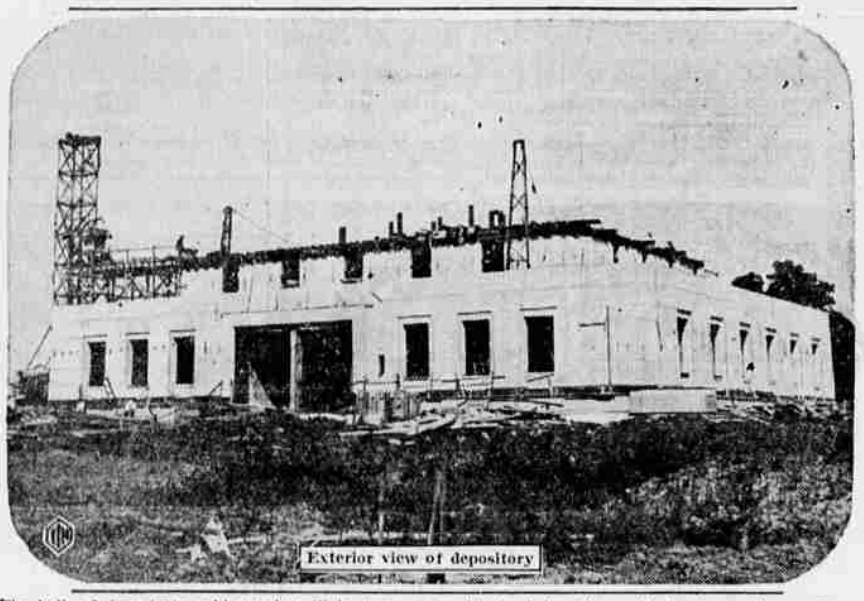
Douglas limited the Beavers to five blows as the Oaks won, 6-1, and Liska's submarine ball yielded four runs during the Beaver's tenure on the hill. French was nicked for two more during an eighth-inning three-hit outburst. Lodigiani had a perfect night against Portland pitching, hitting three for three.

Los Angeles goose-egged the San Francisco Seals, 6-0. Prim held the O'Doulmen to six well-spaced blows, while Sheehan was being bombarded for 17 hits, including Russell's homer and five doubles.

Death Ends Pact of Six Follies Beauties

Fulfilling a pact made 20 years ago by six Follies girls, Katherine Lambert, only surviving member of the group, is pictured as she dines alone in a New York cafe. When the six beauties started out on the road to stage fame, they agreed to meet in 20 years to discuss their adventures and success. Of the five others, Olive Thomas ended her life by taking poison in Paris; Lilyan Tashman, who achieved screen success, died; Martha Mansfield, also a film star, was burned to death; Fifi Alson died destitute although she had once married a millionaire, and Bessie Poole died following a disturbance in a night club. Thus fate ended their 20-year pact.

Where Bulk of Nation's Gold Will Be Stored



The bulk of America's gold supply will be transferred to a new subterranean stronghold upon completion of the depository under construction at Ft. Knox, Ky., near Louisville. The partly-completed main building, through which gold will pass to vaults far below the earth, is shown above. Hundreds of miles from either coast, the army camp is said to be a natural fortress because it is centrally located and protected by mountain ranges to the east and south.

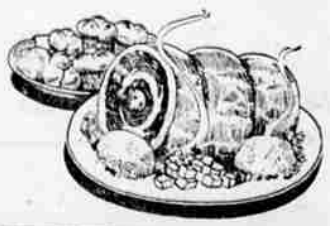
Married . . . to the best little cook in town . . .

Wise young bride! She did not tell her husband that she had never cooked before—and he never guessed her inexperience. The reason is simple: modern electric ranges abolish guess work. Anyone can cook roasts to rare, medium or well-done, like the great hotel chefs. Natural juices stay in the meat; vegetables retain their natural salts and minerals; bread and cakes bake to a golden color. And you get the same results every time.



ELECTRIC COOKERY is C-O-O-L

The kitchen with an electric stove in it is degrees cooler than with any other fuel. And the automatic devices abolish pot-and-oven-watching, so you're out of the kitchen much more of the time. Think of that!
